SUMMARY OF ECONOMIC DEVELOPMENTS

During the quarter ending June 2021, inflation remained low and within the country target range of 3-5 percent for 2020/21, and the regional benchmarks (SADC and EAC). Annual headline inflation rose slightly to 3.4 percent, from an average of 3.3 percent in the preceding quarter. The outturn was driven by an increase in food and fuel prices whose impact was moderated by subdued demand pressures. Meanwhile, core inflation, whose index accounts for the largest share in consumer price index, averaged 3.7 percent as in preceding quarter.

Inflation eased in the EAC region during the reviewed quarter relative to the quarter ending March 2021 and the corresponding quarter in 2020, averaging at 3.7 percent compared with 4.1 percent and 5.7 percent, respectively. The inflation rate remained below the EAC regional benchmark of not exceeding 8.0 percent. Moderate inflation was mainly driven by slowing food prices in Uganda coupled with a drop in transport prices in Rwanda. However, inflation in Kenya increased due to a rise in transport costs and food prices.

In SADC region, Angola, Malawi, Seychelles, Zambia, and Zimbabwe registered inflation rates that exceeded the convergence criteria of 3-7 percent. High inflation in Angola and Zambia stemmed from persistent currency depreciation, while Malawi and Seychelles experienced high food and energy prices.

The Bank of Tanzania continued with implementation of accommodative monetary policy stance to support economic activity through enhancing lending to private sector.

The extended broad money supply (M3) grew at an annual rate of 11.6 percent, while broad money supply grew at 10.4 percent. Private sector credit maintained a positive growth rate of 3.6 percent from 2.3 percent in March 2021, but was below 5.5 percent recorded in June 2020. The increase during the period was largely explained by repayment of loans extended to agricultural activities. Private sector credit is expected to increase in the future, in the wake of the recovery of global economic activity and the rolling out of measures to remove constraints to lending.

With respect to Government budgetary operations, the resource envelope consisting of revenue and grants was TZS 5,286.5 billion while government expenditure amounted to TZS 8,861.8 billion. Domestic revenue performed satisfactorily despite slowdown in global economic growth. Domestic revenue was TZS 5,107.9 billion, higher by 2.8 percent than the corresponding period in 2020, but was 81.9 percent of the target. Expenditure amounted to TZS 8,861.8 billion, of which recurrent expenditure was TZS 4,366.9 billion and development expenditure was TZS 4,494.9 billion.

The external sector has remained resilient and recorded a modest performance, amidst challenges associated with COVID-19. The overall balance of payments was a surplus of USD 193.4 million compared to a deficit of USD 238.3 million in the corresponding quarter in 2020, mainly on account of improvement in the financial account. However, the current account deficit widened to USD 718.3 million, from a

deficit of USD 201.8 million in the corresponding quarter in 2020, driven by a rise in imports of goods and services.

Foreign exchange reserves closed at USD 5,209.8 million at the end of June 2012, equivalent to 6.1 months of imports. The import cover was in line with the country's minimum benchmark of 4.0 months and the EAC and SADC convergence criteria of at least 4.5 months and 6 months, respectively.

In Zanzibar, inflation remained low at an average of 1.5 percent in the quarter ending June 2021, from 4.5 percent in the quarter ending June 2020. The slowdown was particularly driven by a decrease in prices of food. Food inflation declined to 0.8 percent from 7.7 percent in the corresponding quarter in 2020.

Resources envelope of the Revolutionary Government of Zanzibar was TZS 205.0 billion, comprising domestic revenue amounting to

TZS 197.4 billion, and TZS 7.6 billion was grants. Tax revenue amounted to TZS 176.6 billion, representing performance of about 85.1 percent of the target, while non-tax revenue was TZS 20.9 billion. Government expenditure was TZS 243.2 billion, of which recurrent expenditure TZS 188.5 billion and TZS 54.7 billion was expenditure on development projects.

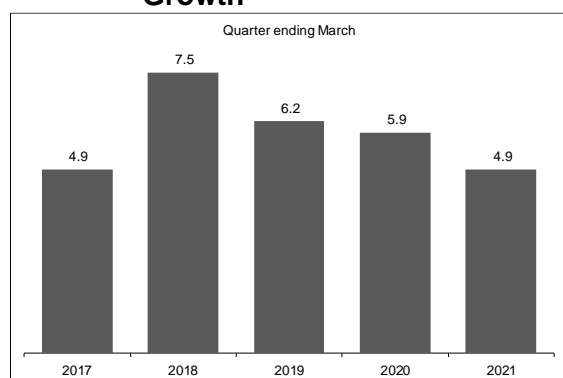

The current account deficit widened to USD 86.2 million during the quarter ending June 2021, from a surplus of USD 9.7 million in the corresponding quarter in 2020. However, the current account improved relative to the preceding quarter. During the quarter, exports of goods and services declined by 76.0 percent while imports increased by 55.4 percent higher from the value recorded in the quarter ending June 2020. The decline in exports was driven by low receipts from clove while increase in imports was mainly driven by oil imports and consumer goods.

1.0 OUTPUT AND PRICES

Gross Domestic Product

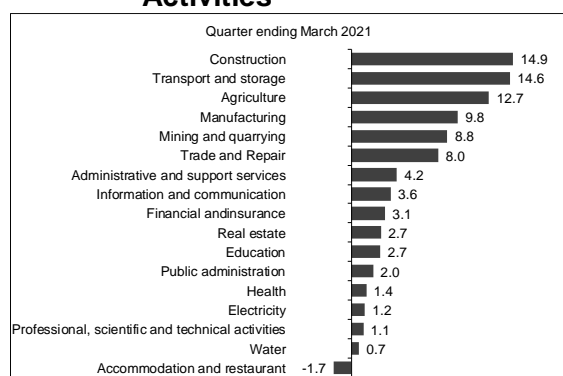

In the quarter ending March 2021, the economy grew at 4.9 percent compared with 5.9 percent in the corresponding quarter in 2020. Activities which mostly contributed to the growth were construction (14.9 percent), transport and storage (14.6 percent), agriculture (12.7 percent), manufacturing (9.8 percent) and mining and quarrying (8.8 percent). Accommodation and restaurant sub-group contributed negatively to growth ((-1.7 percent as it was heavily affected by COVID-19 pandemic (**Chart 1.1** and **Chart 1.2**).

Chart 1.1: Year-on-Year Real GDP Growth

Source: National Bureau of Statistics and Bank of Tanzania computations

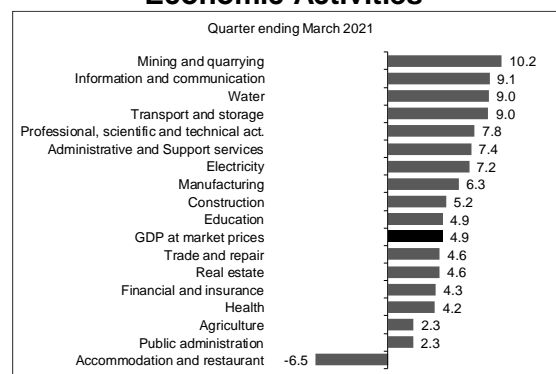

Chart 1.2: Contribution to Real GDP Growth by Major Economic Activities

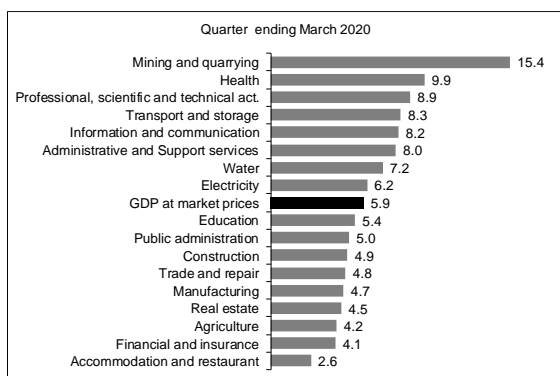

Source: National Bureau of Statistics and Bank of Tanzania computations

As for growth across activities, mining and quarrying recorded the highest growth of 10.2 percent attributed to an increase in production of gold, coal and gypsum. Information and communication grew by 9.1 percent due to increased use of airtime by mobile phone customers and the expansion of broadcasting and internet services in the country. Transport and storage grew by 9.0 percent due to increased number of passengers carried and freight handled. The improvement of water production infrastructure to match demand, was among the factors which contributed to the growth of water supply, at 9.0 percent (**Chart 1.3**).

Chart 1.3: Real GDP Growth by Major Economic Activities

Source: National Bureau of Statistics and Bank of Tanzania computations

Inflation

Annual headline inflation remained anchored within the country target range of 3-5 percent, averaging at 3.4 percent in the quarter ending June 2021, slightly higher than 3.3 percent in the previous quarter (**Table 1.1**). The slight increase was driven by increase in food and fuel prices. Food and non-alcoholic beverages inflation rose to an average of 4.8 percent from 3.6 percent recorded in the quarter ending March 2021, mainly driven by rise in prices of sunflower oil, fresh cassava and fresh fish.

Core inflation, whose index accounts for the largest share of 73.9 percent in consumer price index, remained stable at 3.7 percent as in the preceding quarter, on account of steady prices of health and education services. Energy, fuel, and utilities inflation rose to 2.5 percent in the quarter ending June 2021 from 1.4 percent in the preceding quarter, attributed to an increase in prices of fuel, following recovery of demand in the world market.

Headline inflation is projected to remain within the target of 3-5 percent for 2021/22, supported by adequate food supply, subdued demand

pressure for goods and services, stability of exchange rate and stable power supply.

Food Stocks

Food supply situation remained satisfactory in the country since the quarter ending September 2020 with amount of food held by the National Food Reserve Agency (NFRA) being over 100,000 tonnes. As at the end of June 2021, the stock of food held by the NFRA comprising maize grain, rice and sorghum was 107,384 tonnes (**Table 1.2**). During the quarter, the NFRA sold 1,847 tonnes to Ngorongoro Conservation Area Authority, Moshi, Hai and Missenyi districts as relief to floods affected people. No purchase was done during the period under review.

Wholesale Prices

During the quarter ending June 2021, wholesale prices of selected food crops continued to decline compared to the similar quarter in 2020 (Table 1.3). The decline in prices was associated with adequate food supply in the country following commencement of harvesting season and marketing of long-rains crops.

Table 1.3: Quarterly Average Wholesale Prices of Selected Food Crops

Fuel Prices

The average domestic pump prices of petroleum products have been rising moderately since June 2020, in line with the world market oil prices, attributable to the recovery of demand and control of supply by OPEC+¹ (Table 1.4). Petrol registered the

highest increase of 19.2 percent compared to other petroleum products.

Table 1.4: Average Domestic Fuel Prices

Production and Procurement of Major Commodities

Production of Gold and Diamond

Value of gold produced by large-scale miners slightly decreased to USD 469.0 million in the quarter ending June 2021 from USD 477.58 million in the similar quarter in 2020 (Table 1.5). The slowdown in the value of gold was attributed to decreasing price of gold in the world market following the enhancement of COVID-19 vaccine in most countries. There was no diamond production during the quarter, mainly due to temporary closure of diamond large-scale mine (Williamson Petra Diamonds mine) for maintenance.

Table 1.5: Production of Gold and Diamond

Mineral type	Unit and value	Quarter ending			Percentage change	
		Jun-20	Mar-21	Jun-21	Mar-20 to Jun-21	Jun-20 to Jun-21

¹OPEC plus consists of the 13 OPEC members and 10 of the world's major non-OPEC oil-exporting countries which

are Azerbaijan, Bahrain, Brunei, Kazakhstan, Malaysia, Mexico, Oman, Russia, South Sudan and Sudan.

Procurement of Traditional Export Crops

The volume of tobacco procured by the Tobacco Board improved significantly during the quarter ending June 2021 compared with the corresponding quarter in 2020, due to vast procurement in the period under review. The increase in procurement of tobacco was mainly attributed to restoration of roads in tobacco growing areas following the effect of heavy rainfalls.

Volume of cotton lint procured also increased to 8,182.8 tonnes in the quarter ending June 2021 from 923.4 tonnes procured in the corresponding quarter in 2020 attributed to good weather condition in many cotton growing areas and timely distribution of agricultural inputs to farmers. Tea procured decreased attributed to effects of COVID-19 (Table 1.6).

2.0 MONETARY AND FINANCIAL MARKETS DEVELOPMENTS

Money Supply and Credit

During the quarter ending June 2021, the thrust of monetary policy was geared towards sustaining adequate level of liquidity among banks in support of recovery of credit intermediation amid challenges associated with COVID-19 on businesses and investment. As a result, extended broad money supply (M3) grew by 11.6 percent in the quarter ending June 2021, compared with 6.8 percent and 9.5 percent in March 2021 and June 2020, respectively (**Chart 2.1**, **Table 2.1** and **Chart 2.2**). This development was on account of increase in holding of foreign assets and domestic credit by the banking system. Meanwhile, broad money supply (M2) grew by 10.4 percent compared with 9.3 percent in March 2021 and 10.5 percent in June 2020.

Note: "----" denotes a change that exceeds 100 percent

Chart 2.2: Annual Change in Major Components of Money Supply

Source: Bank of Tanzania and banks

Domestic credit extended to both private sector and central government grew by 9.8 percent, slightly below 10.6 percent registered in the preceding quarter, but higher than 2.5 percent registered in June 2020. Private sector credit maintained a positive growth rate of 3.6 percent up from 2.3 percent in March 2021, but below 5.5 percent recorded in June 2020 (**Chart 2.3**). The increase in private sector credit was largely explained by repayment of loans extended to agricultural activities, while the decline relative to the corresponding period a year earlier was attributable to subdued

demand for new loans occasioned by adverse effects of COVID-19 on businesses and investment. Demand for loans is expected to increase owing to measures implemented to improve business environment, normalization of global economy, and measures adopted by the Bank to increase liquidity and reduce lending rates.

Chart 2.3: Credit to Private Sector by Banks

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

During the quarter ending June 2021, much of the credit was extended to micro, small and medium enterprises (commonly referred to as personal loans), while credit to other activities remained subdued (**Chart 2.4**). In terms of share, personal loans continued to account for the largest portion of total outstanding credit, followed by trade, manufacturing, and agriculture (**Chart 2.5**).

Chart 2.4: Annual Growth of Banks' Credit to Selected Economic Activities

Interest Rates

Interest rates charged by banks on loans and those offered on deposits remained broadly unchanged in the quarter ending June 2021, with the overall lending interest rate averaging 16.63 percent, compared with 16.70 percent in the quarter ending June 2020. The one-year lending rate averaged 16.32 percent from 16.18 percent in June 2020. Overall and one-year time deposit interest rates averaged 6.96 percent and 8.74 percent compared to 6.75 percent and 8.04 percent, respectively. Negotiated lending rates to prime customers rose to 15.85 percent from 14.17 percent in June 2020, while negotiated deposit rate stabilized around 9 percent (Table 2.2).

Table 2.2: Selected Banks' Interest Rates (Quarterly Average)

Item	Percent

Source: Banks and Bank of Tanzania

The Bank of Tanzania has rolled out additional measures to create conditions for not only reducing lending rates, but also boosting growth of credit to support economic growth. These comprise:

- (i) Reduction of statutory minimum reserve requirement (SMR) to a bank that extends credit to agriculture at interest rate not exceeding 10 percent per annum in order to increase lending to agriculture, which is the mainstay of Tanzanians.

- (ii) Removal of at least 18 months business experience requirement for applicant of agent banking business to increase loanable funds to banks through deposit mobilization.
- (iii) Limitation of interest rate paid on mobile money trust accounts to interest rate not exceeding the rate offered on savings deposit account by the respective bank to lower cost of funds to banks.
- (iv) Introduction of special fund amounting to TZS 1.0 trillion to increase liquidity to banks and other financial institutions for on-lending to private sector at an interest rate not exceeding 10 percent.
- (v) Reduction of risk weights on different categories of loans in computation of regulatory capital requirement to provide opportunity to banks to extend more credit to the private sector than before.

Financial Markets

Financial market was adequately supplied with liquidity consistent with monetary policy stance pursued during the quarter ending June 2021. The adequacy of liquidity was reflected in maintenance of money market interest rates at single digit level.

During the quarter ending June 2021, the Bank of Tanzania offered Treasury bills worth TZS 463.3 billion, mainly for government budget financing and financial markets development. In line with adequate supply of liquidity in the banking system, the auctions recorded high subscription with bids received amounting to

TZS 949.3 billion, of which TZS 486.1 billion were successful. Weighted average yield was 5.58 percent, compared to 5.43 percent that was registered in the preceding quarter and 4.16 percent in the corresponding quarter of 2020 (**Chart 2.6**).

Chart 2.6: Treasury Bills Market Performance

Source: Bank of Tanzania
 Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank of Tanzania offered Treasury bonds of 5-, 7-, 15-, 20- and 25-year maturity worth TZS 589.3 billion in the quarter ending June 2021, for debt management and financing of the government budget. The auctions were oversubscribed consistent with investors preference for long-term debt instruments amidst challenges in other investment avenues due to risks associated with the pandemic. Total bids received amounted to TZS 1,086.5 billion, of which TZS 736.0 billion were successful. The general oversubscription in the securities market led to softening of weighted average yield to maturity across all tenures compared with the quarter ending June 2020.

The interbank cash market (IBCM) remained active in supporting exchange of shilling liquidity among banks. Total market transactions

amounted to TZS 3,591.7 billion, compared with TZS 3,401.4 billion traded in the corresponding quarter of 2020. The market was dominated by 2-, 7-days placements, accounting for 71 percent of total transactions. Consistent with adequate liquidity in the market, the overall and overnight IBCM interest rates eased to an average of 4.56 percent and 3.77 percent from 5.12 percent and 4.45 percent recorded in the corresponding quarter of 2020, respectively (**Chart 2.7**).

Chart 2.7: Inter- bank Cash Market Transactions

Source: Bank of Tanzania
 Note: LHS denotes left hand scale; and RHS, right hand scale

Reverse repurchase agreements (reverse repo), remained the main policy instrument during the quarter to fine-tune liquidity in line with monetary policy stance and demands of various economic activities. During the quarter ending June 2021, the Bank of Tanzania auctioned reverse repo worth TZS 805.3 billion compared with TZS 1,215.9 billion in the preceding quarter. Reverse repo interest rate averaged 5.93 remaining almost unchanged from the rate recorded in the preceding quarter, but slightly above 5.63 percent recorded in the corresponding quarter of 2020 (**Chart 2.8**).

Transactions in the interbank foreign exchange market (IFEM) amounted to USD 65.1 million in the quarter ending June 2021, compared with USD 80.3 million traded in the previous quarter (**Chart 2.9**). The Bank of Tanzania maintained its presence in the market mainly to support demand for foreign exchange for imports and ensuring an orderly foreign exchange market. The Bank sold USD 24 million on net terms compared with USD 4 million in the preceding quarter. The shilling remained stable against the US dollar, trading at an average of TZS 2,310.03 per USD compared with TZS 2,309.90 per USD in the preceding quarter. On annual basis, the shilling sustained marginal depreciation of 0.29 percent from TZS 2,303.43 per USD in the quarter ending June 2020.

3.0 PUBLIC FINANCE

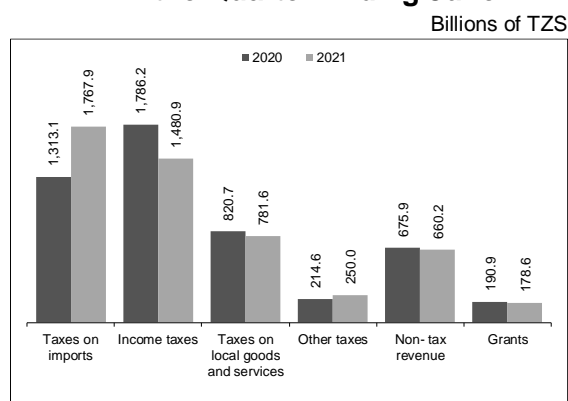

Government Budgetary Operations

During the quarter ending June 2021, the resource envelope, consisting of domestic revenue and grants, amounted to TZS 5,286.5 billion while government expenditure amounted to TZS 8,861.8 billion.

Revenue and Grants

Domestic revenue performance for the quarter ending June 2021 was TZS 5,107.9 billion which is 81.9 percent of the target and an increase of 2.8 percent from the corresponding quarter in 2020. Despite global slowdown in economic growth, tax collection amounted to TZS 4,280.4 billion, an increase of 3.5 percent from the corresponding quarter in 2020. Local government collections from own sources amounted to TZS 167.2 billion, an increase of 4.2 percent from the corresponding quarter in 2020 (Chart 3.1).

Chart 3.1: Government Resources for the Quarter Ending June

Source: Ministry of Finance and Planning

Expenditure

During the quarter ending June 2021, government expenditure amounted to TZS 8,861.8 billion, of which recurrent expenditure was TZS 4,366.9 billion and development expenditure was TZS 4,494.9 billion. Locally financed development expenditure was 79.4 percent of total development expenditure with the remainder being foreign financed development expenditure (Chart 3.2).

Chart 3.2: Government Expenditure for the Quarter Ending June

Source: Ministry of Finance and Planning

National Debt

The stock of external debt stood at USD 25,537.5 million at the end of June 2021, an increase of USD 1,137.8 million and USD 2,584.8 million from the stock at the end of the preceding quarter and corresponding quarter in 2020, respectively. The increase during the quarter was on account of new disbursements, particularly the funds received by the Government for financing flagship development projects. The disbursed outstanding debt

accounted for 91.2 percent of the external debt stock and the balance was interest arrears.

The Central Government continued to be the largest borrower of external debt during the quarter ending June 2021, with the share of 77.2 percent of the total. The external debt by the Central Government increased by USD 867.1 million to USD 19,721.3 million from the level registered at the end of the preceding quarter (**Table 3.1**).

Note: DOD denotes disbursed outstanding debt; r, revised data; and p, provisional data

External debt disbursements received during the quarter amounted to USD 1,183.9 million, out of which the Central Government received USD 1,179.3 million and the balance went to the private sector. Debt service amounted to USD 639.5 million (equivalent to 43.9 percent of exports of goods and services), being principal repayment of USD 388.7 million and interest payment of USD 250.8 million.

At the end of June 2021, domestic debt stock amounted to TZS 18,934.3 billion, which is an increase of TZS 2,817.8 billion from the end of the preceding quarter, on account of more utilization of short-term facilities particularly overdraft facility. Borrowing through Treasury bonds increased by TZS 455.7 billion during the quarter. On annual basis, domestic debt stock increased by TZS 3,418.6 billion. Long-term instruments (Treasury bonds and stocks) continued to constitute the largest share of the debt, accounting for 78.2 percent of government domestic debt, whereas Treasury bills accounted for 9.4 percent (**Table 3.3**).

During the quarter, the Central Government raised TZS 1,353.1 billion from domestic debt market, comprising Treasury bills worth TZS 540.7 billion and Treasury bonds amounting to TZS 812.4 billion. Domestic debt service for the quarter under review, excluding liquidity papers and overdraft payments, amounted to TZS 996.1 billion. Out of the debt that fell due, principal amount of TZS 577.7 billion was rolled over and interest amounting to TZS 418.4 billion was paid out.

4.0 EXTERNAL SECTOR PERFORMANCE

The external sector has remained resilient and recorded a modest performance, amidst challenges associated with COVID-19. During the quarter ending June 2021, the overall balance of payments recorded a surplus of USD 193.4 million compared to a deficit of USD 238.3 million in the corresponding quarter in 2020, owing to improvement in the financial flows. Meanwhile, the current account deficit widened to USD 718.3 million, from a deficit of USD 201.8 million in the corresponding quarter of 2020, driven by rise in imports of goods and services (Table 4.1).

Foreign exchange reserves remained adequate, amounting to USD 5,209.8 million at the end of June 2021 compared with USD 5,184.7 million in the corresponding quarter of 2020. The reserves were equivalent to about 6.1 months of imports of goods and services, within the national and regional benchmarks of a minimum of 4 months, 4.5 months, and 6 months for national, EAC and SADC, respectively.

Goods Account

During the quarter ending June 2021, the value of goods exports increased by 4.5 percent to USD 1,523.3 million from the corresponding quarter in 2020. This development was driven by good performance of non-traditional exports particularly gold and manufactured goods. Traditional exports value declined to USD 46.1 million from USD 59.2 million, with notable decline registered in exports of coffee and tobacco. The value of goods imports increased significantly to USD 2,394.0 million during the quarter ending June 2021, from USD 1,635.3 million in quarter ending June 2020. All categories of goods import increased, particularly oil and other consumer goods.

Services and Income Accounts

Services account recorded a surplus of USD 250.2 million in the quarter ending June 2021, from a surplus of USD 81.1 million during the corresponding quarter in 2020, largely driven by increase in travel and transportation receipts. The number of international visitors was 145,165 compared with 22,305 in the quarter ending June 2020, reflecting gradual recovery of tourism activities. Primary income account recorded a deficit of USD 213.4 million compared with a deficit of 203.1 million in the quarter ending June 2020. Secondary income account registered a surplus of USD 115.6 million compared with surplus of USD 98.1 million recorded in the corresponding period in 2020, owing to increase in inflows from private sector (Table 4.3).

World Commodity Prices

In the quarter ending June 2021, prices of all selected commodities increased compared with the preceding quarter (Table 4.4). Prices of crude oil and white petroleum products surged due to growing demand outpacing current production as many economies reopened and resumed most of the economic activities. Gold prices rose on account of the combined effect of a weakening US dollar and low US treasury yields. The price of coffee increased over concerns about decline in supply in major producing countries, whereas maize prices increased as a result of high demand stemming from fears of food insecurity especially in sub-Saharan Africa, Latin America and South Asia.

Table 4.4: World Commodity Prices

5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

Gross Domestic Product

During the quarter ending December 2020, Zanzibar economy grew by 1.6 percent compared to a growth of 10.8 percent in the corresponding quarter in 2019 and a growth of 3.3 percent recorded in the preceding quarter in 2020 (**Chart 5.1**). This performance was largely driven by decline in economic activities such as accommodation and food services; transport and storage; as well as information and communication (**Chart 5.2a** and **Chart 5.2b**). Contribution of accommodation and food services to real output growth declined to 1.6 percent compared with 2.1 percent in the corresponding period in 2019, occasioned by the outbreak of COVID-19 pandemic, which led to decline in tourism activities. Nonetheless, the economy is expected to recover in 2021, owing to resumption of activities in the hospitality industry.

Procurement of Cloves and Seaweeds

During the quarter under review, there was no procurement of cloves following low production and a decline in global demand occasioned by the impact of COVID-19 pandemic, which led to a significant decrease in price of cloves in the world market. As for seaweeds, 2,506.9 tonnes were procured, higher than 2,381.6 tonnes procured in the corresponding period in 2020 (Chart 5.3).

Chart 5.3: Procurement of Cloves and Seaweeds

Inflation

Twelve-month headline inflation for the quarter ending June 2021 averaged 1.5 percent compared with 0.9 percent and 4.5 percent in the preceding quarter and corresponding quarter in 2020, respectively (Table 5.1). The decrease was mainly associated with fall in food inflation, particularly maize flour, Mbeya rice and green cooking bananas. The inflation outturn was within the 2020/21 target range of 3-5 percent and below 8 percent for the EAC and SADC convergence benchmarks, respectively.

Public Finance

Government Budgetary Operations

Overall fiscal performance registered some improvements, on account of increase in tourism-related activities and improvement in revenue administration, particularly at Zanzibar ports. During the quarter ending June 2021, government resources, which include domestic revenue and grants amounted to 205.0 billion. Domestic revenue was TZS 197.4 billion, accounting for 84.1 percent of the target, while grants were TZS 7.6 billion (**Chart 5.4**). Tax revenue was TZS 176.6 billion, accounting for 85.1 percent of the target, while non-tax revenue was TZS 20.9 billion, below the target by 23.3 percent.

Chart 5.4: Government Resources for the Quarters Ending June

Source: President's Office, Finance and Planning, Zanzibar

During the quarter, government expenditure amounted to TZS 243.2 billion, of which recurrent expenditure was TZS 188.5 billion, 74.8 percent of the estimates. Development expenditure was TZS 54.7 billion, 72.9 percent of the estimates (**Chart 5.5**). Financing of development projects from local sources was TZS 29.0 billion, while TZS 25.7 billion was from

foreign sources. Deficit after grants and adjustment to cash and other items amounted to TZS 22.4 billion, which was financed by program loans and domestic borrowing.

Chart 5.5: Government Expenditure for the Quarters Ending June

Source: President's Office, Finance and Planning, Zanzibar

Debt Developments

Debt stock increased to TZS 887.0 billion in the quarter ending June 2021 from TZS 824.5 billion recorded at the end of the similar period in 2020. The increase was largely explained by new borrowing. Out of the debt stock, external debt was TZS 692.9 billion equivalent to USD 301.4 million and the balance was domestic debt. Debt from multilateral and bilateral institutions accounted for 89.4 percent and the balance was export credit and commercial loans. As for maturity profile, debt maturing above 20 years accounted for 55.2 percent (**Table 5.2**).

Table 5.2: External Debt by Maturity

Maturity	Millions of USD					
	Quarter ending			Percentage share Jun-2021	Percentage change Mar 20 to Jun-20 to Jun-21

External debt	290.8	299.6	301.4	100.0	0.6	3.7

Source: President's Office, Finance and Planning, Zanzibar

Note: p denotes provisional data

Domestic debt stock was TZS 194.1 billion at the end of the quarter, rising by 23.8 percent from the level recorded at the end of the corresponding quarter in 2020. The increase was explained by new loans from Government securities and disbursements from Zanzibar Social Security Fund (ZSSF). The structure of domestic debt was dominated by Treasury bonds at 71.9 percent. However, maturity profile of the debt was dominated by debt maturing between 1 and 10 years which account for 73.1 percent (Table 5.4).

External Sector Performance

Current Account

The current account registered a deficit of USD 86.2 million, compared to a surplus of USD 9.7 million recorded in the corresponding quarter in 2020 but improved relative to the preceding quarter at USD 101.4 million. During the quarter, exports of goods and services declined by 76.0

percent while imports increased by 55.4 percent higher from the value recorded in the quarter ending June 2020. The decline in exports was driven by low receipts from clove while increase in imports was mainly driven by oil imports and consumer goods (Table 5.6).

Exports

Exports of goods and services amounted to USD 9.5 million, a decline of 76.0 percent from the amount recorded during the similar quarter in 2020. The value of goods' exports was USD 3.2 million, lower than USD 4.1 million recorded in quarter ending June 2020 with the performance explained by decline in exports of cloves. The value of export of cloves was USD 6,000 compared to USD 800,000 recorded in the corresponding period in 2020 (Table 5.7). Services receipts decreased by 82.4 percent while payments increased by 39.5 percent as compared to corresponding quarter in 2020.

6.0 REGIONAL ECONOMIC DEVELOPMENTS

Inflation moderated in the EAC region during the quarter ending June 2021 compared with the preceding quarter. Inflation averaged 3.7 percent and remained within the convergence criteria of not more than 8.0 percent, and below the average inflation in the corresponding period of 2020 (**Table 6.1**). The moderate inflation was mainly driven by slowing food prices in Uganda coupled with a drop in transport prices in Rwanda. However, inflation in Kenya increased due to a rise in cost of transport and food prices. In SADC countries, inflation remained within the convergence criteria of 3-7 percent, with the exception of Zimbabwe, Angola, Malawi, Zambia, and Seychelles (**Table 6.1**). Notably, inflation in Angola and Zambia was high due to persistent currency depreciation, that also contributed to worsening of current account deficit and high debt levels. Inflation in Seychelles and Malawi was mainly driven by high food and energy prices.

8.0 GLOSSARY

Money supply

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

Narrow money (M1)

Consists of currency in circulation outside banking system plus demand deposits (cheque account).

Broad money (M2)

Comprises of narrow money (M1) plus fixed-term and savings deposits of residents with banks in the country.

Extended broad money (M3)

Consists of broad money (M2) plus foreign currency deposits of the residents with banks in the country.

Reserve money (M0)

Also referred as base money, or the monetary base or high-powered money. This includes currency in circulation outside the banking system, cash held in the vaults of banks and deposits of banks kept with the Bank of Tanzania in national currency.

Currency in circulation outside banks

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e. outside the Bank of Tanzania and banks.

Disbursed Outstanding Debt

This is the amount of debt that has been disbursed but yet to be paid back or forgiven.

Discount rate

The rate of interest at which the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time

to time depending on the liquidity situation in the market.

Exchange rate

The price at which one unit of a currency can be purchased with another currency.

External debt stock

The stock of a country's debt that is borrowed from foreign lenders through private commercial banks, foreign governments, or international financial institutions. It is the sum of public, publicly guaranteed, and private non-guaranteed long-term debt, use of IMF credit, and short-term debt (includes all debt having an original maturity of one year or less and interest in arrears on long-term debt).

Gross Official Reserves

Gross official reserves consist of external assets that are readily available to, and controlled by the Bank of Tanzania for direct financing of balance of payments, and for indirectly regulating the magnitude of balance of payments imbalances through intervention in foreign exchange markets. Gross official reserves comprise the Bank of Tanzania's holdings of monetary gold, special drawing rights (SDRs), reserve position in the International Monetary Fund, and foreign exchange resources, available to the Bank of Tanzania for meeting external financing needs.

Inflation

The rate at which the average level of prices of a basket of selected goods and services in an economy is increasing over a period of time. It is often expressed as a percentage. Inflation indicates a decrease in the purchasing power of a nation's currency.

Food inflation

This is a measure of the rate of change of price of food both processed and unprocessed food.

Non-food inflation

This is a measure of price movements caused by factors other than food prices.

Core inflation

This measures the rate of change in prices of goods and services other than energy, utilities and unprocessed food, over a specified period of time. The unprocessed food items, energy and utilities are excluded since they are volatile and hence may be affected by non-monetary events, which do not constitute the underlying monetary inflation.

Interbank Cash Market

A money market in which banks extend loans to one another for a specified term of not more than 90 days. Each transaction represents an agreement between the banks to exchange the agreed amounts of currency at the specified rate on a fixed date.

Overnight Interbank Cash Market

The component of the money market involving the shortest term loan. Lenders agree to lend borrowers funds only "overnight" i.e. the borrower must repay the borrowed funds plus interest at the start of business the next day.

Lombard facility

An overnight loan facility available for banks to borrow from the Bank of Tanzania at their own discretion, by pledging eligible government securities as collateral.

Lombard rate

The interest rate that the Bank of Tanzania charges bank for borrowing through Lombard facility. This rate is computed basing on the prevailing weighted average yield of 35-day Treasury bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

National Debt

Total national debt obligations that include public debt and private sector external debt.

Public Debt

Debt payable or guaranteed by the Government. Tanzania's public debt has two main components, domestic debt (which is incurred principally to finance fiscal deficit) and external debt (which is raised primarily to finance development projects and comprises of debt the Central Government owes to foreign creditors and external obligations of government departments and agencies that are guaranteed for repayment by the Central Government).

Repurchase agreement (repo)

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date. Repo are initiated by Bank of Tanzania for mopping up excess liquidity in banks.

Reverse repo

Simply the same as repurchase agreement from the buyer's viewpoint. It is an arrangement that involves buying of securities at a specified price with commitment to resale the same or similar securities at a fixed price on a specified future date. Reverse repo are initiated by Bank of Tanzania to inject liquidity in banks.

Transferable deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Other deposits

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving and fixed-term deposits.

Weighted yields of Treasury bills

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
