SUMMARY OF ECONOMIC DEVELOPMENTS

The economy continued to record satisfactory performance during the first quarter of 2020 despite the impact of COVID-19 on some sectors of the economy. Real gross domestic product grew by 5.7 percent, slower than 6.3 percent in the corresponding quarter in 2019. Main drivers of growth were construction, agriculture, transport and storage, and mining and quarrying activities, altogether contributing about 60.0 percent.

Consumer price index inflation remained subdued and below the country medium-term target of 5.0 percent. Headline inflation averaged 3.2 percent in the quarter ending June 2020, lower than 3.6 percent in the preceding quarter and 3.5 percent in the corresponding quarter in 2019, mainly due to slowdown in prices of some non-food items, particularly petroleum products. The rate was also in line with the East African Community (EAC) and Southern African Development Community (SADC) convergence criteria of not more than 8.0 percent and between 3.0 and 7.0 percent, respectively. Noteworthy, headline inflation in the EAC averaged 5.8 percent, while in SADC it was 64.1 percent.

During the quarter ending June 2020, the Bank sustained accommodative monetary policy and enhanced liquidity easing measures to cushion the financial sector and economy from the negative impact of COVID-19 pandemic. Accordingly, growth of monetary aggregates remained strong. Extended broad money supply (M3) grew at an annual rate of 9.5 percent in June 2020 compared with 7.7 percent in June

2019. Credit to the private sector grew by 5.5 percent in the year ending June 2020, down from 7.6 percent in the corresponding period in 2019. Interest rates charged on loans by banks and yields on government securities eased during the quarter in line with the monetary policy measures taken by the Bank of Tanzania to support aggregate demand and limit the negative impact of COVID-19 on the economy.

The shilling remained fairly stable against the US dollar, trading at an average of TZS 2,303.43 per USD during the quarter ending June 2020, compared with TZS 2,300.52 per USD in the preceding quarter and TZS 2,300.33 per USD in the corresponding quarter in 2019.

The Government continued to enhance revenue collection efforts and expenditure management based on available resources and priorities. Government resource envelope, revenue and grants, amounted to TZS 5,132.9 billion during the quarter, while expenditure was TZS 5,585.8 billion.

External debt stock was USD 22,522.7 million at the end of June 2020, an increase of USD 107.7 million and of USD 601.7 million from the stock at the end of preceding quarter and corresponding quarter in 2019, respectively. The increase was largely due to new disbursements. Similarly, domestic debt stock increased to TZS 15,515.7 billion from TZS 14,863.1 billion at the end of June 2019.

The overall balance of payments recorded a deficit of USD 249.0 million in the quarter

ending June 2020, compared with a deficit of USD 222.3 million in the corresponding quarter in 2019. Widening of the deficit was on account of broadening of financial account deficit. Meanwhile, current account deficit narrowed to USD 43.9 million from a deficit of USD 700.5 million in the quarter ending June 2019, due to increase in the value of exports, coupled with the decrease in import bill. Gross official reserves amounted to USD 5,184.7 million at the end of June 2020, sufficient to cover 6.0 months of projected imports of goods and services. The import cover was above the country benchmark of not less than 4.0 months, the EAC and SADC benchmarks of at least 4.5 months and 6 months, respectively.

Zanzibar real GDP grew by 1.8 percent during the quarter ending March 2020, slower than 5.3 percent registered in the corresponding quarter in 2019. This outturn was attributed to slow down in major economic activities, in particular tourism. Volume of cloves procured during the quarter ending June 2020 increased significantly to 141.9 tonnes from 19.1 tonnes in the corresponding quarter in

2019, largely explained by bumper harvest. Inflation averaged 4.5 percent, higher than 2.9 percent in the corresponding quarter in 2019, driven by food prices.

Government resource envelope amounted to TZS 147.0 billion during the quarter, while expenditure was TZS 214.5 billion. Debt stock increased to TZS 824.5 billion from TZS 808.8 billion recorded at the end of the quarter ending June 2019, largely owing to exchange rate depreciation. Out of the debt stock, external debt was TZS 667.7 billion (USD 290.8 million) and domestic debt amounted to TZS 156.8 billion.

The current account improved to a surplus balance of USD 7.4 million during the quarter ending June 2020 from a deficit balance of USD 28.7 million in the corresponding quarter in 2019, mainly owing to shrinkage in import bill.

1.0 OUTPUT AND PRICES

Gross Domestic Product¹

During the first quarter of 2020, the economy grew at a slower pace than in the corresponding quarter in 2019, reflecting the impact of COVID-19 on some economic activities. Real gross domestic product (GDP) grew by 5.7 percent, year-on-year compared with 6.3 percent in the corresponding quarter in 2019 (**Chart 1.1**).

Chart 1.1: Year-on-Year Real GDP Growth

Source: National Bureau of Statistics

Economic activities that recorded the highest growth rates were mining and quarrying, which grew by 15.3 percent; followed by health (10.2 percent) and professional, scientific and technical (8.9 percent); transport and storage; and information and communication, 8.3 percent each (**Chart 1.2**). The observed growth in mining and quarrying activity was attributed to improved management of mining activities including streamlined operations and establishment of mineral

trading centers that provided market access to small scale miners. The growth in health activity was on account of investments undertaken by the Government to improve health infrastructure and availability of medicaments, coupled with recruitment of health experts.

Chart 1.2: Real GDP Growth by Major Economic Activities

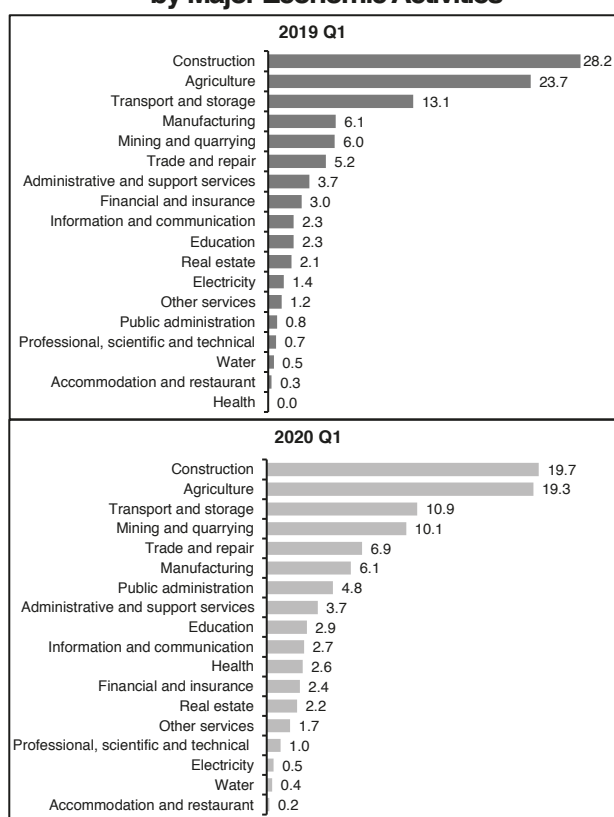

Source: National Bureau of Statistics and Bank of Tanzania computations

Note: Q denotes quarter

Economic activities that had significant contribution to real GDP growth during the first quarter of 2020 were construction, at 19.7 percent, agriculture (19.3 percent), transport and storage (10.9 percent) and mining and quarrying (10.1 percent). **Chart 1.3** shows contribution to real GDP growth by economic activity.

¹Statistics for the quarter ending June 2020 were not available at the time of publishing this report.

Note: Q denotes quarter

Inflation

Inflation remained subdued, notwithstanding economic challenges induced by COVID-19. In the second quarter of 2020, headline inflation averaged 3.2 percent, lower than 3.5 percent in the corresponding quarter in 2019 (**Table 1.1**). Easing of headline inflation was due to a decline in non-food inflation to an average of 2.6 percent from 4.9 percent in the corresponding quarter in 2019, reflecting a decline in domestic prices of oil. Food and non-alcoholic beverages inflation averaged 4.2 percent compared with 1.8 percent, largely attributed to increase in the prices of beans, sorghum, rice and round potatoes.

Food Stocks

During the quarter under review, most parts of the country had adequate food stocks. Correspondingly, the stock of food held by the National Food Reserve Agency (NFRA), which current comprises of maize grain, paddy and sorghum, increased to 52,724.7 tonnes at the end of the quarter ending June 2020, from 39,597.0 tonnes at the end of the previous quarter (**Table 1.2**). During the quarter, the NFRA purchased 13,807.8 tonnes of maize, 650.2 tonnes of paddy and 307.2 tonnes of sorghum, which total to 14,765.2 tonnes to replenish its stocks. Meanwhile, the NFRA sold 3,509 tonnes of maize to private traders, World Food Program and Prisons Department.

Wholesale Prices of Food Crops

During the quarter ending June 2020, wholesale average prices of selected major food crops² stayed relative high compared with the corresponding quarter in 2019, save for maize, rice and finger millet (**Table 1.3**). The increase in prices, particularly for sorghum and beans was attributed to high demand for the crops in the neighboring countries. On quarterly basis, prices of maize, rice and beans eased, following commencement of harvesting season and marketing of long-rains crops.

Table 1.3: Average Wholesale Prices of Major Food Crops

Crop	TZS per 100kg				Percentage change	
	Quarter ending				Mar-20 Jun-19 to	
	Jun-18	Jun-19	Mar-20	Jun-20	to Jun-20	Jun-20
Maize	42,266.17	57,926.80	80,761.93	57,488.86	-28.8	-0.8

Source: Ministry of Industry and Trade

Domestic Pump Prices

Domestic pump prices of petroleum products were lower during the quarter ending June 2020 than average prices in the preceding quarter and corresponding quarter in 2019. This corresponds to a decline in oil price in the world market following slowdown in global economic activities associated with the outbreak of COVID-19 pandemic (**Table 1.4**).

Table 1.4: Average Domestic Fuel Prices

Production and Procurement of Major Commodities

Production of Gold and Diamond

Value of gold and diamond produced by large-scale miners increased to USD 477.8 million in the quarter ending June 2020 from USD 457.2 million in the similar quarter in 2019, driven by gold. Gold worth USD 477.8 million was produced during the quarter, an annual increase of 32.1 percent (**Table 1.5**). The increase was on account of rise in the price of gold in the world market due to strong demand for this precious metal associated with COVID-19 pandemic-related uncertainty. Meanwhile, there was no production of diamond during the quarter under review as Williamson Petra Diamonds mine, the only large-scale diamond miner, is under maintenance since April 2020.

²They include maize, rice, beans, sorghum, round potatoes and finger millet.

Table 1.5: Production of Gold and Diamond

Mineral	Unit	Quarter ending			Percentage change	
		Jun-19	Mar-20	Jun-20	Mar-20 to Jun-20	Jun-19 to Jun-20
Gold	Kilograms	11,604.7	11,269.6	11,130.0	-1.2	-4.1
	Value (Mil. of USD)	361.8	442.4	477.8	8.0	32.1

Procurement of Traditional Export Crops

Volume of sisal, tea and tobacco procured during the quarter ending June 2020 was lower than that of corresponding quarter in 2019, while that of coffee increased (**Table 1.6**). The decline in the volume of tea procured was due to destruction of tea fields by frost during the quarter, scaling down of fields and processing operations by some processing factories following the outbreak of COVID-19 and farmers' failure to transport Greenleaf from their farms due to poor feeder roads following heavy rainfall. As regard to sisal, the decline in volume procured was owing to weak global demand of sisal fiber associated with slowdown in economic activities following measures adopted by many countries to limit the spread of COVID-19. Meanwhile, procurement of coffee increased, attributed to favorable weather.

Table 1.6: Procurement of Traditional Export Crops

Crop	Quarter ending				Tonnes
	Jun-17	Jun-18	Jun-19	Jun-20	Percentage change Jun-19 to Jun-20
Cotton lint	off season

2.0 MONETARY AND FINANCIAL MARKETS DEVELOPMENTS

Money Supply and Credit

During the quarter ending June 2020, the Bank of Tanzania sustained implementation of accommodative monetary policy and enhanced liquidity easing measures to cushion the financial sector and the economy from negative impact of COVID-19 pandemic. As a result, extended broad money supply (M3) grew at an annual rate of 9.5 percent in June 2020, higher than 7.7 percent in June 2019 (**Chart 2.1, Table 2.1** and **Chart 2.2**). The growth was mainly due to increase in net foreign assets of the banking system and positive growth of credit to the private sector. Broad money supply (M2)—that excludes foreign currency deposit liabilities, grew by 10.5 percent, compared with 10.8 percent registered in the year ending June 2019.

Source: Bank of Tanzania and banks

Note: “---” denotes a change that exceeds 100 percent

Chart 2.2: Annual Change in Major Components of Money Supply

Source: Bank of Tanzania, banks and Bank of Tanzania computations

Net foreign assets of the banking system grew by 15.0 percent in the year ending June 2020, compared with a contraction of 12.7 percent in the corresponding period in 2019. The growth was mainly driven by cumulative build-up of foreign exchange holdings by the Bank of Tanzania that emanated from purchase of foreign exchange from the Government and banks.

Total domestic credit by the banking system recorded an annual growth of 2.5 percent in June 2020, down from 17.4 percent in June 2019, reflecting decline in net credit extended to the Government following build-up of government deposits in the banking system.

Credit to the private sector grew by 5.5 percent in the year ending June 2020, compared with 7.6 percent recorded in the corresponding period of 2019 (**Chart 2.3**). This development was attributable to subdued demand for new loans, particularly in trade activities, following lockdown of the economies of our main trading partners due to the COVID-19 pandemic.

Chart 2.3: Credit to Private Sector by Banks

Source: Banks and Bank of Tanzania computations
 Note: LHS denotes left hand scale; and RHS, right hand scale

Much of the credit was extended to building and construction, transport and communication, and personal related activities (small and medium scale enterprises) (**Chart 2.4**). Meanwhile, personal-related activities and trade continued to account for the largest share of the total outstanding credit, accounting for 32.1 percent and 16.7 percent, respectively (**Chart 2.5**).

Interest Rates

Interest rates charged on loans and those offered on deposits by banks softened in the quarter ending June 2020, in response to the sustained accommodative monetary policy and measures implemented by the Bank to cushion the economy from the negative impact of COVID-19. The overall lending rate decreased to an average of 16.75 percent from 16.81 percent in the preceding quarter and 17.11 percent recorded in the corresponding quarter in 2019. One-year lending rate averaged 16.40 percent in the quarter ending June 2020, up from 15.72 percent recorded in the preceding quarter, but was lower than 16.81 percent recorded in the quarter ending June 2019.

Meanwhile, overall time deposit rate and 12-months deposit rate eased to an average of 6.75 percent and 8.04 percent in the quarter ending June 2020 from 6.86 percent and 8.65 percent in the preceding quarter, and 7.28 percent and 8.58 percent in the corresponding quarter in 2019, respectively. The spread between one-year deposits rate and one-year lending rate was 8.36 percentage points in the quarter ending June 2020, up from 7.07 percentage points in the previous quarter and 8.24 percentage points recorded in the corresponding quarter in 2019 (**Table 2.2**).

Financial Markets

Domestic financial markets remained with adequate level of shilling liquidity during the quarter ending June 2020, consistent with accommodative monetary policy measures coupled with additional liquidity easing measures taken by the Bank to cushion the economy from adverse impact of COVID-19. The adequacy of liquidity was reflected in general decline in short-term interest rates. The foreign exchange market recorded mild demand pressure attributable to decrease in foreign exchange inflows from exports amidst COVID-19 pandemic.

In the quarter ending June 2020, the Bank of Tanzania offered Treasury bills worth TZS 644.3 billion, mainly to cater for government financing needs. Total demand in the market amounted to TZS 677.9 billion, of which the Bank accepted bids worth TZS 413.6 billion. The overall weighted average yield decreased to an average of 4.16 percent in the quarter ending June 2020 from 5.54 percent recorded in the preceding quarter (**Chart 2.6**).

Chart 2.6: Treasury Bills Market Performance

Source: Bank of Tanzania

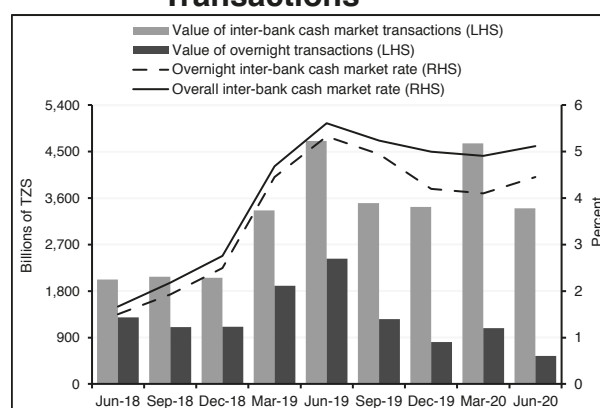

Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank offered 5-, 7-, 15- and 20-year Treasury bonds worth TZS 597.6 billion in quarter ending June 2020 for government budgetary operations. The auctions were highly oversubscribed to the tune of TZS 1,232.6 billion, partly reflecting investors' preference for Treasury bonds in the wake of uncertainties surrounding other investments amidst COVID-19 pandemic. The successful bids amounted to TZS 686.4 billion. Weighted average yield to maturity for the Treasury bonds auctioned during the quarter declined compared to the yields recorded in the preceding quarter.

The interbank cash market (IBCM) remained active with total transactions amounting to TZS 3,401.4 billion during the quarter ending June 2020. The amount traded was lower than TZS 4,659.3 billion recorded in the preceding quarter, signalling adequacy of liquidity in the banking system following measures implemented by the Bank to cushion the economy from adverse impact of COVID-19. Majority of the transactions were in 2 to 7 days' tenure, which accounted for 53.9 percent of total transactions, compared with 62.1 percent and 40.6 percent in the preceding quarter and corresponding quarter in 2019,

respectively. Meanwhile, overnight placements accounted for 16.0 percent of total transactions, smaller than 23.2 percent in the preceding quarter and 51.5 percent in the quarter ending June 2019. Overnight and overall interbank cash market interest rates stabilized at single digits, averaging 4.45 percent and 5.12 percent, lower than 5.33 percent and 5.61 percent in the quarter ending June 2019, respectively (**Chart 2.7**).

Chart 2.7: Inter-bank Cash Market Transactions

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank continued to offer reverse repurchase agreement (reverse repo) for effective management of liquidity consistent with the prevailing monetary policy stance. In the quarter ending June 2020, reverse repo worth TZS 584.5 billion were auctioned compared with TZS 948.3 billion in the preceding quarter. Meanwhile, reverse repo worth TZS 719.2 billion matured during the quarter under review, down from TZS 978.1 in the preceding quarter. Reverse repo rate decreased to an average of 5.63 percent in June 2020 from 7.23 percent in the quarter ending March 2020 (**Chart 2.8**).

Chart 2.8: Reverse Repo Transactions

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

Chart 2.9: Inter-Bank Foreign Exchange Market Transactions and Exchange Rate

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

Total value of transactions in the interbank foreign exchange market (IFEM) amounted to USD 122.9 million in the quarter ending June 2020, down from USD 171.6 million transacted in the preceding quarter (**Chart 2.9**). The Bank remained active in the market by selling USD 99.1 million in order to reduce the impact of low inflows of foreign exchange from tourism related activities attributable to seasonal factor and COVID-19 pandemic. The shilling remained fairly stable against the US dollar, trading at an average of TZS 2,303.43 per USD from TZS 2,300.52 per USD in the preceding quarter. On annual basis, the shilling recorded a depreciation of 0.1 percent from TZS 2,300.33 per USD recorded in the corresponding quarter in 2019.

3.0 PUBLIC FINANCE

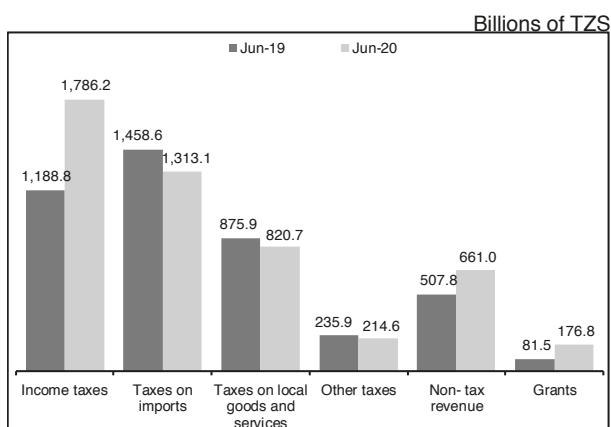

Government Budgetary Operations

During the quarter ending June 2020, Government resource envelope—revenue and grants—amounted to TZS 5,132.9 billion and expenditure was TZS 5,585.8 billion.

Revenue and Grants

During the quarter, revenue performance was satisfactory despite the negative effect of COVID-19 pandemic on some categories of tax revenue, especially consumption taxes. Domestic revenue amounted to TZS 4,956.1 billion, of which TZS 4,795.6 billion was collections by central government and the balance was local government revenue from own sources. Out of total domestic revenue, TZS 4,134.6 billion was tax collections, 10.0 percent higher than the amount collected in the corresponding quarter in 2019. **Chart 3.1** presents Central Government resources during quarters ending June 2019 and 2020.

Chart 3.1: Government Resources for the Quarters Ending June

Source: Ministry of Finance and Planning
Note: June 2020 data are provisional

Expenditure

Government expenditure amounted to TZS 5,585.8 billion during the quarter, of which TZS 3,451.0 billion was recurrent expenditure and TZS 2,134.8 billion was development expenditure (**Chart 3.2**).

Chart 3.2: Government Expenditure for the Quarters Ending June

Note: June 2020 data are provisional

National Debt

External debt stock increased to USD 22,522.7 million at the end of June 2020 from USD 22,414.9 million and USD 21,920.9 million at the end of the preceding quarter and corresponding quarter in 2019, respectively. The increase was due to new disbursements that outweigh debt service. Disbursed outstanding debt accounted for 91.3 percent of the debt stock and the balance was interest arrears.

The central government external debt decreased by USD 97.1 million from the amount registered at the end of the preceding quarter to USD 17,411.5 million. However, the stock was higher than the level at the end of June 2019 by USD 782.9 million. Composition of external debt by borrower category is presented in **Table 3.1**.

Note: DOD denotes disbursed outstanding debt; r, revised data; and p, provisional data

External debt disbursed during the quarter amounted to USD 345.3 million, of which the Central Government received USD 341.0 million and the balance went to the private sector. Disbursements during 2019/20 amounted to USD 2,196.8 million, of which 85.1 percent was received by the Central Government.

During the quarter, debt service totalled

USD 123.9 million, of which USD 202.1 million was principal repayment and the balance was interest payment. Debt service during 2019/20 was USD 1,848.5 million, of which USD 1,708.9 million was principal repayment.

Domestic debt stock amounted to TZS 15,515.7 billion at the end of June 2020, an increase of TZS 785.0 billion and TZS 652.6 billion from the stock recorded at the end of the preceding quarter and corresponding quarter in 2019, respectively (Table 3.3). The increase was due to new issuance that outweighed debt repayment. Long-term instruments (Treasury bonds and stocks) constituted the largest part of the debt, at 82.7 percent, in line with government initiative of lengthening time to maturity of domestic debt.

During the quarter, domestic debt that fell due for payment, excluding liquidity papers and overdraft payments, amounted to TZS 1,446.7 billion. Out of which, TZS 1,043.1 billion was principal repayment that was rolled over and TZS 403.6 billion was interest payment. Debt service during 2019/20 amounted to TZS 5,431.1 billion, out of which TZS 3,976.8 billion was principal repayment and the balance was interest payment.

Government debt securities issued for fiscal operations during the quarter ending June 2020 amounted to TZS 1,114.5 billion, of which TZS 719.9 billion was Treasury bonds and TZS 394.6 billion was Treasury bills. Domestic debt issued during 2019/20 amounted to TZS 5,748.8 billion, of which TZS 3,238.1 billion was Treasury bonds and the balance was Treasury bills.

4.0 EXTERNAL SECTOR PERFORMANCE

During the quarter ending June 2020, the overall balance of payments recorded a deficit of USD 249.0 million compared with a deficit of USD 222.3 million in the corresponding quarter in 2019. This outturn was on account of widening of a deficit in financial account. Conversely, current account deficit narrowed to USD 43.9 million from a deficit of USD 700.5 million in the quarter ending June 2019, largely owing to increase in value of exports, coupled with a decrease in import bill (**Table 4.1**).

Gross official reserves amounted to USD 5,184.7 million at the end of June 2020, higher than USD 4,432.6 million at the end of June 2019. The reserves were sufficient to cover 6.0 months of projected imports of goods and services. The import cover was above the country benchmark of not less than 4.0 months, the EAC and SADC benchmarks of at least 4.5 months and 6 months, respectively.

Goods Account

Goods account recorded a deficit of USD 21.4 million during the quarter ending June 2020, compared with a deficit of USD 981.0 million in the corresponding quarter in 2019. This improvement was on account of increase in the value of exports, coupled with a decline in imports. The value of goods export increased by 41.6 percent to USD 1,548.1 million from the amount recorded in the quarter ending June 2019, owing to higher value of both non-traditional and traditional goods exports. Non-traditional goods valued USD 1,341.3 million were exported during the quarter compared with USD 932.7 million in the quarter ending June 2019, driven by gold. Meanwhile, the value traditional goods export increased to USD 66.1 million from USD 61.4 million on account of tobacco, cashew nuts and sisal (**Table 4.2**).

Services and Income Accounts

Services account balance was a surplus of USD 26.5 million in the quarter ending June 2020, lower than a surplus of USD 491.7 million in the corresponding quarter in 2019, owing to a decrease in service receipts.

Primary income account, which comprises income from capital related transactions and compensation of employees, recorded a deficit of USD 164.1 million during the quarter compared with a deficit of USD 291.4 million in the quarter ending June 2019. This improvement was largely on account of decrease in interest payment (**Table 4.1**).

World Commodity Prices

During the quarter ending June 2020, the world market average prices of all selected commodities fell when compared to the corresponding quarter in 2019, except those of gold, Arabica coffee and wheat. This decline reflects subdued demand for commodities owing to the impact of COVID-19. Specifically, the fall in quarterly average price of oil and white products was due to weak demand following contraction of most economic activities. Meanwhile, increase in the price of gold is explained by COVID-19 pandemic-related uncertainty and a weaker US dollar, whereas that of Arabica coffee was due to low production during the 2019/20 crop season.

Table 4.3: World Commodity Prices

Commodity	Unit of measure	Quarter ending (Three months average)			Percentage change	
		Jun-19	Mar-20	Jun-20	Mar-19 to Jun-20	Jun-19 to Jun-20

5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

Gross Domestic Product⁴

All major economic activities in Zanzibar recorded slowdown in growth during the quarter ending March 2020, reflecting the impact of COVID-19. Accordingly, Zanzibar economy grew by 1.8 percent compared with 5.3 percent registered in the corresponding quarter in 2019 (**Chart 5.1**).

Chart 5.1: Year-on-Year Real GDP Growth

Source: Office of Chief Government Statistician and Bank of Tanzania computations

Economic activities that were mostly affected include accommodation and food services, information and communication, financial and insurance, and transport and storage. Accommodation and food services contracted by 14.1 percent compared to a growth of 11.6 percent in the quarter ending March 2019, owing to a decline in the number of tourists (**Chart 5.2a**).

Chart 5.2a: Year-on-Year Real Growths by Major Economic Activities

Source: Office of Chief Government Statistician and Bank of Tanzania computations
Note: Q denotes quarter

Main contributors to the growth were manufacturing, construction, education and real estate activities (**Chart 5.2b**).

⁴Statistics for the quarter ending June 2020 were not available at the time of publishing this report.

Chart 5.2b: Contribution to Real GDP Growth by Major Economic Activities

Source: Office of Chief Government Statistician
Notes: Q denotes quarter

Chart 5.3: Procurement of Cloves and Seaweeds

Source: Office of Chief Government Statistician
Notes: Q denotes quarter

Procurement of Cloves and Seaweeds

Volume of cloves procured increased to 141.9 tonnes during the quarter ending June 2020 from 19.1 tonnes in the corresponding quarter in 2019, owing to bumper harvest. As for seaweeds, 2,381.6 tonnes were procured during the quarter, lower than 2,925.0 tonnes in the corresponding quarter in 2019 (**Chart 5.3**).

Tourism

The number of tourist arrivals declined to 757 during the quarter ending June 2020 from 72,487 in the similar quarter in 2019, occasioned by the challenges related to the outbreak of COVID-19. Tourists from Europe, mainly United Kingdom, German, Italy and France, accounted for 57.7 percent of arrivals, followed by Asia, at 14.4 percent (**Chart 5.4**).

Chart 5.4: Number of Tourist Arrivals

Source: Office of Chief Government Statistician
Notes: Q denotes quarter

Inflation

Inflation remained below the medium term target of 5 percent, though recorded an increase during the quarter. Headline inflation averaged 4.5 percent during the quarter ending June 2020 compared with 2.9 percent in the corresponding quarter in 2019. This outturn was on account of higher food inflation. Food items that registered increase in price include rice, banana, sugar and maize flour. However, the average inflation rate in the quarter under review was below that recorded in the quarter ending March 2020, largely owing to a decline in prices of some food items and petroleum products (**Table 5.1**).

Public Finance

Government Budgetary Operations

Government resource envelope that includes domestic revenue and grants, amounted to TZS 147.0 billion during the quarter ending June 2020, of which TZS 139.9 billion was domestic revenue and TZS 7.1 billion were grants (**Chart 5.5**). Tax collections that accounted for 86.3 percent of domestic revenue amounted to TZS 120.7 billion, while non-tax revenue was TZS 19.2 billion, above the target for the quarter by 31.4 percent.

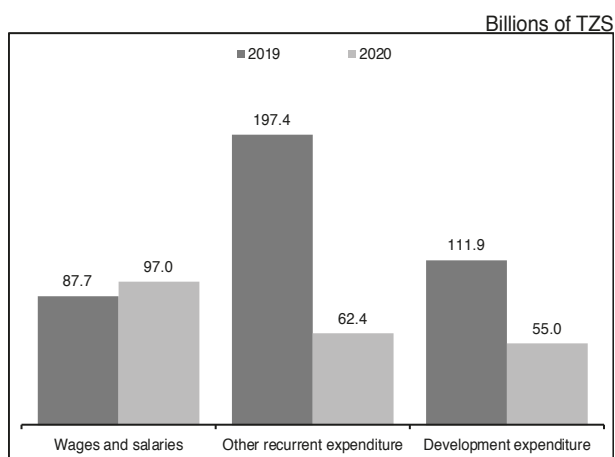

Chart 5.5: Government Resources for the Quarters Ending June

Source: Ministry of Finance and Planning, Zanzibar

During the quarter, Government recurrent expenditure amounted to TZS 159.5 billion, while TZS 55.0 billion was used to finance development projects (**Chart 5.6**). Funds from domestic sources accounted for 43.3 percent of the resources for development projects during the quarter. Overall deficit was TZS 22.9 billion, which was financed through project loans.

Chart 5.6: Government Expenditure for the Quarter ending June

Source: Ministry of Finance and Planning, Zanzibar

Debt Developments

The debt stock, domestic and external, increased to TZS 824.5 billion at the end of June 2020, from TZS 808.8 billion recorded at the end of the corresponding period in 2019. This outturn was largely on account of exchange rate depreciation. Out of the debt stock, external debt was TZS 667.7 billion (equivalent to USD 290.8 million) and the balance was domestic debt.

The profile of external debt stock shows multilateral institutions and bilateral loans as the leading creditors, accounting for 89.6 percent of the debt stock. The balance was shared between export credit and commercial loans. As for maturity profile, debts maturing above 20 years remained dominant (**Table 5.2**).

Table 5.2: External Debt by Maturity

Maturity	Quarter ending			Percentage share Jun-2020	Percentage change	
	Jun-19	Mar-20	Jun-20 ^p		Mar-20 to Jun-20	Jun-19 to Jun-20
Less than 10 years	65.5	53.3	53.4	18.4	0.2	-18.4

External debt stock	294.1	288.7	290.8	100.0	0.3	-1.1

Source: Ministry of Finance and Planning, Zanzibar
Note: p denotes provisional data

Domestic debt stock was TZS 156.8 billion at the end of June 2020, 17.6 percent higher than the stock at the end of June 2019. The increase was on account of new loans disbursed in the third and fourth quarters of 2019. As regard to structure of debt by instrument, Treasury bonds continued to account for the largest share, at 69.0 percent. In terms of maturity profile, debts maturing between 2 and 10 years remained dominant (**Table 5.3**).

Table 5.3: Domestic Debt by Instruments and Maturity

External Sector Performance

During the quarter ending June 2020, current account balance improved to a surplus of USD 7.4 million from a deficit of USD 28.7 million in the similar quarter in 2019, mainly on account of decrease in import bill (**Table 5.4**).

Table 5.4: Current Account Balance

Goods and services valued at USD 37.4 million were exported during the quarter, lower than the amount recorded in the similar quarter in 2019 by 8.4 percent. The value of goods exports declined to USD 3.9 million from USD 4.1 million in quarter ending June 2019, owing to decrease in cloves exports. The value of cloves exported during the quarter declined to USD 0.8 million from USD 1.2 million in the quarter ending June 2019, mainly on account of lower unit price in the world market. Conversely, the value of seaweeds exports increased to USD 1.4 million from USD 1.1 million, driven by higher unit price in the world market (Table 5.5). Foreign exchange income from services also declined by 8.7 percent over the quarters to USD 33.5 million (Table 5.4).

Table 5.5: Goods Export Performance

Note: Other exports mainly include souvenirs and spices; p denoted provisional data; and “---”, the change that exceeds 100 percent

The import bill decreased by 29.1 percent from the amount recorded in the quarter ending June 2019 to USD 41.4 million, on account of a decline in the value of goods imports. The decline in goods import bill was mainly associated with the outbreak of COVID-19, which affected global economic activities. Much of the decline was recorded in intermediate goods, particularly oil imports (Table 5.6).

Table 5.6: Goods Imports by Major Categories

6.0 REGIONAL ECONOMIC DEVELOPMENTS

During the quarter ending June 2020, the East African Community (EAC) region continued to record moderate inflation, below the convergence criteria of not more than 8.0 percent. Twelve-month headline inflation averaged 5.8 percent compared with 2.1 percent in the corresponding quarter in 2019. Tanzania, Kenya and Uganda registered decline in headline inflation when compared with the corresponding quarter in 2019, owing to a decline in fuel prices. Conversely, Rwanda and Burundi experienced higher inflation due to rise in food prices (**Table 6.1**).

In the Southern African Development Community (SADC) region, twelve-month headline inflation increased significantly to 64.1 percent during the quarter ending June 2020 from 13.7 percent in the corresponding quarter in 2019⁵ (**Table 6.1**). This increase was largely on account of hyperinflation in Zimbabwe fueled by rapid local currency devaluation coupled with large current account deficit. During the quarter, Eswatini, Lesotho, Mozambique and Tanzania met SADC convergence criteria of between 3.0 – 7.0 percent. Meanwhile, Botswana, Lesotho, Namibia, Seychelles, South Africa and Tanzania recorded lower inflation rates than in the corresponding quarter in 2019, attributable to low demand and decline in global oil prices. Angola and Zambia had headline inflation rates of above 10 percent on account of higher food prices and local currency depreciation.

8.0 GLOSSARY

Money supply

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

Narrow money (M1)

Consists of currency in circulation outside banking system plus demand deposits (cheque account).

Broad money (M2)

Comprises of narrow money (M1) plus fixed-term and savings deposits of residents with banks in the country.

Extended broad money (M3)

Consists of broad money (M2) plus foreign currency deposits of the residents with banks in the country.

Reserve money (M0)

Also referred as base money, or the monetary base or high-powered money. This includes currency in circulation outside the banking system, cash held in the vaults of banks and deposits of banks kept with the Bank of Tanzania in national currency.

Currency in circulation outside banks

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e. outside the Bank of Tanzania and banks.

Disbursed Outstanding Debt

This is the amount of debt that has been disbursed but yet to be paid back or forgiven.

Discount rate

The rate of interest at which the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time to time depending on the liquidity situation in the market.

Exchange rate

The price at which one unit of a currency can be purchased with another currency.

External debt stock

The stock of a country's debt that is borrowed from foreign lenders through private commercial banks, foreign governments, or international financial institutions. It is the sum of public, publicly guaranteed, and private non-guaranteed long-term debt, use of IMF credit, and short-term debt (includes all debt having an original maturity of one year or less and interest in arrears on long-term debt).

Gross Official Reserves

Gross official reserves consist of external assets that are readily available to, and controlled by the Bank of Tanzania for direct financing of balance of payments, and for indirectly regulating the magnitude of balance of payments imbalances through intervention in foreign exchange markets. Gross official reserves comprise the Bank of Tanzania's holdings of monetary gold, special drawing rights (SDRs), reserve position in the International Monetary Fund, and foreign exchange resources, available to the Bank of Tanzania for meeting external financing needs.

Inflation

The rate at which the average level of prices of a basket of selected goods and services in an economy is increasing over a period of time. It is often expressed as a percentage. Inflation indicates a decrease in the purchasing power of a nation's currency.

Food inflation

This is a measure of price movements caused by food prices.

Non-food inflation

This is a measure of price movements caused by factors other than food prices.

Core inflation

This is a measure of price movements caused by factors other than food and energy prices

over a specified period of time. It provides better indication of the effectiveness of monetary policy.

Interbank Cash Market

A money market in which banks extend loans to one another for a specified term of not more than 90 days. Each transaction represents an agreement between the banks to exchange the agreed amounts of currency at the specified rate on a fixed date.

Overnight Interbank Cash Market

The component of the money market involving the shortest term loan. Lenders agree to lend borrowers funds only "overnight" i.e. the borrower must repay the borrowed funds plus interest at the start of business the next day.

Lombard facility

An overnight loan facility available for banks to borrow from the Bank of Tanzania at their own discretion, by pledging eligible government securities as collateral.

Lombard rate

The interest rate that the Bank of Tanzania charges bank for borrowing through Lombard facility. This rate is computed basing on the prevailing weighted average yield of 35-day Treasury bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

National Debt

Total national debt obligations that include public debt and private sector external debt.

Public Debt

Debt payable or guaranteed by the Government. Tanzania's public debt has two main components, domestic debt (which is incurred principally to finance fiscal deficit) and external debt (which is raised primarily to finance development projects and comprises of debt the Central Government owes to foreign creditors and external obligations of government departments and agencies that are guaranteed for repayment by the Central Government).

Repurchase agreement (repo)

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date. Repo are initiated by Bank of Tanzania for mopping up excess liquidity in banks.

Reverse repo

Simply the same as repurchase agreement from the buyer's view point. It is an arrangement that involve buying of securities at a specified price with commitment to resale the same or similar securities at a fixed price on a specified future date. Reverse repo are initiated by Bank of Tanzania to inject liquidity in banks.

Transferable deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Other deposits

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving and fixed-term deposits.

Weighted yields of Treasury bills

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
