12. Credit accommodations which are fully secured, in respect of principal and interest, by cash or treasury bills, notes or bonds, or other instruments as the Bank may approve, shall be classified on the same basis as other credit accommodations, provided that provision against such accommodations may be required where the security is the object of an adverse claim.

13. Outstanding credit accommodations reviewed by quantitative approach shall be classified as follows:

</tr>
<tr>

</tr>
</tbody>

14. A bank or financial institution shall, in addition to classifying credit accommodations as either current or past due, review qualitatively and classify such credit accommodations into current, especially mentioned, substandard, doubtful or loss.

15. Current credit accommodations are those which do not have a greater than normal risk and do not possess the characteristics and weaknesses of classified credit accommodations as described in these Regulations.

16. Especially mentioned credit accommodations are those that are superior in quality to those classified as substandard, but which are potentially weak and thus require closer management supervision and include-

(a) credit accommodations with technical defects and collateral exceptions such as-

(i) un-located collateral file and documents including but not limited to title papers and deeds, mortgage instruments and promissory notes;

(ii) improper execution of supporting deed of assignment, pledge agreement, or real mortgage;

(iii) unregistered mortgage instruments;

(iv) collateral not covered by appraisal reports or whose appraisal reports are un-located;

(v) credit accommodations where corresponding promissory notes or credit agreements were signed by a
person other than the authorised officer of the borrowing firm;
(vi) credit accommodations secured by property the title to which bears an un cancelled lien or encumbrance;
(vii) collateral not insured or with inadequate or expired insurance coverage;
(viii) credit accommodations to companies not covered by authenticated board resolutions authorizing the borrowings; or
(ix) unsecured credit accommodations granted to directors and officers contrary to the provisions of subsection (2) of section 26 of the Act.

(b) credit accommodations not supported by up-to-date and adequate financial statements or credit information and they include:
(i) credit accommodations renewed, renegotiated or restructured without updated financial statements or income tax returns; or
(ii) credit accommodations without credit investigation or analysis reports or updated credit information independently verified by the lender.

(c) credit accommodations that need the attention of management for special or corrective action or both, these includes-
(i) credit accommodations wherein efforts to collect are not evident or are deemed inadequate;
(ii) credit accommodations granted beyond the discretionary limit of the approving authority;
(iii) drawings or availments against an expired credit line or drawings or availments

(v) credit accommodations to firms with profitable operations but belonging to a distressed industry;
(vi) combined indebtedness to the bank of a group of persons, firms or companies that are related, linked or connected to each other through common ownership, management or control or through common family or business interest where twenty-five per cent or more of such combined indebtedness is past due;
(vii) credit accommodations to borrower who frequently fails to respond to bank calls, visits or demand notices to pay; or
(viii) credit accommodations the repayment of which may be endangered by economic or market conditions or other factors which in the future may adversely affect the borrowers’ ability to meet scheduled repayments such as declining or fluctuating operation, illiquidity, increasing leverage trend, or declining market prices over a given period.

Substandard classification

17.-(1) Credit accommodations classified as substandard are those with weaknesses that jeopardize their liquidation such as weakness inherent in loans especially mentioned which are more severe or which have remained uncorrected for more than ninety days.

(2) The weaknesses under sub-regulation (1) may include adverse trend or developments of financial, managerial, economic, or political nature, or a significant
weakness in collateral.

(3) The basic characteristics of credit accommodations for substandard classification are as follows-

(a) credit accommodations which are non-performing;
(b) credit accommodations which possess the technical defects and weakness of loans especially mentioned and which have remained uncorrected for more than ninety days since the occurrence of deficiency;
(c) credit accommodations, whether current or past due, which have become unsound due to unfavourable results of operations of the borrower, significant under-capitalisation of the borrower, or absence of favourable track record showing borrower’s financial responsibility;
(d) term loans to borrowers whose cash flows are not sufficient to meet currently maturing debts and or overdrafts whose funds had been diverted or proceeds of the financed projects are not used to repay the amount outstanding; or
(e) credit accommodations to distressed industries repayments of which are imperiled.

Doubtful classification

18. Credit accommodations having the following basic characteristics shall be classified as doubtful-
(a) credit accommodations classified as substandard in the last quarterly review without any significant improvement since then in terms of full payment of interest due, among other things, except where such loans are well-secured by legally enforceable collaterals, standby letters of credit and irrevocable guarantees of top rated international banks, or the government and that legal action has commenced and realization of collateral within one year or enforcement of the guarantees within thirty days from demand can be expected;

(b) past due loans secured by collaterals such as inventories, receivables, equipment, and other chattels which have declined in value materially, without the borrower offering additional collateral and the borrower’s financial condition does not justify unsecured lending;

(c) past due loans secured by real mortgage title to which property is subject to an adverse claim rendering settlement of the loan through foreclosure doubtful or unviable; or

(d) credit accommodations whose possibility of loss is extremely high but for certain important and reasonably specific pending factors that may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until a more exact status is determined.

19. A credit accommodation having the following basic characteristics shall be classified as loss-

(a) credit accommodation classified as doubtful in the last quarterly review without any significant improvement since then;

(b) credit accommodation to borrowers whose
whereabouts are unknown, or who are insolvent, whose earning power is permanently impaired and the guarantors or co-obligors are insolvent, or that their guarantees are not financially supported; or 

(c) credit accommodation considered as absolutely uncollectible.

20. Where a bank or financial institution has granted more than one credit accommodation to a borrower or group of related parties, all such credit accommodations shall be assigned the least favourable classification given to any one of those credit accommodations.

21. The criteria for classifying a credit accommodation shall apply regardless of the type of security held.

22. Property and assets owned or acquired in settlement of loans shall be classified as substandard except the following which shall be classified as loss-

(a) the excess of the book value of the asset over the fair market value determined by independent professional valuation;

(b) the entire book value of an asset or property whose title is being contested in court or is definitely lost to another party;

(c) the entire book value of an asset or property which is not saleable;

(d) the entire book value of an asset or property which remains unsold for one year or more in the case of personal or movable property, and three years or more, in the case of real property;

(e) the entire book value of an asset or property which a bank or financial institution is
deprived of actual possession or beneficial ownership or over which the bank or financial institution is unable to exercise the usufructuary right; and
(f) the amount of accrued interest and collection expenses which were capitalized to form part of the value of the asset.

23.-(1) All receivables, except accrued interest receivable, shall be classified as follows:
