## SUMMARY OF ECONOMIC DEVELOPMENTS

---

During the quarter ending December 2022, the global economy continued to face challenges caused by the war in Ukraine, resurgence of COVID-19, and climate change. However, there improvements compared to the preceding quarters of the year. Commodity prices in the world market were high, but declining, and inflation which was above targets in many countries was falling. Supply-chain challenges were moderating and there are signs of easing financial conditions due to a reduction in aggressiveness of monetary policy tightening.

In Tanzania, economic growth remained satisfactory, considering the global circumstances. In Mainland Tanzania, growth was 5.2 percent in the quarter ending September 2022, slightly lower than 5.5 percent in the corresponding quarter in 2021. Main growth drivers were transport and storage, agriculture, mining and quarrying, and construction. Inflation increased moderately, averaged 4.9 percent in the quarter ending December 2022, from 4.1 percent in the corresponding quarter in 2021, on account of an increase in the general price level of food.

The Bank of Tanzania sustained a cautious accommodative monetary policy, which aims at controlling inflationary pressures emanating from high import prices, while supporting economic activities. Accordingly, growth of money supply was broadly in line with the targets for 2022/23. Extended broad money supply grew by 12.5 percent in the quarter ending December 2022, against the annual target of 10.3 percent, on account of strong

growth of credit to private sector, which registered an average growth of 22.9 percent.

Government budgetary operations in the quarter to December 2022 resulted in an overall deficit of TZS 1,578.7 billion. Government resource envelope was TZS 7,474.8 billion, equivalent to 96.5 percent of the target for the quarter, while expenditure was TZS 8,043.6 billion, of which development expenditure was TZS 3,739.1 billion. Stock of national debt was USD 40,122.8 million at the end of December 2022, equivalent to a quarterly increase of USD 1,661.4 million.

The external sector of the economy continued to face adverse effects of the global shocks. The current account recorded a deficit of USD 1,448.2 million during the quarter ending December 2022, compared with a deficit of USD 792.0 million in the corresponding quarter in 2021, owing to an increase in imports, particularly petroleum products.

The Zanzibar economy performed satisfactorily growing at 4.2 percent during the quarter ending September 2022, mainly driven by accommodation and food services, accommodation and food services, fishing, construction and real estate. Inflation averaged 7.7 percent in the quarter ending December 2022 compared with 5.6 percent in the preceding quarter.

Government financial resources were 94.7 percent of the target for the quarter, supported by intensification of tax administration system and obedience by taxpayers. Government expenditure amounted to TZS 374.2 billion, of

which TZS 249.5 billion was recurrent expenditure and TZS 124.7 billion was spent on development projects. The current account deficit, widened to USD 94.9 million, from a deficit of USD 68.4 million in the corresponding quarter in 2021, associated with higher imports bill.

## 1.0 OUTPUT AND INFLATION

### 1.1 Global and Regional Economic Developments

Global economic activity in last quarter of 2022 was weak, derailed by supply-chain disruptions caused by the war in Ukraine, resurgence of COVID-19, as well as climate-related constraints. However, signs of improvements were unfolding. China reopened borders after 3 years of COVID-19 travel restrictions, commodity prices in the world market were high, but declining, and inflation which was above targets in many countries was falling. Supply-chain challenges were moderating and there are signs of easing financial conditions due to a reduction in aggressiveness of monetary policy tightening.

In the EAC region, inflation averaged 14.7 percent compared with 4.6 percent in the corresponding quarter in 2021, due to high prices of consumer goods and energy in the world market. All member countries recorded inflation rates above the convergence criteria of at most 8 percent, except Tanzania. The same pattern was observed in the SADC region, with only Tanzania, Seychelles, Eswatini and Namibia maintaining inflation within the convergence criteria of 3-7 percent. (Table 1.1.1).

**Table 1.1.1: EAC and SADC Inflation**

Country	Quarter ending					
	Sep-21	Dec-21	Mar-22	Jun-22	Sep-22	Dec-22

### 1.2 Domestic Economic Performance

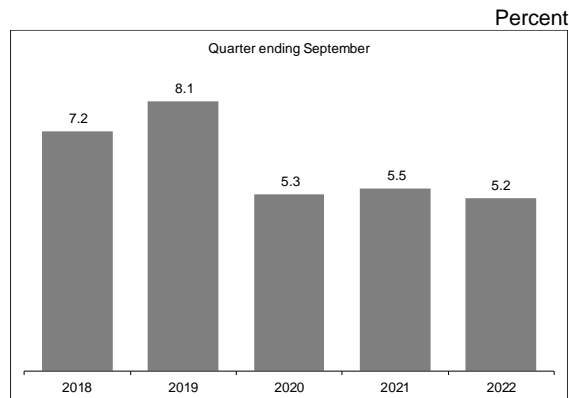

#### Gross Domestic Product

Performance of the economy in 2022 was satisfactory, although it was undermined by challenges caused by the war in Ukraine and frequent COVID-19 resurgence, particularly in China. In the third quarter of 2022, the economy grew by 5.2 percent compared with 5.5 percent in the corresponding period in 2021 (Chart 1.2.1). Main growth drivers were transport and storage, agriculture, mining and quarrying, construction, and financial and insurance activities (Chart 1.2.2).

Fastest growing activities during the quarter were information and communication, accommodation and restaurants, and financial and insurance activities (Chart 1.2.3). The outturn was largely associated with expansion of

broadcasting and internet services in the country, increase in tourist arrivals, and growing bank deposits and credit to private sector.

Source: National Bureau of Statistics and Bank of Tanzania computations

## Inflation

In 2022, inflation sustained an upward movement largely owing to global supply chain disruptions caused by the war in Ukraine. Specifically, headline inflation rose to an average of 4.9 percent in the quarter ending December 2022 from 4.1 percent in the corresponding quarter in 2021 (Table 1.2.1). Despite the increase, inflation remained within the country target, was consistent with regional benchmarks, and lower than most of countries in the EAC and SADC.<sup>1</sup>

<sup>1</sup> East African Community and Southern African Development Community convergence criteria of a

maximum of 8 percent and between 3-7 percent, respectively.

**Table 1.2.1: Quarterly Inflation**

Base: Dec 2020=100

All items less food and non-alcoholic beverages	71.8	4.0	2.7	3.3	3.6	3.1

Source: National Bureau of Statistics and Bank of Tanzania computations

Annual food and non-alcoholic beverages inflation increased to an average of 9.3 percent, from 4.4 percent in the quarter ending December 2021. During the quarter, wholesale prices of all selected major food crops were higher than in the corresponding quarter in 2021 and the preceding quarter, with maize recording the highest increase followed by rice (Table 1.2.2). The rise in prices was mainly attributed to increase in demand from neighbouring countries coupled with low harvests during the 2021/22 crop season.

Despite the price increase, food situation has remained satisfactory. To cushion the impact of high food prices, the National Food Reserve Agency (NFRA) sold food stocks to the needy councils (at subsidized prices), and grain millers and traders. As a result, stock of food held by the Agency decreased to 137,655 tonnes from

214,968.4 tonnes in a similar period in 2021 (Table 1.2.3).<sup>2</sup>

**Table 1.2.2: Average Wholesale Prices of Major Food Crops**

TZS per 100kg

Crop	Quarter ending			Percentage change	
	Dec-21	Sep-22	Dec-22	Sep-22 to Dec-21 to	Dec-22

December	95,534.1	52,498.1	110,398.1	214,968.4	137,655.1

Source: National Food Reserve Agency

Energy, fuel and utilities inflation eased to 8.1 percent from 9.6 percent in the preceding quarter. However, the rate was higher than that of the corresponding quarter in 2021 (Table 1.2.1). The outturn reflects oil price movements in the global market. After remaining on an upward trend since mid-2020, prices of white products in the world market started to record a downward trend from July 2022, though have remained higher than in the corresponding period in 2021. During the quarter, domestic average prices of diesel, kerosene and petrol continued to slow down albeit remaining higher than in the corresponding quarter in 2021, with kerosene that has no government subsidy recording the highest annual price increase (Table 1.2.4). Government intervention through provision of subsidies to oil prices (diesel and

<sup>2</sup> The stock comprises maize grain, paddy and sorghum.

petrol) has to a greater extent reduced the impact of global price increase.

**Table 1.2.4: Domestic Fuel Prices**

Products	TZS per litre				
	Quarter ending			Percentage change	
	Dec-21	Sep-22	Dec-22	Sep-22 to Dec-22	Dec-21 to Dec-22
Petrol	2,559.7	3,274.0	2,970.5	-9.3	16.1
Diesel	2,395.5	3,271.1	3,219.5	-1.6	34.4
Kerosene	2,354.8	3,511.0	3,454.9	-1.6	46.7

Source: National Bureau of Statistics

Core inflation also slowed down to an average of 2.7 percent, from 3.3 percent in the preceding quarter and 4.6 percent in a similar quarter in 2021, reflecting effectiveness of the monetary policy implemented by the Bank.

Headline inflation is projected to stabilize in the second half of 2022/23 as the external sector landscape is expected to improve. Oil prices are likely to slow down following the recent decision by OPEC+ to refrain from production cut, as well as the less effective price cap on Russian oil. In addition, global inflation is somewhat easing, goods prices falling, and shipping costs moderating. Furthermore, food supply situation in the country is expected to improve due to ongoing rainfalls, which seems to be favourable.

## Production and Procurement of Major Commodities

### Production of Gold and Diamond

During the quarter, gold worth USD 485.7 million was produced by large-scale miners, higher than USD 456 million in the quarter ending December 2021, owing to volume increase. Significant improvement was also recorded in the quantity and value of diamond, attributable to reopening of Williamson Mines after a period of closure for maintenance.

Moreover, during the quarter production of coal also increased significantly compared with corresponding period last year owing to increased global demand (Table 1.2.5).

**Table 1.2.5: Production of Gold and Diamond**

Mineral	Unit and value	Quarter ending			Percentage change	
		Dec-21	Sep-22	Dec-22	Sep-22 to Dec-22	Dec-21 to Dec-22
		Gold	Kilograms	10,175.1	10,578.9	11,032.1
	Value (Millions of USD)	456.0	478.9	485.7	1.4	6.5

Source: Respective mining companies,  
Note: '---' denotes changes that exceed 100 percent

### Procurement of Traditional Export Crops

Volume of all traditional cash crops procured during the quarter was relatively higher than in the corresponding quarter in 2021, save for tobacco, which was out of season, and cashew nuts. As for cotton, the increase was largely due to favourable weather, while for sisal it was owing to rising global demand. Government efforts to provide farmers with free input credits and extension services, particularly to coffee growers contributed to the increase in volume of coffee procured. Meanwhile, the decline recorded in cashew nuts procured was largely explained by low production due to unfavourable weather in respective growing regions (Table 1.2.6).

**Table 1.2.6: Procurement of Traditional Cash Crops**

Crops	Tonnes				
	Quarter ending			Percentage change	
	Dec-21	Sep-22	Dec-22	Sep-22 to Dec-22	Dec-21 to Dec-22

## 2.0 MONETARY AND FINANCIAL MARKETS DEVELOPMENTS

### Money Supply and Credit

Growth of money supply remained within targets and in line with the ongoing cautious monetary stance, which aims at striking a balance between containing inflationary pressures—emanating from the negative impact of external economic shocks—and supporting the recovery of economic activities. During the quarter ending December 2022, extended broad money supply grew at an average of 12.5 percent, broadly in line with 10.3 percent target for 2022/23. The outturn was mainly driven by sustained increase in the demand for new loans following recovery of various economic activities from global shocks (Chart 2.1, Table 2.1 and Chart 2.2).

**Chart 2.1: Developments in Money Supply**

**Chart 2.2: Annual Change in Major Components of Money Supply**

Source: Bank of Tanzania and banks  
Note: NFA denotes net foreign assets

Credit to the private sector sustained strong growth in the period under review, averaging 22.9 percent compared with 7.8 percent in the corresponding quarter in 2021 (Chart 2.3). The result was mainly explained by recovery of various economic activities from the effects of COVID-19 pandemic coupled with monetary and fiscal measures carried out to mitigate adverse effects of external economic shocks.

**Chart 2.3: Credit to Private Sector by Banks**

Source: Bank of Tanzania  
 Note: LHS denotes left-hand scale; and RHS, right-hand scale

All major economic activities recorded strong lending during the quarter, except hotels and restaurants (Chart 2.4). Agricultural activities continued to register the highest growth, responding to monetary policy measures rolled out by the Bank to support cost-effective financing for agriculture and agribusiness activities. Meanwhile, personal loans continued to hold the largest share of outstanding credit, followed by trade, manufacturing and agriculture activities (Chart 2.5).

## Interest Rates

Interest rates charged on loans by banks remained almost unchanged averaging 16.07 percent during the quarter compared with 16.47 percent in the corresponding quarter in 2021. Meanwhile, negotiated lending rates stabilized at around 14 percent. Interest rates offered by banks on deposits recorded an increase with overall time deposit rates averaging 7.18 percent, from 6.62 percent in the quarter ending

December 2021. Negotiated deposit rates eased to an average of 9.30 percent, from 9.77 percent (Table 2.2).

**Table 2.2: Selected Banks' Interest Rates (Quarterly Average)**

	Percent				
	Dec-21	Mar-22	Jun-22	Sep-22	Dec-22

## Financial Markets

In the quarter ending December 2022, the Bank conducted six Treasury bills auctions worth TZS 1,025.3 billion to cater for government financing needs and liquidity management. Total bids received amounted to TZS 494.5 billion, out of which TZS 462.7 billion were successful. Overall yield increased to an average of 5.55 percent from 4.32 percent in the corresponding quarter in 2021 (Chart 2.6).

**Chart 2.6: Treasury Bills Market Performance**

Source: Bank of Tanzania

Note: LHS denotes left-hand scale; and RHS, right-hand scale

The Bank also auctioned Treasury bonds of all maturities, except the 5-year bond, with total tender size of TZS 937.5 billion, to cater for

government budgetary financing requirements. Cumulatively, the auctions received bids worth TZS 1,066.4 billion, out of which TZS 945.4 billion were successful. Yields to maturity increased across all tenures, except for the 15-year bond.

The inter-bank cash market (IBCM) remained active, facilitating the flow of liquidity across banks. Total transactions in the market amounted to TZS 4,602.4 billion, compared with TZS 4,929.3 billion in the quarter ending December 2021. Transactions of 2 to 7 days' tenure remained dominant, accounting for 67.1 percent of the total market turnover. Overnight IBCM interest rate averaged 3.77 percent, slightly lower than 3.84 percent in the quarter ending December 2021. The overall and 2 to 7 days IBCM interest rates remained almost the same at 4.80 percent and 4.73 percent, respectively (Chart 2.7).

**Chart 2.7: Inter-bank Cash Market Transactions**

Source: Bank of Tanzania

Note: LHS denotes left-hand scale; and RHS, right-hand scale

In implementing liquidity-reducing monetary policy, the Bank continued to conduct repurchase agreements (repo) with banks to ensure that the level of liquidity corresponds with the requirements of economic activities. Accordingly, the Bank conducted repos worth

TZS 4,417.2 billion compared with TZS 2,056.5 billion in the preceding quarter. Repo rate eased to an average of 2.99 percent from 3.57 percent. Meanwhile, repo worth TZS 4,730.2 billion matured during the quarter.

The inter-bank foreign exchange market, which facilitates trading of foreign currencies among banks continued to operate smoothly. Transactions worth USD 141.2 million were conducted during the quarter ending December 2022, compared with USD 128.6 million and USD 434.9 million in the preceding quarter and corresponding quarter in 2021, respectively (Chart 2.8). The Bank of Tanzania participated on the selling side of the market, mainly to support import demand amidst high commodity prices in the world market. Accordingly, the Bank registered a net sale of USD 62 million, compared to a net purchase of USD 237.7 million in the quarter ending December 2021.

The shilling remained fairly stable against the US dollar, trading at an average of TZS 2,319.93 per US dollar, compared with TZS 2,316.73 per US dollar in the preceding quarter. On annual basis, the shilling depreciated marginally by 0.6 percent from TZS 2,306.20 per US dollar registered in the quarter ending December 2021.

## 3.0 PUBLIC FINANCE

### Government Budgetary Operations

In the quarter ending December 2022, government resource envelope, consisting of domestic revenue and grants, amounted to TZS 7,474.8 billion, while expenditure was TZS 8,043.6 billion. This resulted in an overall deficit of TZS 1,578.7 billion, which was financed from foreign and domestic sources, at TZS 1,171.3 billion and TZS 407.4 billion on net basis, respectively.

### Revenue and Grants

Domestic revenue collection during the quarter was TZS 7,119.3 billion, equivalent to 97 percent of the target for the period. Out of the total, central government collections were TZS 6,883.9 billion, of which TZS 5,806.7 billion was tax revenue that was equivalent to 97.6 percent of the target. Strong performance was recorded in income tax and other taxes categories, largely attributable to continued recovery of economic activities. Non-tax revenue amounted to TZS 1,077.2 billion, or 95.1 percent of the target. Chart 3.1 presents revenue collection in quarters ending December.

**Chart 3.1: Government Resources for the Quarter Ending December**

Source: Ministry of Finance and Planning

### Expenditure

During the quarter under review, total government expenditure was TZS 8,043.6 billion, of which recurrent expenditure was TZS 4,304.5 billion and development expenditure was TZS 3,739.1 billion. Out of total development expenditure, TZS 2,818.7 billion was from domestic resources (Chart 3.2).

**Chart 3.2: Government Expenditure for the Quarters Ending December**

Source: Ministry of Finance and Planning

### National Debt

National debt stock was USD 40,122.8 million at the end of December 2022, a quarterly increase of USD 1,661.4 million. External debt (public and private) accounted for 72.4 percent of the debt stock, while public debt (external and domestic) was 80.6 percent of the national debt stock.

External debt stock recorded a quarter-on-quarter increase of USD 1,707.7 million to USD 29,049.1 million at the end of December 2022, mainly on account of disbursements that outweigh debt service, and exchange rate fluctuations. Public sector share in the external

debt—central government and public corporations—was 73.3 percent (Table 3.1).

Note: DOD denotes disbursed outstanding debt; r, revised data; and p, provisional data

Disbursements worth USD 1,050.6 million were received during the quarter, out of which USD 881.4 million was for the Central Government and the balance by the private sector. Debt service amounted to USD 502.5 million, of which USD 360.6 million was principal

repayment. Debt service was equivalent to 15.3 percent of the export of goods and services.

During the quarter, domestic debt increased by TZS 25.1 billion to TZS 25,567.9 billion from the level registered at the end of September 2022, with long-term instruments (Treasury bonds and stocks) accounting for 81.8 percent of the stock (Table 3.3). Pension funds and commercial banks remained the dominant creditors, jointly holding 59.2 percent of the debt stock (Table 3.4).

During the quarter, the Government borrowed TZS 1,416.3 billion from the domestic debt market, comprising Treasury bonds worth TZS 1,003.4 billion and the balance was Treasury bills. Domestic debt service excluding liquidity papers and overdraft settlements, amounted to TZS 1,685.3 billion, out of which principal

amount worth TZS 1,084.3 billion was rolled-over and TZS 601.0 billion was interest payment.

## 4.0 EXTERNAL SECTOR PERFORMANCE

The external sector continued to face shocks in the form of weaker global demand, high commodity prices, tight financial conditions, and supply-chain disruptions. During the quarter ending December 2022, the current account recorded a deficit of USD 1,448.2 million, compared to a deficit of USD 792 million in the corresponding quarter in 2021, mainly driven by increased import bill, specifically for importing refined white petroleum products (Table 4.1). Foreign exchange reserves amounted to USD 5,177.2 million at the end of December 2022 compared with USD 6,386 million in a similar period in 2021. The amount was adequate to cover about 4.7 months of imports, which is in line with the country and EAC benchmarks of at least 4 months and 4.5 months, respectively.

### Goods Account

During the quarter ending December 2022, the value of goods exported rose by 3.9 percent to USD 1,969.7 million from the corresponding quarter in 2021, largely on account of non-

traditional exports, in particular manufactured goods. Value of manufactured goods exports rose by 34.9 percent to USD 438.6 million from the corresponding quarter in 2021, bolstered by cement and glassware. Traditional exports also edged up to USD 331.1 million from USD 314.2 million. Meanwhile, the value of goods imported rose by 28.5 percent to USD 3,858.4 million during the quarter, from the amount registered in the same period in 2021. Main drivers of the increase were refined white petroleum products, fertilizers, and industrial transport machinery. Petroleum products worth USD 770.6 million were imported during the quarter, compared with USD 618.7 million in the corresponding quarter in 2021 (Table 4.2).

## Services and Income Accounts

Services account recorded a surplus of USD 617.3 million in the quarter ending December 2022, higher than USD 490.4 million reported during the corresponding quarter in 2021. The outturn was a result of increase in services receipts, particularly from travel. The increase in travel earnings is consistent with improvement in tourism activities, which is reflected in the rise in number of international tourist arrivals to 420,507 from 298,296 during the two corresponding quarters.

The primary income account recorded a deficit of USD 365.7 million, compared with a deficit of USD 338.2 million in the same period in 2021. On the other hand, the secondary income account recorded a surplus of USD 188.9 million, up from a surplus of USD 162.2 million in the corresponding period in 2021, due to an increase in inflows to the private sector (Table 4.3).

**Table 4.3: Service and Income Accounts**

## Terms of Trade

Tanzania's terms of trade<sup>3</sup> remained optimistic and favourable, above the benchmark of 100 though decreased slightly to 100.4 percentage points in the quarter ending September<sup>4</sup> 2022 from 100.5 recorded in the quarter ending June 2022. This implies that every unit value of goods exported by Tanzania can buy more than a unit value of imported goods.

**Chart 5.1: Developments in Terms of Trade**

Source: National Bureau of Statistics and Bank of Tanzania computations

Note: LHS denotes left-hand scale; and RHS, right-hand scale

## World Commodity Prices

During the quarter ending December 2022, average prices of all selected commodities declined in comparison to those recorded in a similar quarter of 2021, except crude oil, white petroleum products and maize (Table 4.4). However, when compared to the preceding quarter, prices of crude oil and white petroleum products decreased on account of a fall in demand coupled with recession concerns despite output cuts by OPEC+.<sup>5</sup> Gold prices slightly increased following expectations that

<sup>3</sup> Terms of Trade is a measure of how much imports an economy can get for a unit of exported goods.

<sup>4</sup> Latest terms of trade data.

<sup>5</sup> OPEC+ consists of 13 OPEC members and 10 of the world's major non-OPEC oil-exporting nations (Azerbaijan, Bahrain, Brunei, Kazakhstan, Malaysia, Mexico, Oman, Russia, South Sudan and Sudan).

US Federal Reserve will slow the pace of its increases in interest rates as inflation eases off its highs. Prices of most agricultural products decreased subsequently with a fall in oil prices.

## 5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

### Gross Domestic Product

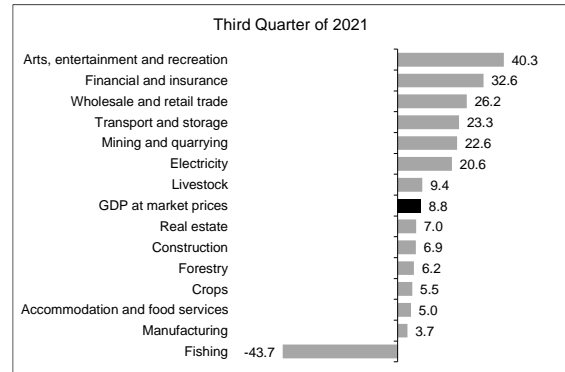

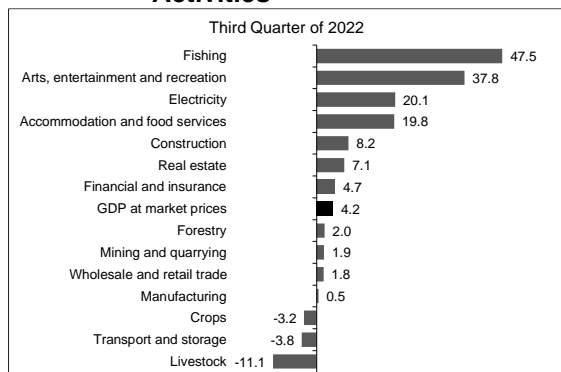

Zanzibar's economy remained strong, growing at 4.2 percent in the quarter ending September 2022 (Chart 5.1). Fishing recorded the highest growth, followed by arts, entertainment and recreation; electricity; and accommodation and food services. Main growth drivers were accommodation and food services, fishing, construction and real estate (Chart 5.2a and Chart 5.2b).

### Procurement of Cloves and Seaweeds

Volume of cloves procured during the quarter to December 2022 declined to 1,139 tonnes from 1,871.4 tonnes in a similar quarter in 2021, associated with the cyclical nature of the crop. As for seaweeds, volume procured increased to 3,755.2 tonnes from 3,190.6 tonnes, backed by ongoing extension services provided by the

Government and favourable weather conditions (Chart 5.3).

**Chart 5.3: Procurement of Cloves and Seaweeds**

Source: Office of Chief Government Statistician  
Notes: Q denotes quarter

## Tourism

During the quarter ending December 2022, tourist arrivals increased to 174,124 from 115,431 recorded in a similar quarter in 2021, partly associated with the ongoing promotion by the Government and increased tourism products and services (Chart 5.4). Tourists from Europe continued to dominate the market, at 68.7 percent, followed by Africa (14.2 percent), Asia (11.7 percent) and the remaining percentage was from other parts of the globe. Country-wise, France dominated the Zanzibar tourism market, followed by German, Italy and Britain.

**Chart 5.4: Number of Tourist Arrivals**

Source: Office of Chief Government Statistician  
Notes: Q denotes quarter

## Inflation

During the quarter ending December 2022, headline inflation increased to an average of 7.7 percent from 5.6 percent and 2.2 percent recorded in the preceding quarter and corresponding quarter in 2021, respectively. Despite the increase, the rate remained below the EAC convergence benchmarks of not more than 8 percent. The increase was largely owing to higher food prices, particularly maize flour, rice and wheat flour. Food inflation averaged 11.7 percent compared with 7.4 percent in quarter ending September 2022 and 0.2 percent in the quarter ending December 2021. Non-food inflation averaged 5 percent compared with 4.3 percent in the preceding quarter and 3.7 percent recorded in the corresponding quarter in 2021 (Table 5.1).

## Public Finance

### Government Budgetary Operations

During the reporting quarter, government budgetary resources were TZS 306.5 billion, equivalent to 94.7 percent of the target, of which TZS 302.3 billion was domestic revenue and TZS 4.2 billion was grants. This outturn is supported by intensification of tax administration system and growing obedience by taxpayers. Taxes, which accounted for 89.4 percent of the domestic revenue, was TZS 270.2 billion, below projection by 0.2 percent, while non-tax revenue was TZS 32.1 billion (Chart 5.5).

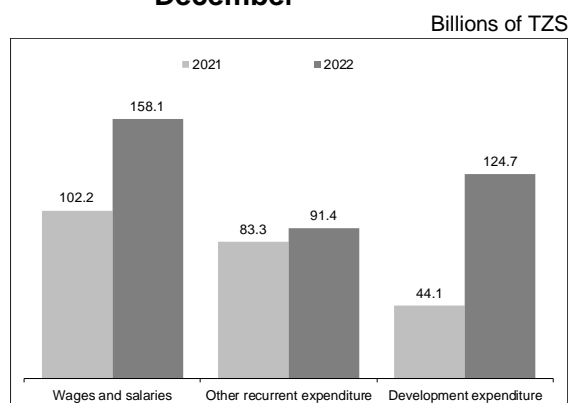

**Chart 5.5: Government Resources for the Quarter Ending December**

Source: President's Office, Finance and Planning, Zanzibar

The Government continued to rationalize expenditures based on available resources, budget estimates and priorities. During the quarter ending December 2022, government expenditure amounted to TZS 374.2 billion, of which TZS 249.5 billion was recurrent expenditure and TZS 124.7 billion was spent on development projects (Chart 5.6). Domestic financing for development projects was TZS 102.7 billion, while foreign financing was TZS 21.9 billion. Fiscal deficit after grants amounted to TZS 17.1 billion, which was financed through external borrowing.

## Debt Developments

Total debt stock increased to TZS 2,700.1 billion at the end of December 2022 from TZS 897.5 billion at the end of December 2021. Out of debt stock, external debt was TZS 2,381.4 billion (equivalent to USD 1,031.4 million), up from TZS 695.3 billion recorded at the end of December 2021. The increase was attributed to among others, disbursements, debt reconciliation and exchange rate fluctuations. External debt accounted for 88.2 percent of the debt stock (Table 5.2).

**Table 5.2: Debt Stock**

Note: '---' denotes changes that exceed 100 percent

Domestic debt stock increased to TZS 318.7 billion at the end of the quarter, from TZS 202.2 billion in the corresponding period in 2021 following new borrowing through government securities. As in the previous quarter, treasury bonds dominated the portfolio at 87.7 percent,

whereas debts maturing above 10 years accounted for 50.2 percent of the total debt outstanding (Table 5.3).

## External Sector Performance

### Current Account

In the quarter ending December 2022, current account deficit widened to USD 94.9 million, from a deficit of USD 68.4 million in the corresponding quarter in 2021. This was mainly associated with the increase in import bill (Table 5.4).

**Table 5.4: Current Account Balance**

### Exports

Exports of goods and services rose to USD 59.2 million during the quarter, from USD 51.7 million recorded in the corresponding quarter in 2021. Goods worth USD 30.3 million were exported during the quarter as compared with USD 18.4 million in the quarter ending December 2021, largely associated with the increase in exports of cloves and seaweeds. Cloves export increased to USD 24.2 million from USD 10.7 million, while seaweed exports rose to USD 1.8 million from USD 1.7 million (Table 5.5). During the review period, service receipts decreased by 13.1 percent to USD 28.9 million as compared to the same quarter in 2021.

**Table 5.5: Goods Export Performance**

Note: Other exports mainly include souvenirs and spices, p denoted provisional data; and "--", change that exceed 100 percent

## Imports

Imports of goods (f.o.b) and services rose to USD 159.4 million, as compared to USD 120.9 million recorded in the corresponding quarter in 2021, mainly due to increase in import of goods (Table 5.4). Goods imports rose to USD 134.9 million from USD 100.7 million, largely driven by intermediate goods, particularly refined white products (Table 5.6). Service payment during the period increased by 21.4 percent to USD

24.5 million, from the amount registered in a similar quarter in 2021, in line with increase in import.

## 7.0 GLOSSARY

---

### **Money supply**

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

### **Narrow money (M1)**

Consists of currency in circulation outside banking system plus demand deposits (cheque account).

### **Broad money (M2)**

Comprises of narrow money (M1) plus fixed-term and savings deposits of residents with banks in the country.

### **Extended broad money (M3)**

Consists of broad money (M2) plus foreign currency deposits of the residents with banks in the country.

### **Reserve money (M0)**

Also referred to as base money, the monetary base or high-powered money. This includes currency in circulation outside the banking system, cash held in the vaults of banks and deposits of banks kept with the Bank of Tanzania in national currency.

### **Currency in circulation outside banks**

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e. outside the Bank of Tanzania and banks.

### **Disbursed Outstanding Debt**

This is the amount of debt that has been disbursed but is yet to be paid back or forgiven.

### **Discount rate**

The rate of interest at which the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time to time depending on the liquidity situation in the market.

### **Exchange rate**

The price at which one unit of a currency can be purchased with another currency.

### **External debt stock**

The stock of a country's debt that is borrowed from foreign lenders through private commercial banks, foreign governments, or international financial institutions. It is the sum of public, publicly guaranteed, and private non-guaranteed long-term debt, use of IMF credit, and short-term debt (includes all debt having an original maturity of one year or less and interest in arrears on long-term debt).

### **Gross Official Reserves**

Gross official reserves consist of external assets that are readily available to and controlled by the Bank of Tanzania for direct financing of balance of payments, and for indirectly regulating the magnitude of balance of payments imbalances through intervention in foreign exchange markets. Gross official reserves comprise the Bank of Tanzania's holdings of monetary gold, special drawing rights (SDRs), reserve position in the International Monetary Fund, and foreign exchange resources, available to the Bank of Tanzania for meeting external financing needs.

### **Inflation**

The rate at which the average level of prices of a basket of selected goods and services in an economy is increasing over a period of time. It is often expressed as a percentage. Inflation indicates a decrease in the purchasing power of a nation's currency.

### **Food inflation**

This is a measure of the rate of change in price of food both processed and unprocessed food.

### **Non-food inflation**

This is a measure of price movements caused by factors other than food prices.

### **Core inflation**

This measures the rate of change in prices of goods and services other than energy, utilities and unprocessed food, over a specified period

of time. The unprocessed food items, energy and utilities are excluded since they are volatile and hence may be affected by non-monetary events, which do not constitute the underlying monetary inflation.

### **Interbank Cash Market**

A money market in which banks extend loans to one another for a specified term of not more than 90 days. Each transaction represents an agreement between the banks to exchange the agreed amounts of currency at the specified rate on a fixed date.

### **Overnight Interbank Cash Market**

The component of the money market involving the shortest-term loan. Lenders agree to lend borrowers funds only "overnight" i.e. the borrower must repay the borrowed funds plus interest at the start of business the next day.

### **Lombard facility**

An overnight loan facility available for banks to borrow from the Bank of Tanzania at their discretion, by pledging eligible government securities as collateral.

### **Lombard rate**

The interest rate that the Bank of Tanzania charges banks for borrowing through Lombard facility. This rate is computed based on the prevailing weighted average yield of 35-day Treasury bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

### **National Debt**

Total national debt obligations that include public debt and private sector external debt.

### **Public Debt**

Debt payable or guaranteed by the Government. Tanzania's public debt has two main components, domestic debt (which is incurred principally to finance fiscal deficit) and

external debt (which is raised primarily to finance development projects and comprises debt the Central Government owes to foreign creditors and external obligations of government departments and agencies that are guaranteed for repayment by the Central Government).

### **Repurchase agreement (repo)**

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date. Repo are initiated by Bank of Tanzania for mopping up excess liquidity in banks.

### **Reverse repo**

Simply the same as repurchase agreement from the buyer's viewpoint. It is an arrangement that involves buying securities at a specified price with a commitment to resale the same or similar securities at a fixed price on a specified future date. Reverse repo are initiated by Bank of Tanzania to inject liquidity into banks.

### **Transferable deposits**

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facilities without any kind of significant restriction or penalty.

### **Other deposits**

Include all claims reflecting evidence of deposits other than transferable deposits. Typical examples are saving and fixed-term deposits.

### **Weighted yields of Treasury bills**

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
