# 1.0 Inflation and Food Stocks

# 1.1 Inflation Developments

Albeit edging up in the past two months, twelvemonth headline inflation continued to evolve below the country's medium-term target of 5.0 percent, ceiling of 8.0 percent for EAC countries and target range of 3-7 percent for SADC countries. In May 2019, the annual headline inflation was 3.5 percent compared with 3.2 percent in April 2019. The moderate increase in inflation in April and May 2019 was driven by food inflation (**Chart 1.1** and **Table 1.1**). On month-to-month basis, headline inflation was 0.4 percent in May 2019 compared with 0.0 percent in May 2018.

**Chart 1.1: Annual Inflation Rates** 

Source: National Bureau of Statistics and Bank of Tanzania computations

Annual food and non-alcoholic beverages inflation increased to 2.2 percent in May 2019 from 0.9 percent in the preceding month but lower than 2.6 percent in the corresponding month in 2018. Month-to-month food inflation was 0.6 percent in May 2019 compared to negative 0.7 percent in May 2018.

Annual inflation for non-food consumer goods and services was 4.7 percent compared with 5.3 percent and 4.5 percent in April 2019 and May

2018, respectively. On monthly basis, non-food inflation was 0.2 percent in May 2019 compared with 0.7 percent in the corresponding month in 2018. Annual energy and fuel inflation eased to 10.5 percent from 13.3 percent and 21.2 percent in the preceding month and corresponding month of 2018, respectively. On monthly basis, energy and fuel inflation was 0.4 percent, significantly lower than 3.0 percent in May 2018 (**Table 1.1**).

Source: National Bureau of Statistics and Bank of Tanzania computations

Twelve-month inflation for all consumer goods and services, excluding food and energy—a proxy for core inflation—was 3.5 percent in May 2019 compared with 3.6 percent in the preceding month and 1.6 percent in May 2018. On monthly basis, core inflation was 0.2 percent compared with 0.3 percent in May 2018 (**Table 1.1**).

# 1.2 Food Stocks

Food supply remained adequate in most parts of the country, bolstered by seasonal harvest in the 2017/18 and stocks of the preceding period. In addition, food stocks held by the National Food Reserve Agency (NFRA) remained fairly high, amounting to 68,058 tonnes compared with 68,748 tonnes at the end of the previous month (**Table 1.2**). The food stocks, however, has been gradually falling since January 2019, reflecting seasonality of food harvest in the country. During May 2019, the NFRA sold 865.4 tonnes of maize to private traders, World Food Program and Prisons Department; and purchased 175.3 tonnes from farmers.

# 1.3 Prices of Food Crops

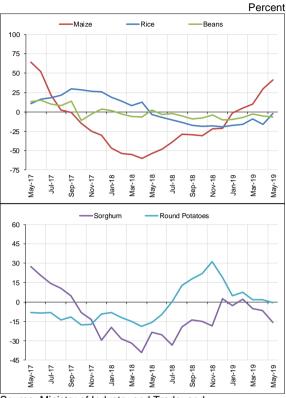

Wholesale prices for all food crops<sup>1</sup> were lower in May 2019 than in the corresponding month in 2018, except maize. On month-to-month basis, prices of major food crops increased (**Table 1.3**).

Table 1.3: Wholesale Prices of Major Food Crops
TZS per 100kg

			_	Percenta	ge change
Food crop	May-18	Apr-19	Mav-19	Apr-19 to May-19	May-18 to May-19

# 1.4 Domestic Fuel Prices

In May 2019, domestic prices of diesel and kerosene were higher than in the corresponding month last year, while that of petrol decreased (**Table 1.4**). By contrast, all fuel pump prices increased from the preceding month. Domestic pump prices are adjusted to world market prices and exchange rate, among other considerations, with a lag of two months. As shown in **Chart 1.3**, domestic pump prices of petrol, diesel and kerosene generally move in tandem, albeit differing in levels.

<sup>&</sup>lt;sup>1</sup> They include maize, rice, beans, sorghum, and round potatoes.

**Table 1.4: Domestic Pump Prices**

# 2.0 Monetary and Financial Markets

# 2.1 Money Supply and Credit

Money supply private-sector and expanded at varying speed, in response to a combination of various factors, including accommodative monetary policy and measures implemented by banks to improve asset quality. Extended broad money supply (M3) grew by 5.8 percent in the year ending May 2019, higher than 4.9 percent and 4.8 percent in April 2019 and May 2018, respectively. The expansion in M3 was driven by strong growth in domestic credit in the wake liquidity easing through accommodative monetary policy (Chart 2.1, Chart 2.2 and Table 2.1).

**Table 2.1: Money Supply and Components**

Total domestic credit—credit to the private sector and central government—by the banking system (Bank of Tanzania and commercial banks) grew at an annual rate of 18.0 percent in May 2019 compared to a contraction of 7.3 percent a year earlier (**Chart 2.3**). Credit to the private sector expanded by 9.0 percent compared with 2.7 percent, partly reflecting the impact of accommodative monetary policy and implementation of various measures to increase credit growth, including several initiatives to improve business-enabling environment and reduction of non-performing loans.

Chart 2.3: Credit to Private Sector by Banks

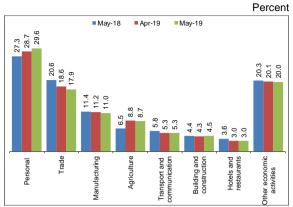

Source: Bank of Tanzania, banks and Bank of Tanzania computations

Note: LHS denotes left hand scale; and RHS, right hand scale

Credit to major economic activities increased during the year ending May 2019, except transport and communication, trade, and hotel and restaurants (**Table 2.2**). It is worth noting that loan extended to building and construction activities recorded annual growth of 13.4 percent, a sharp contrast to a contractionary trend (negative growth rate) since July 2018. Personal loans, usually used for small and medium undertakings and trade activities remained the major beneficiaries of loans held by the private sector, accounting for 29.7 percent and 17.9 percent of credit outstanding in May 2019, respectively (**Chart 2.4**).

# 2.2 Interest Rates

Interest rates on loans and deposits were generally lower in May 2019 than in May 2018 (**Chart 2.5**). Reflecting continued improvement in banks' asset quality and loan-granting process, overall and one-year lending rates decreased to an average of 17.17 percent and 16.99 percent in May 2019, from 17.53 percent and 18.05 percent in the corresponding month of 2018, respectively. Similarly, overall and 12-month deposits rates declined to an average of 7.62 percent and 8.90 percent, from 8.13 percent and 9.12 percent in May 2018, respectively.

### 2.3 Financial Markets

# 2.3.1 Treasury Bills Market

In May 2019, the Bank of Tanzania conducted two auctions of Treasury bills for monetary policy and central government fiscal operations. Keeping the tender size at TZS 141.7 billion per auction as in the last five months, the auctions were oversubscribed by TZS 123.6 billion. Successful bids amounted to TZS 296.4 billion, after intervention to ensure a consistent yield curve. Despite the oversubscription, the overall weighted average yield increased to 8.58 percent from 8.20 percent in April 2019 (Chart 2.6).

**Chart 2.6: Performance in Treasury Bills Market** 

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand Scale

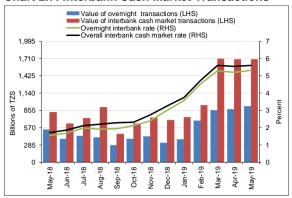

# 2.3.2 Treasury Bonds Market

The Bank of Tanzania, on behalf of the Government, auctioned 5-year and 20-year Treasury bonds worth TZS 79.3 billion and TZS 40.2 billion, respectively, for government fiscal operations. The 5-year bond auction was undersubscribed by TZS 24.2 billion, while the 20- year bond was oversubscribed by TZS 113.7 billion, with investors showing strong preference for 20-year bond. Successful bids amounted to TZS 42.0 billion for 5-year bond and TZS 145.9 billion for 20-year bond. Weighted average yield to maturity (WAY) for 5-year Treasury bond increased to 12.96 percent in May 2019 from 12.71 percent when it was last issued, while that of 20-year Treasury bond declined to 17.39 percent from 17.45 percent.

### 2.3.3 Interbank Cash Market

Total transactions in the inter-bank cash market (IBCM) decreased to TZS 1,690.1 billion in May 2019 from TZS 1,693.1 billion traded in April 2019. Overnight placements remained dominant, accounting for 54.2 percent of total IBCM transactions (**Chart 2.7**). Overnight interbank cash market interest rate increased slightly to an average rate of 5.32 percent in May 2019 from 5.20 percent in the preceding month, consistent with seasonal demand for shillings for purchasing cash crops.

**Chart 2.7: Interbank Cash Market Transactions** 

Source: Bank of Tanzania

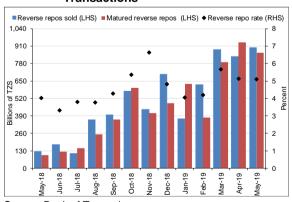

Note: LHS denotes left hand scale; and RHS, right hand

scale

# 2.3.4 Repurchase Agreements

The Bank of Tanzania continued to use reverse repo<sup>2</sup> to smoothen short-term liquidity needs in the banking system. During May 2019, the Bank auctioned reverse repo worth TZS 900.3 billion compared with TZS 834.1 billion traded in the preceding month. Meanwhile, reverse repo worth TZS 859.5 billion matured compared with TZS 936.3 billion that matured in the preceding month (**Chart 2.8**). In line with improved liquidity conditions among banks, reverse repo rate declined to an average of 5.09 percent in May 2019 from 5.12 percent recorded in April 2019.

Chart 2.8: Reverse Repurchase Agreements
Transactions

Source: Bank of Tanzania

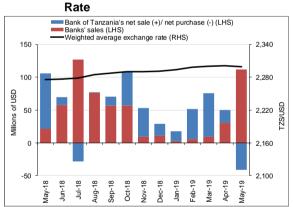

Note: LHS denotes left hand scale; and RHS, right hand scale

 $^{\rm 2}$  Reverse repo are initiated by Bank of Tanzania to inject liquidity in banks.

# 2.3.5 Interbank Foreign Exchange Market

The interbank foreign exchange market (IFEM) remained active and operated smoothly. In May 2019, transactions in the IFEM amounted to USD 119.5 billion compared with USD 49.9 million traded in April 2019. The Bank of Tanzania participated in the market for liquidity management purposes, purchasing a total of USD 48.5 million and selling USD 7.5 million. The shilling remained stable, trading at TZS 2,299.5 per US dollar, compared with TZS 2,300.9 per US dollar in April 2019. On annual basis, the shilling depreciated by 1.04 percent from TZS 2,275.8 per US dollar recorded in May 2018, broadly in line with inflation differential between Tanzania and its major trading partners (Chart 2.9).

Chart 2.9: IFEM Transactions and Exchange

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand Scale

# 3.0 Government Budgetary Operations

Domestic revenue realized by the Government in May 2019 amounted to TZS 1,281.9 billion, out of which TZS 1,231.4 billion were collections by the central government and TZS 50.4 billion was local governments collection from own sources. Tax collections amounted to TZS 1,119.9 billion, accounting for 87.4 percent of domestic revenue.

Chart 3.1 shows Government revenue performance by sources during May 2018 and 2019.

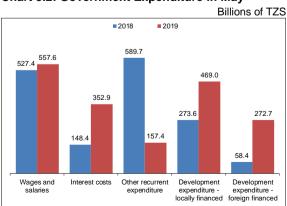

Chart 3.1: Government Resources in May

Source: Ministry of Finance and Planning, and Bank of Tanzania computations

Note: Data for 2019 are provisional

On the expenditure side, the Government continued to ensure discipline in the use of public funds and rationalize expenditure based on available resources and priorities. In May 2019, expenditure amounted to TZS 1,809.7 billion, out of which recurrent expenditure was TZS 1,068.0 billion and development expenditure was TZS 741.7 billion. Out of the resources spent on development projects, about TZS 469.0 billion was from domestic sources (**Chart 3.2**).

Chart 3.2: Government Expenditure in May

Source: Ministry of Finance and Planning, and Bank of Tanzania computations Note: Data for 2019 are provisional

# 4.0 National Debt

### 4.1 External Debt

External debt stock, comprising public and private sector debt, amounted to USD 21,600.8 million at the end of May 2019, having increased by USD 12.9 million and USD 1,074.5 million from April 2019 and May 2018, respectively (**Table 4.1**). The increase was mainly on account of new disbursements. Out of the external debt stock, about 75.6 percent was central government's debt.

Table 4.1: External Debt Stock by Borrowers

External debt disbursements in May 2019 amounted to USD 59.1 million, all of which received bγ the central government. Disbursements during the year ending May 2019 was USD 1,347.4 million, out of which USD 1,244.2 million was received by the central government and the balance by the private sector.

External debt service was USD 60.1 million in May 2019, of which USD 27.1 million was principal repayment and the balance was interest payment. During the year ending May 2019, debt service payments amounted to USD 935.2 million, of which the principal repayment was USD 641.7 million and the balance was interest payment.

#### 4.2 **Domestic Debt**

The stock of domestic debt was TZS 15,513.3 billion at the end of May 2019, an increase of TZS 669.2 billion and TZS 2,285.1 billion from the end of the preceding month and the corresponding month of 2018, respectively (Chart 4.1).

Chart 4.1: Government Domestic Debt Stock

Source: Bank of Tanzania

Composition of debt by maturity remained in line government medium-term management strategy of mitigating refinancing risk by lengthening the maturity of debt portfolio. Treasury bonds and stocks continued to dominate the composition of domestic debt, accounting for 65.3 percent (Table 4.4).

Government debt securities issued for fiscal operations in May 2019 amounted to TZS 458.3 billion, out of which TZS 313.9 billion was Treasury bills and Treasury bonds accounted for the balance. Domestic debt issued in the year ending May 2019 was TZS 4,310.1 billion, of which TZS 2,982.3 billion was Treasury bills and the balance was Treasury bonds (**Chart 4.2**).

Chart 4.2: Government Securities Issued for Financing Purposes

Source: Ministry of Finance and Planning, Bank of Tanzania and Bank of Tanzania computations Note: Figures on top of each bar are totals

Domestic debt service, excluding overdraft to the Government, during the month of May 2019 was TZS 474.1 billion, of which principal amounting to TZS 368.5 billion was rolled over, whilst interest amounting to TZS 105.6 billion was paid out of government resources. Meanwhile, debt service in the year ending May 2019 was TZS 4,778.0 billion, of which TZS 3,507.0 billion was principal that was rolled over and the balance was interest paid out.

# 5.0 External Sector Performance

The overall balance of payments was a deficit of USD 1,291.0 million in the year ending May 2019 compared to a surplus of USD 1,352.8 million, owing to a significant increase in imports of capital goods for infrastructure projects. The current account deficit widened to USD 2,150 million from a deficit of USD 1,896.5 million, on account of increase in imports of goods (**Table 5.1**).

Notes: \* includes adjustments for informal cross border exports; p denotes provisional data; and o/w, of which

Gross official reserves amounted to USD 4,309.5 million at the end of May 2019, covering about 4.2 months of projected imports of goods and services. The import cover was above the country benchmarks of not less than 4.0 months. Meanwhile, foreign assets of banks amounted to USD 1,026.3 million at the end of May 2019, higher than USD 795.2 million at the end of May 2018.

# 5.1 Exports

The value of exports of goods and services was USD 8,514.4 million in the year ending May 2019

compared with USD 8,578.7 million in the corresponding period in 2018. Exports of traditional crops declined to USD 533.9 million from USD 1,140.3 million in the year ending May 2018. The decline was manifested in all traditional crops, except coffee and cotton. Meanwhile, non-traditional goods exports, which accounts for 78.9 percent of goods exports, increased to USD 3,499.2 million from USD 3,142.7 million, largely driven by gold exports (Chart 5.1). The value of gold—which accounted for 38.6 percent and 48.9 percent of total goods and non-traditional exports, respectively—grew by 15.4 percent to USD 1,716.7 million on account of increase in volume.

Notes: Other exports includes minerals (excluding gold), oil seeds, cereals, cocoa, hides and skins

Foreign exchange receipts from services accounted for almost half of total export of goods and services, having increased to USD 4,078.1 million from USD 3,867.4 million in the corresponding period in 2018. The increase was driven by travel receipts, which comprises mainly receipts from tourism. Travel receipts grew by 9.5 percent to USD 2,503.3 million owing to increase in the number of tourist arrivals (**Chart 5.2**).

Chart 5.2: Services Receipts by Category

Source: Banks, and Bank of Tanzania computations Notes: 'Other Services' include communication, construction, insurance, financial, computer information, government, royalties and other business services

# 5.2 Imports

In the year ending May 2019, the value of goods and services imports increased to USD 10,257.6 million, 2.2 percent higher than the amount in the year to May 2018. Goods import bill increased to USD 8,207.0 million from USD 7,847.7 million in the year ending May 2018, driven by import of capital goods for the ongoing infrastructural projects in the country (**Table 5.2**). Meanwhile, the value of consumer goods imports declined owing to decrease in food and food stuffs import bill following good harvests during 2017/18 crop season.

Notes: Other services include; construction, insurance and
pension, financial, telecommunication, computer and
information, charges for the use of intellectual
property, personal, cultural and recreational;
government, royalties, personal and other business
services

Primary income account, which comprises income from capital related transactions and compensation of employees, improved to a deficit of USD 797.0 million in the year ending May 2019 from a deficit of USD 927.2 million in the corresponding period in 2018, following increase in receipts. On the other hand, balance of the secondary income account, which captures unilateral current transfer between residents and non-residents, narrowed by 20.8 percent to USD 390.2 million owing to a decrease in outflows.

# 5.3 World Commodity Prices

World market prices of most commodities were lower in May 2019 than in the preceding month (**Table 5.3**). The prices of coffee declined due to

higher supply, while that of cotton decreased largely due to weak global demand. Prices of crude oil fell mainly due to stock piling in the USA, coupled with weak global demand. Meanwhile, the increase in prices of tea was mainly due to low production in Kenya associated with unfavourable weather.

On annual basis, world market prices of all selected commodities decreased, except those of cotton, crude oil and white products (**Table 5.3**). Prices of coffee, tea and cloves declined due to increase in global supply following high production in major producing countries that is associated with conducive weather. Meanwhile, prices of crude oil and white petroleum products increased due to production cut following OPEC-plus<sup>3</sup> deal coupled with involuntary reduction of supply from sanctions-hit Venezuela and Iran.

**Table 5.3: World Commodity Prices** 

				Percentage	Year e	nding May	- Percentage

# 6.0 Economic Developments in Zanzibar

# 6.1 Inflation Developments

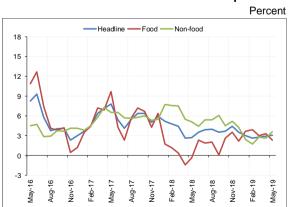

In May 2019, headline inflation edged up to 3.1 percent from 2.9 percent in the preceding month and 2.7 percent in the corresponding month of 2018. Twelve-month food inflation eased to 2.3 percent from 3.3 percent, while non-food inflation increased to 3.6 percent from 2.9 percent due to higher prices of cement, petrol and diesel. On monthly basis, headline inflation was 1.7 percent compared with 1.5 percent in May 2018 (**Table 6.1** and **Chart 6.1**).

# 6.2 Government Budgetary Operations

During May 2019, government resource envelope, which include domestic revenue and grants, amounted to TZS 58.3 billion, of which TZS 54.9 billion was domestic revenue and TZS 3.4 billion was grants. Revenue collections were 83.6 percent of the monthly target with all revenue categories performing below targets, save for income tax. Of the domestic revenue, TZS 52.0 billion was tax collections and the balance was non-tax revenue. **Chart 6.2** shows government resources during May 2018 and May 2019.

Chart 6.2: Government Resources in May

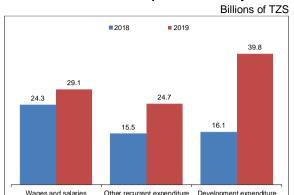

Source: Ministry of Finance and Planning, Zanzibar

Note: Other taxes include hotel and restaurant levies, tour operator levy, revenue stamps, airport and seaport service charges, road development fund and petroleum levy

Government expenditure amounted to TZS 93.5 billion, of which TZS 53.8 billion was recurrent expenditure and TZS 39.8 billion was expenditure on development projects. Foreign sources accounted for 63.4 percent of the amount spent for development projects and the balance was from domestic resources (**Chart 6.3**). An overall deficit of TZS 16.5 billion was realized in May 2019, which was financed through external loans.

# 6.3.2 Exports

The value of goods and services exports declined to USD 190.3 million in the year ending May 2019 from USD 235.6 million in the corresponding period in 2018 (**Table 6.2**). The decrease was on account of goods exports, particularly fall in cloves exports due to cyclical nature of the crop (**Table 6.3**). In contrast, service receipts rose primarily due to higher income from operations linked to tourism activities.

**Table 6.3: Goods Export Performance** 

					Year end	ling May	- Percentage

# **Glossary**

### Broad money (M2)

A definition of money that comprises of narrow money (M1) plus domestic currency time and savings deposits of residents with banks in the country.

### Currency in circulation outside banks

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e., outside the Bank of Tanzania and other depository corporations.

#### Core inflation

This is a measure of price movements caused by factors other than food and energy prices over a specified period of time. It provides better indication of the effectiveness of monetary policy.

#### **Discount rate**

The rate of interest that the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time to time depending on the liquidity situation in the market.

### **Disbursed Outstanding Debt**

This is the amount of debt that has been disbursed but yet to be paid back or forgiven.

### **Exchange rate**

The price at which one unit of a currency can be purchased with another currency, for instance TZS per US dollar.

# Extended broad money (M3)

A definition of money that consists of broad money (M2) plus foreign currency deposits of residents with banks in the country.

#### **Gross Official Reserves**

Gross official reserves consist of external assets that are readily available to, and controlled by the Bank of Tanzania for direct financing of balance of payments, and for indirectly regulating the magnitude of balance of payments imbalances through intervention in foreign exchange markets. Gross official reserves comprise the Bank of Tanzania's holdings of monetary gold, special drawing

rights (SDRs), reserve position in the International Monetary Fund, and foreign exchange resources, available to the Bank of Tanzania for meeting external financing needs.

#### Lombard facility

An overnight facility established to enable banks to borrow from the Bank of Tanzania at their own discretion, by pledging eligible government securities as collateral.

#### Lombard rate

The rate that the Bank of Tanzania charges a bank for borrowing through the use of a Lombard Facility. This rate is computed basing on the prevailing weighted average yield of 35-day T-bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

#### Money supply

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

#### Narrow money (M1)

Consists of currency in circulation outside banking system plus demand deposits (cheque account) of residents with banks in the country.

### Non-food inflation

This is a measure of price movements caused by factors other than food prices.

### Repurchase agreements (repo)

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date.

#### Reverse repo

An arrangement involving buying of securities at a specified price with commitment to resale the same or similar securities at a fixed price on a specified future date.

### Reserve money (M0)

The Bank of Tanzania's liabilities in the form of currency in circulation outside the banking system, cash held by banks in their vaults and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money, or monetary base or high-powered money.

# Weighted yields of Treasury bills

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
