BOARD OF DIRECTORS

Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration and Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Sector Stability and Financial Deepening (FSD)
Mr. Bedason A. Shallanda	Representative from Ministry of Finance (URT)
Mr. Khamis M. Omar	Principal Secretary to the Ministry of Finance (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Killaghane	Director
Mr. Omar S. Mussa	Director
Mr. Yusto E. Tongola	Secretary to the Board

SUMMARY OF ECONOMIC DEVELOPMENTS

The year on year real gross domestic product (GDP) growth was 6.9 percent in the second quarter of 2014, compared with 7.6 percent in the corresponding period of the preceding year. Transport and communication, agriculture, manufacturing, electricity, wholesale and retail trade, and business services recorded improved performance. Annual headline inflation averaged 6.6 percent compared with 6.4 percent in the preceding quarter. This was driven by energy and fuel prices.

Extended broad money supply (M3) grew by 14.7 percent in the year ending September 2014 compared with 13.6 percent in the corresponding a year before. Net claims on government by the banking system more than doubled the amount recorded in the corresponding quarter in 2013. Credit to the private sector by banks was sturdy, recording an annual increase of 20.7 percent compared with 15.3 percent. Overall interest rates on deposits and loans generally declined from the preceding quarter. However, the spread between the 12- months deposit rate and one-year lending rate widened to an average of 4.08 percent from 3.63 percent in the quarter ending June 2014.

Government domestic revenue and grants amounted to TZS 2,795.1 billion during the quarter ending September 2014, while expenditure, including expenditure float, amounted to TZS 3,387.9 billion. Revenue collection was TZS 2,544.6 billion while grants amounted to TZS 160.7 billion against the projection of TZS 593.1 billion for the quarter.

External debt stock amounted to USD 13,709.8 million at the end of September 2014, a decrease of USD 364.5 million from the end of the preceding quarter. The decrease was mainly due to variations in exchange rates in which the debt is denominated. Domestic debt amounted to TZS 7,462.4 billion, an increase of 823.6 billion over the amount recorded at the end of preceding quarter.

The current account deficit significantly narrowed to a deficit of USD 757.6 million compared with a deficit of USD 1,242.5 million recorded in the corresponding quarter in 2013, driven increase in exports and decline in imports, particularly oil. Current transfers, particularly official transfers, dropped by more than half following delays of disbursements grants by development partners.

Zanzibar Economic Developments

The Zanzibar economy grew by 6.4 percent in real terms during the quarter ending September 2014 compared with 5.1 percent in the corresponding quarter in 2013. This was largely due to improved performance in tourism-related activities, transport and communication, and financial intermediation. Annual headline inflation remained unchanged at 5.9 percent, as the corresponding quarter in 2013, while food inflation averaged at 5.4 percent compared with 3.4 percent.

Government budgetary operations recorded a deficit of TZS 22.5 billion after grants and adjustment to cash. Total resources amounted to TZS 98.1 billion, out of which TZS 83.9 billion were sourced domestically and the balance was grants. Expenditure amounted to TZS 124.1 billion. The current account balance recorded a surplus of USD 10.7 million compared to a deficit of USD 16.7 million recorded during the preceding quarter, mainly on account of an increase in exports of goods and services.

Regional Economic Developments

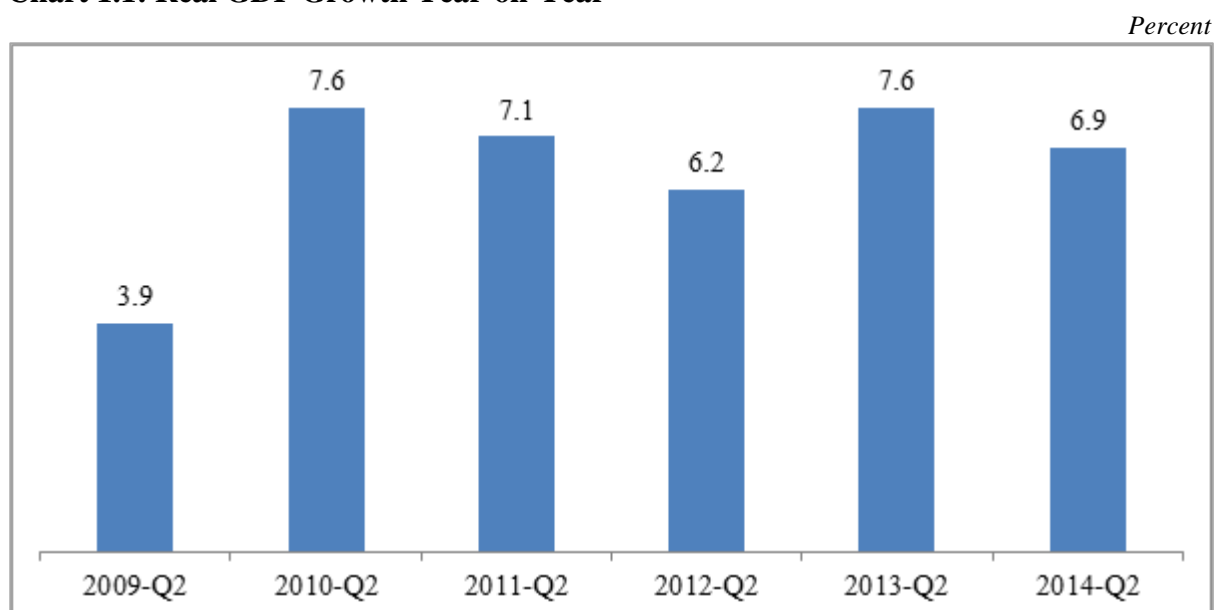

Inflation decreased in all the EAC countries with the exception of Tanzania and Kenya, but all were within the convergence criteria level of not more than 8.0 percent. The moderation in inflation was largely on account of the decrease in prices of food. On average, inflation in the EAC eased to 4.5 percent from 5.8 percent in the quarter ending June 2014. In the SADC region, inflation averaged at 6.2 percent, as was in the preceding quarter. Inflation increased in all SADC countries with the exception of Botswana, Angola, Malawi, Mauritius, Mozambique and Seychelles.

1.0 OUTPUT AND PRICES

Economic Performance

Real GDP grew by 6.9 percent year-on-year in the second quarter of 2014 compared with 7.6 percent in the corresponding period of the preceding year (**Chart 1.1**). Activities which recorded significant improved performance were transport and communication, agriculture, manufacturing, electricity, wholesale and retail trade; real estate and business services.

Chart 1.1: Real GDP Growth Year-on-Year

Note: Q refers to Quarter

Source: National Bureau of Statistics

Sectoral Performance

Procurement of Traditional Export Crops

Procurement of major traditional export crops exhibited mixed performance. While the volumes of tobacco and coffee were substantially higher than those of the corresponding quarter of 2013, the volumes of cotton and sisal were much less (**Table 1.1**). The increase in tobacco and coffee is associated with favourable weather conditions and timely utilization of agro-chemicals, while the declined in cotton is attributed inadequate utilization of pesticides and lower farm gate prices.

Table 1.1: Procurement of Traditional Export Crops

	July - September		Tonnes
	2013	2014	%
			Change
Cashew nuts	off season		
Coffee	12,571.0	14,723.0	17.1
Cotton lint	78,850.3	66,810.8	-15.3
Sisal	7,444.3	6,403.6	-14.0
Tobacco	41,427.8	55,664.1	34.4
Tea	3,162.8	3,210.3	1.5

Source: Respective Crops Boards

Production of Gold and Diamond

Production of gold and diamond by large scale miners was mixed during the quarter ending September 2014 (**Table 1.2**). Production of gold declined to 6,920.3 kilograms from 8,658.7 kilograms in the corresponding period in 2013. The decline in production, combined with a fall in prices in the world market, led to decrease in the value of gold. Production of diamond doubled to 56,621.0 carats compared to the amount produced in the corresponding period in 2013.

Table 1.2: Production of Gold and Diamond

Mineral type	Unit	Quarter ending			Percentage change	
		Sep-13	Jun-14	Sep-14	Jun-14 to Sep-13 to Sep-14	Sep-14

Food Reserve Situation

The National Food Reserve Agency (NFRA) purchased 114,929.1 tonnes of maize, 992.6 tonnes of sorghum and 2,200.1 tonnes of paddy during July-September 2014. In the same period, the NFRA sold 7,991.2 tonnes to Prison Department and Disaster Coordination Unit. As a result, the stock of maize, sorghum and paddy held by the NFRA amounted to 299,624 tonnes at the end of September 2014 compared to 224,295 tonnes recorded at the corresponding period in September 2013 (**Table 1.3**).

Inflation Developments

Proposal: Headline inflation, which is computed on the basis of all items in the consumer basket increased to an average of 6.6 percent in the quarter ending September 2014 compared to 6.4 percent recorded in the preceding quarter (**Table 1.5**). This development was mainly on account of an increase in energy and fuel prices. The annual food and non-alcoholic beverages inflation averaged 8.5 percent in the quarter compared with 7.0 percent in the corresponding quarter in 2013. However, non-food inflation decreased to 4.5 percent from 6.9 percent (**Chart 1.2**).

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money and Credit

During the year ending September 2014, extended broad money supply (M3) grew by 14.7 percent compared with 13.6 percent recorded in the corresponding period a year before. The increase was driven by growth in domestic credit. Net claims on government by the banking system almost doubled during the period. Credit to the private sector by banks increased by 2,048.9 billion, equivalent to annual growth of 20.7 percent. This was significantly higher compared to 15.3 percent registered in the corresponding period of the preceding year (**Chart 2.1** and **Table 2.1**).

During the year under review, all major economic activities recorded higher growth in credit by banks, except for agriculture and transport and communication activities. Much of the credit was extended to building and construction activities, followed by trade and manufacturing (Chart 2.2). In terms of shares to total credit, trade and personal activities dominated, followed by manufacturing activities. The share of agriculture to total bank credit slightly declined (Chart 2.3).

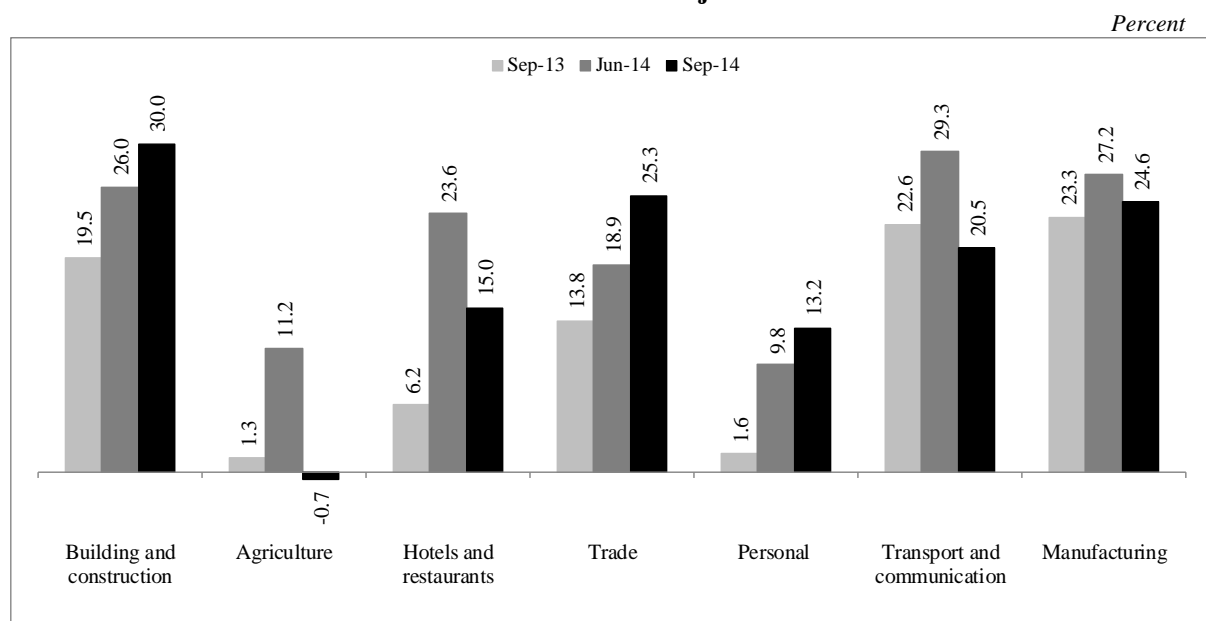

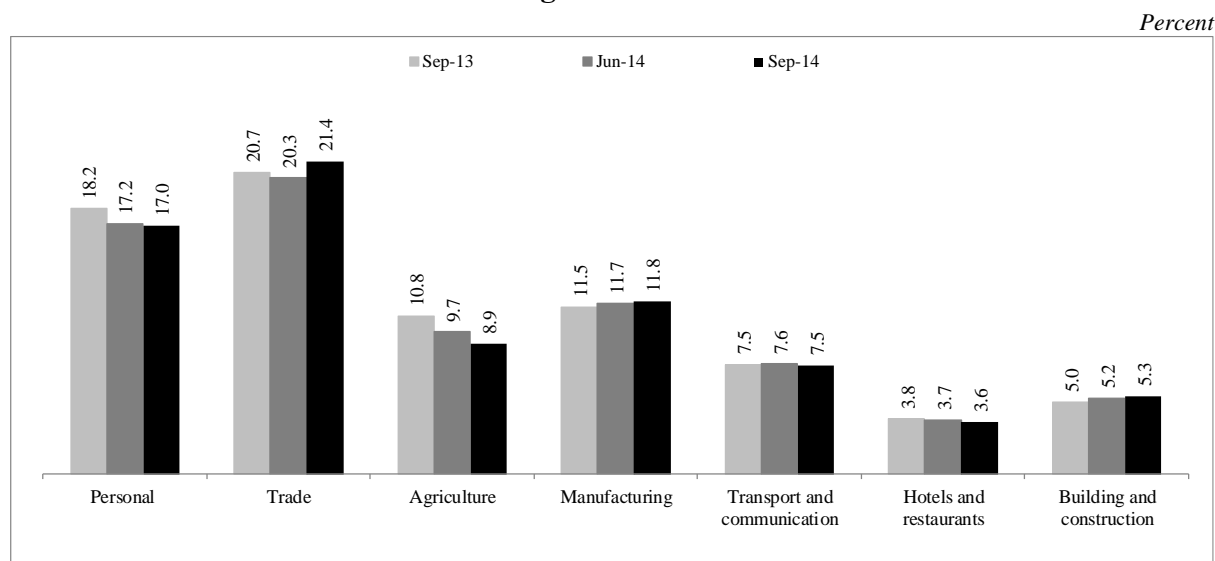

Chart 2.2: Annual Growth of Banks' Credit to Major Economic Activities*Source: Bank of Tanzania*

Chart 2.3: Share of Banks' Outstanding Credit to Total Credit

Source: Bank of Tanzania

Interest Rates Developments

Interest rates on deposits and loans by banks were generally lower in the quarter ending September 2014 compared to the corresponding quarter in 2013. Overall deposit rate decreased to an average of 8.15 percent from 9.08 percent with interest rate on one year deposits decreasing to an average of 10.34 percent from 11.82 percent.

Overall lending rate decreased to an average of 16.11 percent from to 16.50 percent in the preceding quarter, but was higher than 15.72 percent registered in the corresponding quarter of 2013. Similarly, one-year lending rate averaged at 14.42 percent, down from 14.81 percent in the preceding quarter, but higher compared to 13.77 percent in the corresponding period in 2013. In line with these developments, the spread between the 12- months deposit rate and one-year lending rate widened to an average of 4.08 percentage points from 3.63 percentage points recorded in the quarter ending June 2014 and 1.95 percent in September 2013 (**Table 2.2**).

Developments in Financial Markets

During the quarter ending September 2014, Treasury bills worth TZS 835.0 billion were offered for sale compared with TZS 810.0 billion in the preceding quarter, while amount tendered was TZS 1,704.1 billion compared with TZS 1,415.9 billion. Successful bids amounted to TZS 1,283.9 billion. Overall Weighted Average Yield (WAY) increased to an average of 13.43 percent from 12.81 percent in the preceding quarter (**Chart 2.4**).

Chart 2.4: Treasury bills Market Performance

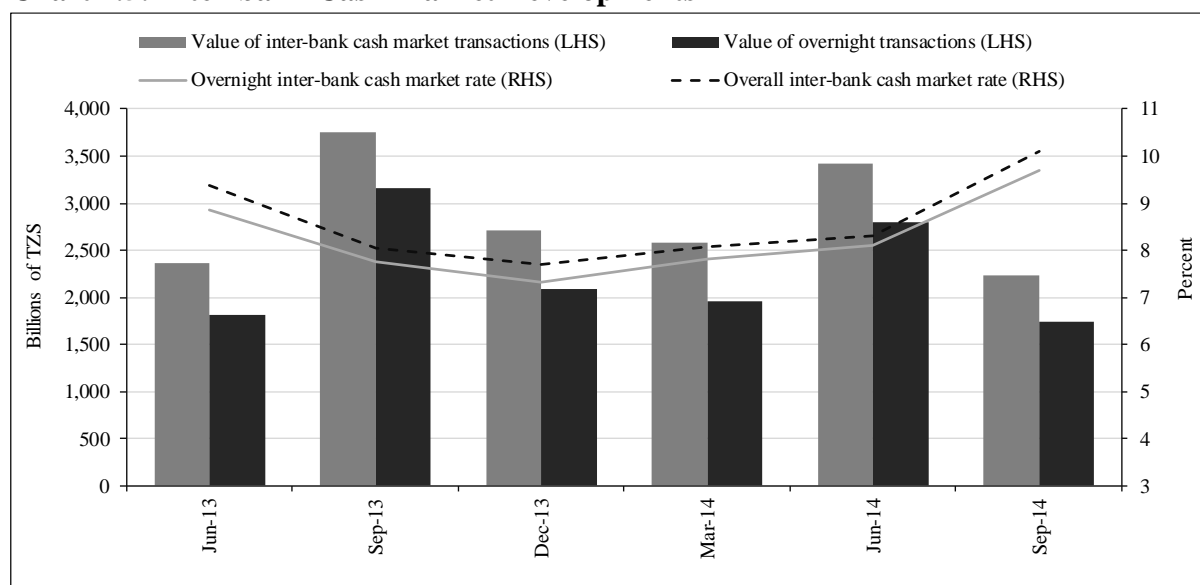

Note: RHS stands for right hand scale and LHS left hand side

Source: Bank of Tanzania

Treasury bonds of different maturities amounting to TZS 307.0 billion were issued compared with TZS 246.8 billion, which were issued in the preceding quarter. Value of tendered bids amounted to TZS 350.6 billion compared with TZS 407.5 billion tendered in the preceding quarter. During the period, successful bids were TZS 239.9 billion.

Value of transactions in the interbank cash market amounted to TZS 2,236.3 billion compared with TZS 3,419.9 billion recorded in the preceding quarter. Overnight transactions amounted to TZS 1,734.9 billion or 77.6 percent of total transactions. Overall interbank rate increased to an average of 10.11 percent from 8.30 percent recorded in the preceding quarter (**Chart 2.5**).

Chart 2.5: Inter-bank Cash Market Developments

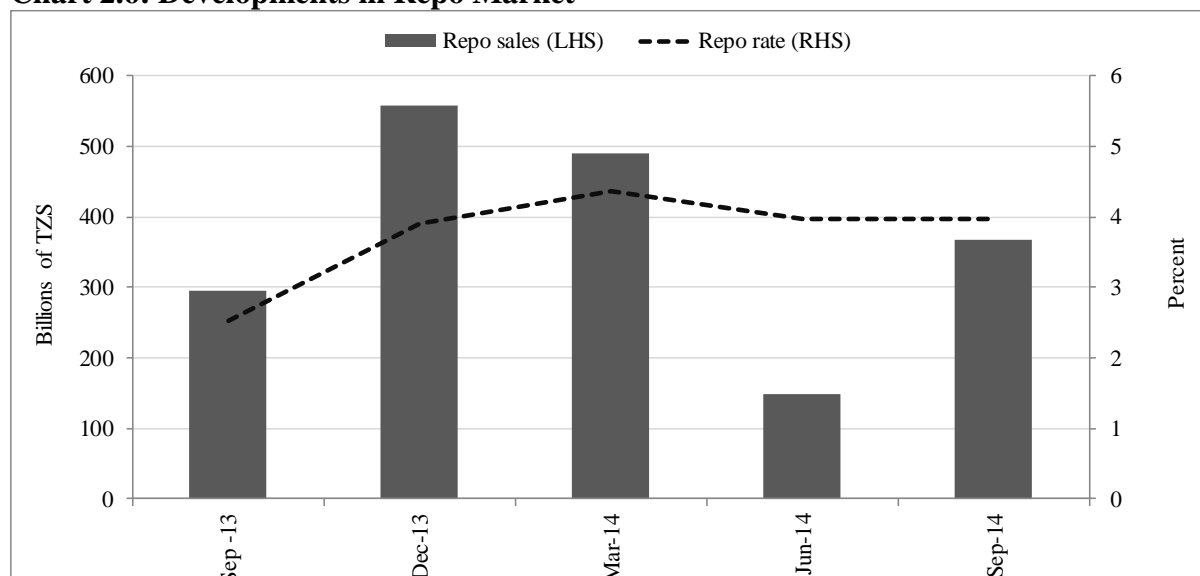

Note: RHS stands for right hand scale and LHS left hand scale

Source: Bank of Tanzania

During the review period, the Bank conducted repurchase agreements (repo) with banks amounting to TZS 366.5 billion for liquidity management. This amount was significantly higher than TZS 149.0 billion sold in the preceding quarter. The repo rate edged upwards to an average of 3.97 percent from 3.96 percent registered in quarter ending June 2014 (**Chart 2.6**).

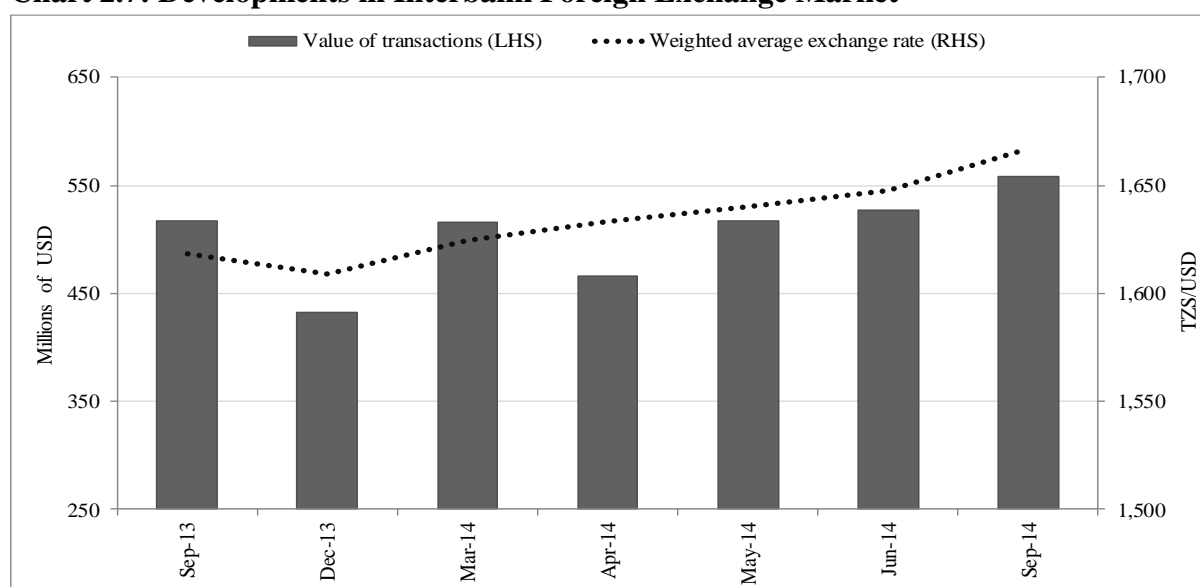

Chart 2.6: Developments in Repo Market

Note: RHS stands for right hand scale and LHS stands for left hand scale
Source: Bank of Tanzania

During the quarter ending September 2014, total transactions in the Interbank Foreign Exchange Market (IFEM) amounted to USD 557.5 million compared with USD 529.9 million traded in the preceding quarter. The Bank of Tanzania sold USD 197.4 million for liquidity management purpose, significantly lower than USD 302.9 million transacted in the quarter ending June 2014. The Shilling traded at an average of TZS 1,666.54 per USD from TZS 1,647.68 per USD in the preceding quarter and TZS 1,618.45 per USD in the quarter ending September 2013 translating into annual depreciation of 2.97 percent (**Chart 2. 7**).

3.0 PUBLIC FINANCE

Government Budgetary Operations

During the quarter ending September 2014, domestic revenue and grants amounted to TZS 2,795.1 billion, while total expenditure including expenditure float amounted to TZS 3,387.9 billion. This resulted into a deficit of TZS 860.6 billion.

Revenue collection by the central government amounted to TZS 2,544.6 billion and was below the target by 12.9 percent. Tax revenue amounted to TZS 2,401.2 billion, and was 88.9 percent of the target for the quarter and 91.1 percent of total revenue. The under-performance is partly explained by general decline of value of dutiable imports of goods and decline in exportation of raw cashew-nuts. The amount of grants disbursed amounted to TZS 160.7 billion during the quarter against the projection of TZS 593.1 billion (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending September 2014

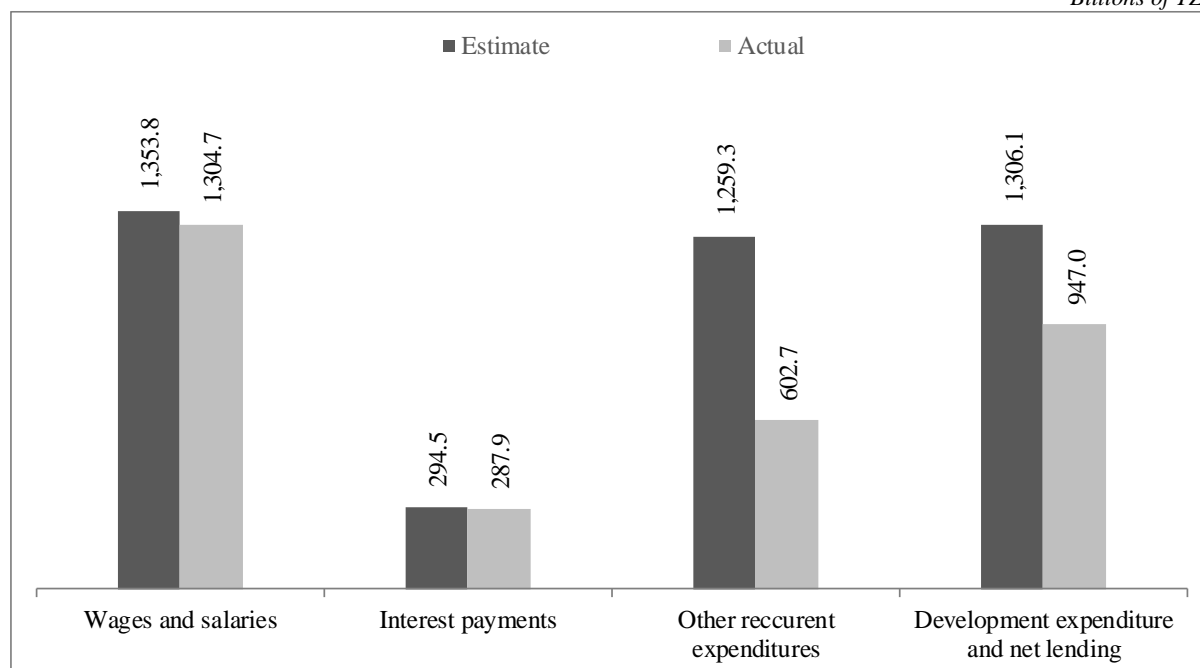

Source: Ministry of Finance

Expenditure for the first quarter of 2014/15 amounted to TZS 3,142.3 billion or 74.6 percent of budget estimate. Recurrent expenditure amounted to TZS 2,195.3 billion and development expenditure was TZS 947.0 billion, equivalent to 75.5 percent and 72.5 percent of estimates, respectively (**Chart 3.2**).

Chart 3.2: Government Expenditure for the Quarter Ending September 2014

Billions of TZS

Source: Ministry of Finance

National Debt Developments

Total external debt stock amounted to USD 13,709.8 million at the end of September 2014, a decrease of USD 364.5 million from the level recorded at the end of preceding quarter. The decrease was mainly due to exchange rates fluctuations. Out of the total external debt stock, 89.8 percent was disbursed outstanding debt and 10.2 percent was interest arrears.

In terms of external debt by borrower category, central government debt decreased by USD 214.4 million during the quarter under review. On annual basis, central government debt increased by USD 826.7 million. The amount and shares with respect to borrower categories are as indicated in **Table 3.1**.

Table 3.1: External Debt Stock by Borrower Category

DOD stands for Disbursed Outstanding Debt

Source: Ministry of Finance and Bank of Tanzania

New loans worth USD 56.0 million were recorded during the quarter under review, all contracted by private sector. External loans contracted during the year ending September 2014 amounted to USD 770.4 million, out of which USD 258.3 million were contracted by the Government and USD 512.1 by private sector.

New disbursements to the Central Government and private sector amounted to USD 76.1 million and USD 23.3 million, respectively. On the other hand, external debt payments during the quarter amounted to USD 58.7 million, out of which USD 16.5 million was principal repayments and USD 42.2 million interest payments. Disbursements received during the year ending June amounted to USD 1,770.7 million, while payments amounted to USD 227.8 million.

The stock of domestic debt at the end of September 2014 amounted to TZS 7,462.4 billion, being an increase of 823.6 billion over the amount recorded at the end of preceding quarter. On annual basis, domestic debt stock increased by TZS 1,316.1 billion from TZS 6,146.3 billion recorded at the end of the corresponding period in 2013. The increase was mainly on account of issuance of Government securities that outweighed maturing obligations. In terms of instruments, Treasury bonds accounted for 66.1 percent followed by Treasury bills at 30.4 percent (**Table 3.3**).

Table 3.3: Government Domestic Debt by Instruments

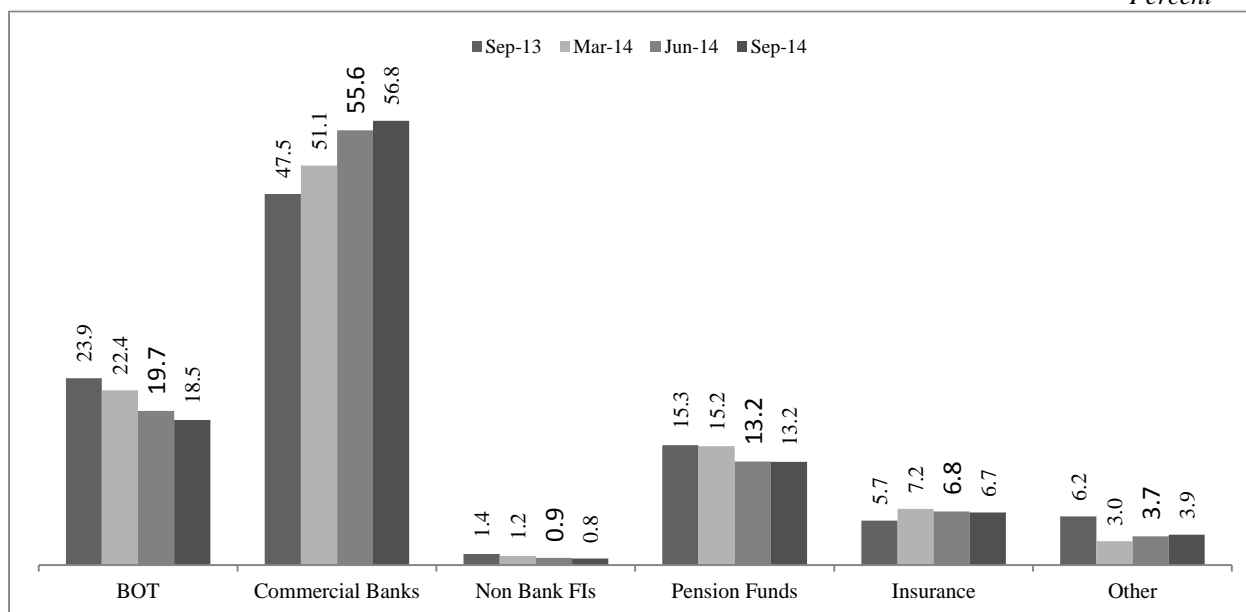

Item	Sep-13		Jun-14		Sep-14

During the quarter under review, the Government raised TZS 678.8 billion from domestic market, out of which TZS 445.8 billion was from Treasury bills and TZS 233.0 billion Treasury bonds. The amount that fell due for payment was TZS 677.6 billion, out of which principal amounting to TZS 470.4 billion was rolled over while principal and interest to the tune of TZS 63.5 billion and TZS 143.7 billion respectively, were paid out of Government resources.

4.0 EXTERNAL SECTOR DEVELOPMENTS

Current Account

In the quarter ending September 2014, current account deficit significantly narrowed to USD 757.6 million compared with a deficit of USD 1,242.5 million recorded during the same quarter in 2013 (**Table 4.1**). This was largely driven by increase in exports coupled with a decline in imports, particularly oil. Current transfers, particularly official transfers, dropped by more than a half compared with the amount received in the corresponding quarter in 2013, as development partners delayed disbursements.

Export Performance

Value of goods export amounted to USD 1,483.0 million compared to USD 1,347.2 million recorded in the corresponding quarter in 2013 on account of good performance of non-traditional exports (**Table 4.2**). The non-traditional exports that recorded improved

performance were minerals, manufactured goods, fish and fish products; and horticultural products.

Table 4.2: Exports by Type of Commodity

Import Performance

In the quarter ending September 2014, the value of goods import was USD 2,541.0 million compared to USD 3,062.1 million in the corresponding quarter in 2013. The decline was recorded in the capital and intermediate goods, particularly oil. The decline in value of oil imports was driven by a fall of imported volume as well as prices in the world market.

Table 4.3: Goods Import

Category	Quarter ending			Percentage change
	Jun-14 ^P	Sep-13 ^P	Sep-14 ^P	Sep-13 to Sep-14

World Commodity Prices

During the quarter ending September 2014, world market prices of coffee, cotton, cloves, oil and gold declined compared with the levels recorded in the previous quarter, while those of tea and sisal increased (**Table 4.5**). The increase in price of tea was attributed to high demand in European and Middle East countries, while that of sisal was largely due to strong global demand coupled with low production in Brazil following dry weather conditions. The price of coffee went down mainly due to the increase in world production in 2013/14 crop season compared to 2012/13. The fall in price of cotton was largely due to expectation of increase in production in the US following favourable weather conditions. Price of cloves declined mainly due to weak global demand.

Average prices of oil went down largely due to increased oil production by OPEC, as Iraq and Libya recover; and non-OPEC countries, notably the US. The price of gold decreased mainly due to weak demand for gold as safe investment. In addition, increase in production contributed to the fall of gold price in the world market.

Table 4.5: World Commodity Prices

COMMODITY	Units	Quarter Ending (Three Month Average)			Percentage Change

5.0 ZANZIBAR ECONOMY

Overall Economic Performance

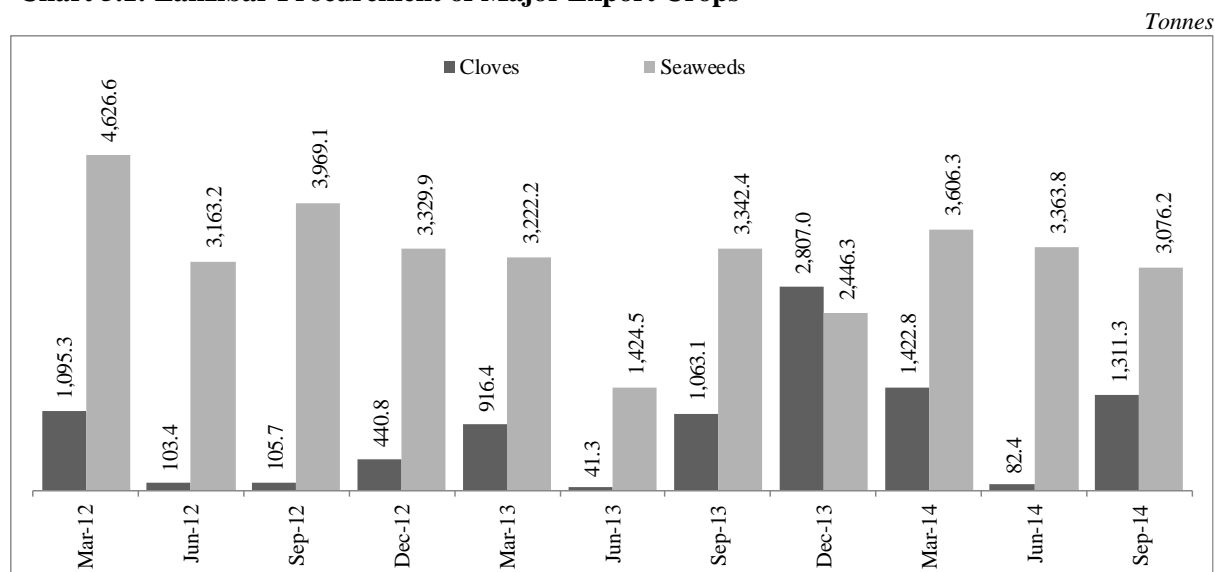

Zanzibar real GDP grew by 6.4 percent year-on-year in the quarter ending September 2014 compared with 5.1 percent in the corresponding period of the preceding year. The good performance was mainly driven by growth in tourism-related activities, transport and communication, and financial intermediation. Growth in hotels and restaurant was 4.0 percent compared with 1.3 percent in the corresponding quarter in 2013 following an increase in tourist arrivals from 24,561 to 25,683.

Sectoral Performance

Procurement of Export Crops

Procurement of cloves increased to 1,311.3 tonnes in the quarter ending September 2014 from 1,063.1 tonnes procured during the corresponding quarter in 2013. This outturn was on account of improved clove prices in the world market, reduced smuggling and successful implementation of the Clove Development Strategy (CDS). Seaweed procurement also increased to 3,363.8 tonnes from 1,424.5 tonnes due to an increase of prices in the world market (Chart 5.1).

Chart 5.1: Zanzibar Procurement of Major Export Crops

Source: Office of Chief Government Statistician

Manufacturing Activity

Production of soft drinks and juice decreased compared to corresponding quarter in 2013, mainly on account of competition with other imported products (**Table 5.1**). However, mineral water, bread, wheat flour and rubber rose on account of increased demand for the commodities.

Table 5.1: Zanzibar Production of Selected Manufactured Commodities

Commodity	Unit	Quarter ending			Percentage change	
		Sep-13	Jun-14	Sep-14 ^P	Jun-14 to Sep-14	Sep-13 to Sep-14

Inflation Developments

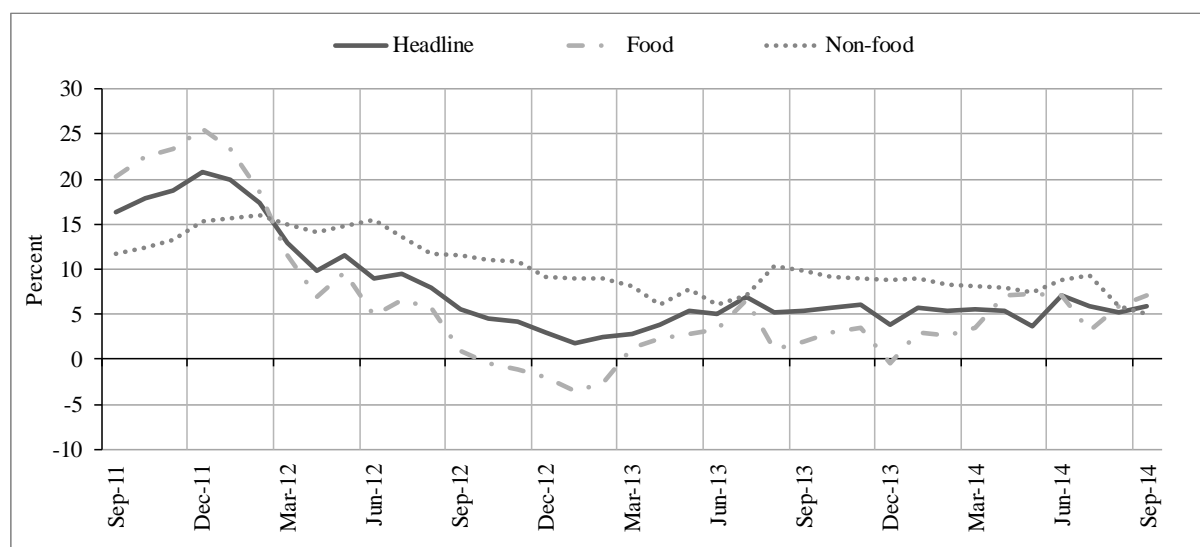

Headline inflation during the quarter ending September 2014 remained at an average of 5.9 percent, as recorded during the corresponding quarter in 2013. Food inflation rate rose to an average of 5.4 percent from 3.4 percent. However, non-food inflation rate eased to 6.7 percent from 9.1 percent, mainly driven by decrease in prices of some products, particularly clothing and footwear, housing, water, electricity and gas sub-groups (**Table 5.2** and **Chart 5.2**).

Table 5.2: Zanzibar Inflation

Groups	Weight	Quarter ending

Government Budgetary Operations

During the quarter ending September 2014, Government budgetary operations registered a deficit of TZS 22.5 billion after grants and adjustment to cash. Total resources amounted to TZS 98.1 billion, out of which TZS 83.9 billion were sourced domestically and the balance was grants. Tax revenue amounted to TZS 78.5 billion, or 6.4 percent below the target, while non-tax revenue was below the target by 12.8 percent. Total grants disbursed during the period amounted to TZS 14.3 billion or 42.0 percent below the estimated amount for the period.

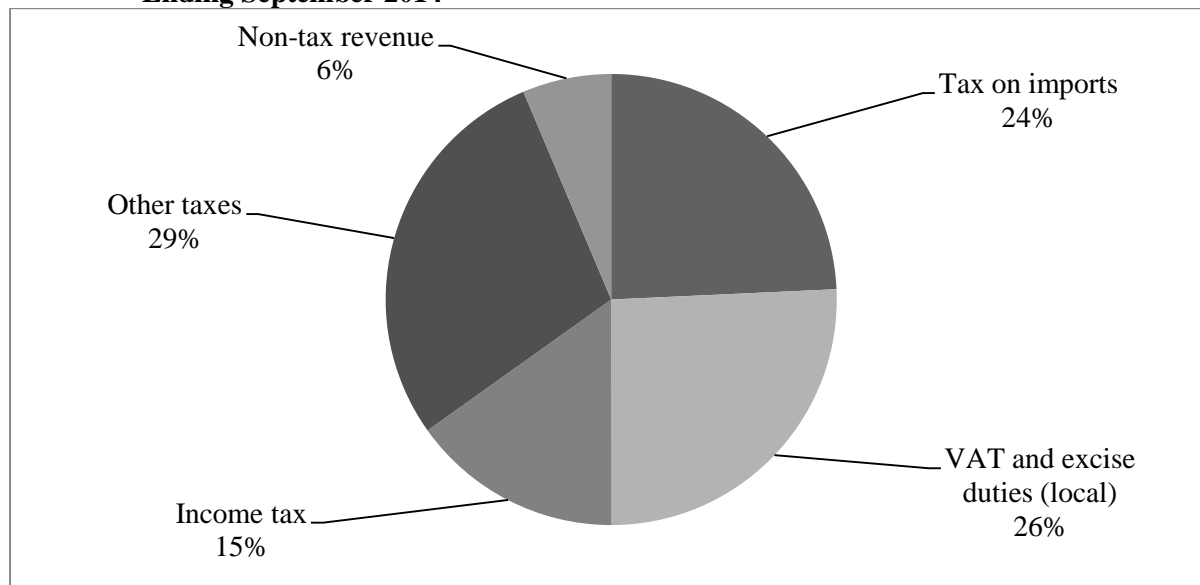

Chart 5.3: Zanzibar Government Revenue by Source

Source: Ministry of Finance-Zanzibar

During the quarter under review, VAT and excise duties (local) accounted for the largest share of government revenue, followed by tax on imports (**Chart 5.4**).

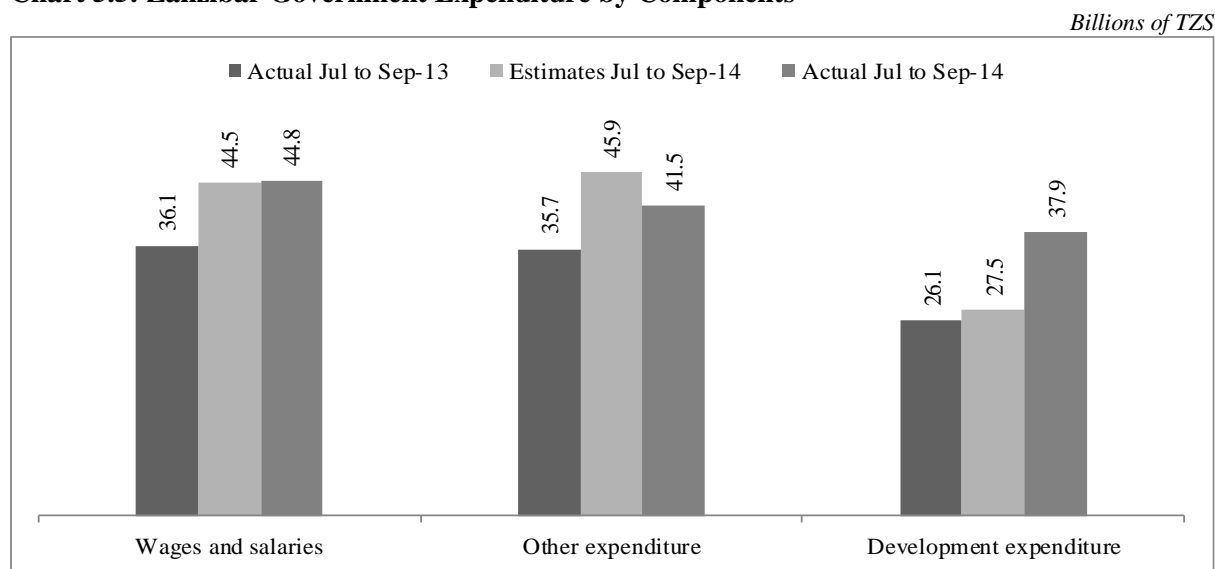

Chart 5.4: Zanzibar Government Revenue by Source, Percentage Shares for the Quarter Ending September 2014

Source: Ministry of Finance-Zanzibar

Government expenditure amounted to TZS 124.1 billion, out of which TZS 86.2 billion was recurrent expenditure and the balance was development expenditure (**Chart 5.5**). Development expenditure was above the estimates by 37.9 percent, mainly on account of higher than projected disbursement of donor funds for development projects.

Chart 5.5: Zanzibar Government Expenditure by Components

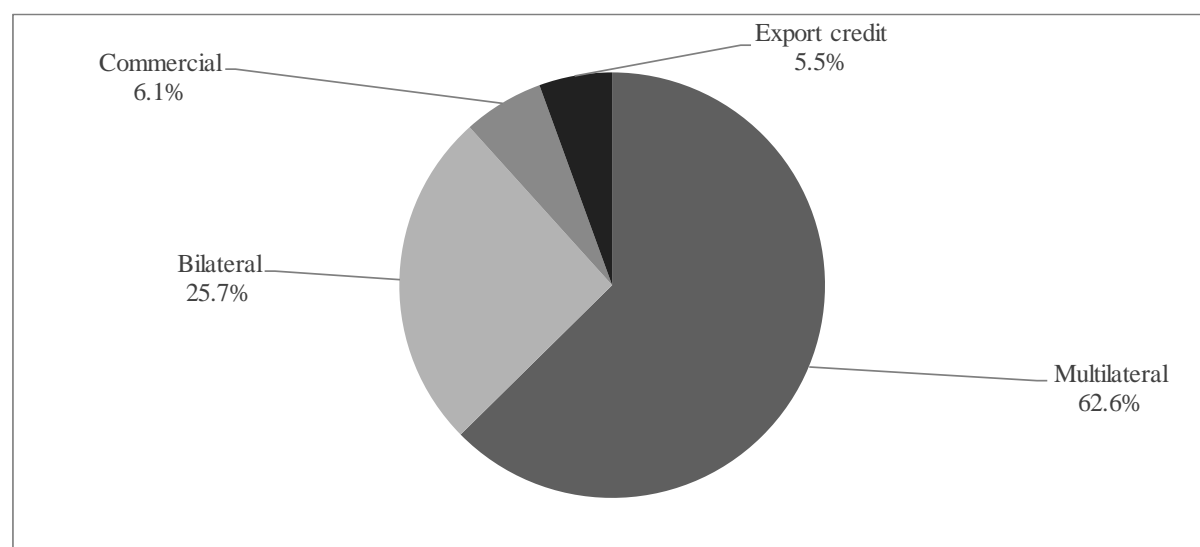

Source: Ministry of Finance-Zanzibar

Debt Developments

Total debt as at end September 2014 amounted to TZS 307.8 billion compared with TZS 299.3 billion recorded at the end of June 2014. External debt stock amounted to USD 126.9 million compared with USD 129.8 million and accounted for 68.6 percent of the total debt stock. Debt guaranteed by the Union Government accounted for 87.9 percent of the external debt stock and the balance was non-guaranteed. Debt due to multilateral creditors was dominant, followed by bilateral creditors (**Chart 5.6**).

Chart 5.6: Zanzibar External Debt by Creditors as at the End of September 2014

Source: Ministry of Finance-Zanzibar

Debt maturing beyond 20 years dominated the profile of external debt, followed by debt maturing in less than 10 years (**Table 5.3**).

Table 5.3: Zanzibar External Debt by Maturity

Source: Ministry of Finance-Zanzibar

The stock of domestic debt increased to TZS 96.5 billion at the end of September 2014 from TZS 85.1 billion recorded at the end of the preceding quarter. The increase was mainly due gratuity claims owed by government pensioners coupled with suppliers' claims. **Chart 5.7** shows composition of domestic debt by creditor category.

Chart 5.7: Zanzibar Domestic Debt by Creditor as at the End of September 2014

Source: Ministry of Finance - Zanzibar

Treasury bonds accounted for the largest share of domestic debt by instrument category, followed by government loans and suppliers' claims (**Table 5.5**).

External Sector Developments

Current Account

During the quarter ending September 2014, Zanzibar current account balance recorded a surplus of USD 10.7 million compared to a deficit of USD 16.7 million recorded during the preceding quarter. This development was mainly on account of an increase in exports of goods and services (**Table 5.7**).

Table 5.7: Zanzibar Current Account*Millions of USD*

Exports

Value of exports of goods and services during the quarter ending September 2014 significantly increased to USD 64.5 million from USD 37.0 million recorded during the quarter ending June 2014. This was on account of an increase in exports of goods and services. Specifically, volume of cloves exported rose to 940 tonnes in the quarter ending September, 2014 compared with 110 tonnes in the corresponding period in 2013, while clove export price increased to USD 11,794.1 per tonne from USD 11,409.5 per tonne (**Table 5.8**).

6.0 ECONOMIC DEVELOPMENTS IN THE EAC AND SADC

During the quarter ending September 2014, inflation rate in the East African Community (EAC) region eased to an average of 4.5 percent from 5.8 percent recorded in the previous quarter (**Table 6.1**). Inflation decreased in all the EAC countries with exception of Tanzania and Kenya, largely on account of the decrease in prices of food. In Kenya, inflation rate increased mainly due to a rise in prices of food items, electricity, diesel and petrol, while in Tanzania the increase in inflation rate was mainly due to a rise in prices of some non-food items, particularly beer, cigarettes, garments, carpets, rents and charcoal. The inflation rates in all EAC Partner States were within the convergence criteria level of not more than 8.0 percent.

Inflation rate in SADC countries rose with the exception of Botswana, Angola, Malawi, Mauritius, Mozambique and Seychelles, but remained unchanged at 6.2 percent on average (**Table 6.1**). The increase in inflation rate in Zambia was largely attributed to a rise in prices of non-food items particularly alcoholic beverages, health, housing, water, electricity, gas and fuels. Inflation rates in Namibia, Zimbabwe and Seychelles increased mainly due to a rise in prices of food and alcoholic beverages. On the contrary, the fall in inflation rate in Botswana, Mauritius, Mozambique and Malawi was largely attributed to the decrease in prices of food stuffs. Meanwhile, Botswana, Mauritius, Mozambique, Seychelles and Zimbabwe achieved the convergence criteria level of inflation rate of less than 5.0 percent during the quarter under review.

Notes: 1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

Note:

1) 2009 numbers are provisional

2) Prior to 2002, figures for TZS were converted from USD using quarterly average exchange rates. Beginning 2002, monthly average exchange rate are used to compute figures in TZS.

3) Annual goods export figures are adjusted for unrecorded exports

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Discount Rate also known as Bank Rate

The rate of interest the Bank of Tanzania charges on Loans it extends to Commercial Banks and government overdraft.

Exchange Rate

The price at which one currency can be purchased with another currency, e.g. TZS per US dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging of eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of 35-day T-bill, Repo (7 days) or overnight inter-bank rate whichever is higher in the market plus 20%.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

Narrow Money (M1)

This consists of currency in circulation outside banking system and demand deposits.

Broad Money (M2)

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

Extended Broad Money (M3)

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheque, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
