BOARD OF DIRECTORS

Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration and Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Stability and Financial Deepening (FSD)
Mr. Bedason A. Shallanda	Representative from Ministry of Finance (MoF)
Mr. Khamis M. Omar	Principal Secretary to the Treasury (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Kilagane	Director
Mr. Yusto E. Tongola	Secretary to the Board

SUMMARY OF ECONOMIC DEVELOPMENTS

The **real Gross Domestic Product (GDP)** at 2001 prices for Mainland Tanzania grew by 6.5 percent during the quarter ending September 2013, compared to a growth of 7.2 percent recorded in the corresponding period in 2012. The decline in real GDP growth is mainly explained by slowdown in growth of manufacturing activities. Average annual headline inflation eased to 6.0 percent during the quarter ending December 2013, from 6.8 percent recorded in the preceding quarter mainly due to a slowdown in prices of some items under food and non-food groups.

Extended broad money supply (M3) recorded an annual growth rate of 10.0 percent compared to 12.5 percent recorded in the year ending December 2012. This development is explained by a slowdown in the growth of net domestic assets of the banking system. During the quarter, banks' lending and deposit rates exhibited a general upward trend when compared to the rates recorded in the corresponding period in 2012. The spread between the 12-month deposit rate and the 1-year lending rate narrowed to 2.45 percentage points from 3.35 percentage points recorded in the quarter ending December 2012. Annual growth rate of **credit to the non-government sector** declined to 15.3 percent in December 2013 from 18.2 percent recorded in corresponding period in 2012.

Government budgetary operations (on cheque issued basis) were characterized by good domestic revenue collection coupled with moderate expenditure. Domestic revenue collections were sufficient to cover recurrent expenditure for the quarter ending December 2013 by 96.7 percent. **Total external debt stock** increased by 3.5 percent to USD 13,195.7 million from the level recorded at the end of September 2013 mainly on account of new disbursements and accumulation of interest arrears. Meanwhile, domestic debt stock decreased by 1.6 percent to TZS 6,048.6 billion following large maturing obligations compared to new issuance.

During the quarter ending December 2013, the **current account** recorded a deficit of USD 869.2 million compared to a deficit of USD 958.0 million recorded in the corresponding quarter in 2012 on account of a decline in official current transfers. The USD was exchanged at an average of TZS 1,609.0 compared to TZS 1,618.5 recorded in the quarter ending September 2013.

In Zanzibar, **average headline inflation** accelerated to 5.2 percent from 3.9 percent recorded in the quarter ending December 2012, largely due to increases in the prices of some items under food, and communications and education sub-groups. **Government budgetary operations** recorded good performance

with tax revenue be within the target for the quarter. Development expenditure was below the period estimates by 7.1 percent on account of delays in disbursement of project funds by Development Partners and Government. The **current account** position improved, recording a deficit of USD 1.4 million compared with a deficit of USD 10.7 million recorded in the quarter ending December 2012, mainly on account of an increase in income receipts and official current transfers.

In the **East African Community** region, headline inflation declined to an average of 6.8 percent during the quarter ending December 2013, from 7.1 percent recorded in the preceding quarter. This development was mainly due to easing of prices of some food items, water, electricity, gas and fuel as well as costs of housing and transport. In the **Southern African Development Community** region, the average headline inflation was 6.1 percent compared to 6.7 percent recorded in the quarter ending September 2013.

1.0 OUTPUT AND PRICES

Overall Economic Performance

Real GDP at market prices is estimated to have grown by 6.5 percent in the third quarter of 2013, compared to a growth of 7.2 percent recorded in the corresponding quarter in 2012. This outturn was mainly on account of growth deceleration recorded in manufacturing activities. Activities which recorded higher growth

rates than the ones recorded in the third quarter of 2012 include agriculture, fishing, mining and quarrying, construction, wholesale and retail trade, transport and communication, real estate and business services, and financial intermediation (**Table 1.1**).

Table 1.1: Quarterly Growth of Gross Domestic Product by Activity at 2001 Constant Prices

Activity	Quarter Ending							<i>Tonnes</i>
	Mar-12	Jun-12	Sep-12	Dec-12	Mar-13	Jun-13	Sep-13

Taxes on products	7.3	6.2	6.7	7.5	7.6	6.8	6.6	
GDP at market prices	7.3	6.2	7.2	7.0	7.5	6.7	6.5	

Note: Q = Quarter

Source: National Bureau of Statistics

Highest growth rate was recorded in transport and communication, and financial intermediation each growing at 11.6 percent, followed by mining and quarrying (10.4 percent), construction (7.3 percent) and agriculture (6.1 percent). The growth in financial intermediation

is mainly explained by the rise in levels of deposits and lending by banks, and insurance premium. Meanwhile, observed growth in transport and communication activities was on account of an increase in volume of cargo handled, number of passengers transported and mobile phone

airtime usage. Growth in construction is associated with increased construction of buildings and roads, while that of mining is attributed to increased production of gold and Tanzanite. Increase in food crops production particularly maize, rice, sorghum and millet largely explained growth recorded in agricultural activities.

Sectoral Performance

Procurement of Traditional Export Crops

During the quarter ending December

2013, procurement of major traditional export crops increased to 184,456.8 tonnes from 125,746.3 tonnes recorded in corresponding period in 2012 on account of rise in procurement of sisal and cashew nuts (**Table 1.2**). Procurement of sisal and cashew nuts increased during the quarter following high global demand and improved weather condition, respectively. Meanwhile, procurement of cotton declined on account of inadequate supply of inputs, bad weather condition and low farm gate prices offered.

Table 1.2: Procurement of Traditional Export Crops

	October - December		Tonnes
	2012	2013	% Change
Tobacco	off season	off season	
Cashew nuts	51,005.1	105,365.2	106.6
Coffee	31,073.9	35,158.0	13.1
Cotton lint	23,308.4	17,588.8	-24.5
Sisal	10,548.4	16,752.3	58.8
Tea	9,810.5	9,592.5	-2.2
Total	125,746.3	184,456.8	46.7

Source: Respective Crops Boards

Production of Gold and Diamond

During the quarter ending December 2013, the value of gold produced declined to USD 407.3 million, from USD 520.0 million realized in the corresponding quarter in 2012 due to decline in unit price in the world market. Production

of gold by large scale miners declined to 9,845.5 kilograms, from 9,850.1 kilograms recorded in the quarter ending December 2012. Production of diamond also declined during the review period (**Table 1.3**).

Table 1.3: Production of Gold and Diamond

Food Supply Situation

Food supply situation in the country remained satisfactory with some pockets of food shortages reported. During the quarter under review, the **National Food Reserve Agency (NFRA)** purchased 14,013.1 tonnes of maize and sorghum and sold 5,248.8 tonnes to Prison

Department and Disaster Coordination Unit under the Prime Minister's office. The stock of maize and sorghum held by NFRA increased to 233,552.5 tonnes at the end of December 2013, from 89,951.0 tonnes recorded in corresponding period in 2012 (**Table 1.4**).

Source: National Food Reserve Agency

During the quarter ending December 2013, wholesale prices for all selected food crops, with exception of sorghum and beans, declined when compared

with those recorded in the corresponding quarter in 2012 mainly due to higher seasonal crop harvests (**Table 1.5**).

Table 1.5: National Average Wholesale Prices for Selected Food Crops

Source: Ministry of Industry, Trade and Marketing

Inflation Developments

Headline inflation eased to an average of 6.0 percent in the quarter ending December 2013, from 12.4 percent recorded in the corresponding quarter in 2012. This development was mainly on account of gradual slowdown in food prices following improved food supply in the country and eastern Africa

region. Average quarterly food and non-alcoholic beverages inflation decelerated to 6.7 percent, from 13.8 percent recorded in the quarter ending December 2012. Likewise, non-food inflation declined to 5.8 percent, from an average of 10.2 percent registered in the quarter ending December 2012 (**Chart 1.1**).

Chart 1.1: Annual Headline, Food and Non-food Inflation

Source: National Bureau of Statistics and Bank of Tanzania.

With the exception of alcoholic and tobacco, and communication, all other CPI categories registered lower inflation

rates compared to the corresponding quarter in 2012 (**Table 1.6**).

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money and Credit

During the year ending December 2013, **extended broad money supply (M3)** grew by 10.0 percent compared with 12.5 percent recorded in the corresponding period in 2012. This development was on account of slowdown in the growth of net domestic assets of the banking system. Net claims on the government grew by 26.5 percent compared to 37.3 percent recorded in the year ending

in December 2012, while credit to the private sector grew by 15.3 percent from 18.2 percent. Net foreign assets (NFA) of the banking system recorded annual growth of 2.8 percent in December 2013 compared to 2.0 percent recorded in the corresponding period in 2012 following increase in NFA of the Bank of Tanzania (**Chart 2.1 and Table 2.1**).

Interest Rates Developments

During the quarter ending December 2013, interest rates offered and charged by commercial banks recorded a general upward trend, except for short-term lending rate and rates charged to prime customers. Overall deposit rate averaged 8.63 percent compared to 8.50 percent and 8.86 percent recorded in the quarters ending December 2012 and September 2013, respectively. Likewise, 12-month deposit rate increased to an average of 11.42 percent from 10.91 percent recorded in the quarter ending December 2012 but was lower than the rate recorded in the quarter ending September 2013 by 26 basis points.

Average overall lending rate during the quarter ending December 2013 was 16.05 percent, higher than the rates recorded in the corresponding quarter in 2012 and the preceding quarter by 6 basis points and 37 basis points, respectively. One-year lending rate averaged 13.87 percent compared with 14.26 percent and 13.71 percent recorded in the quarters ending December 2012 and September 2013, respectively. The spread between the 12-month deposit rate and one-year lending rate narrowed to 2.45 percent from 3.35 percent recorded in quarter ending December 2012 (**Table 2.2**).

Financial Market Operations

In the quarter ending December 2013, the Bank offered **Treasury bills** worth TZS 1,075.0 billion compared to TZS 995.0 billion offered in the preceding quarter. Demand amounted to TZS 1,162.8 billion and the Bank accepted bids worth

TZS 754.9 billion. Overall Weighted Average Yield (WAY) increased to an average of 14.92 percent from 14.61 percent recorded in the preceding quarter (**Chart 2.4**).

Chart 2.4: Treasury bills Market Performance

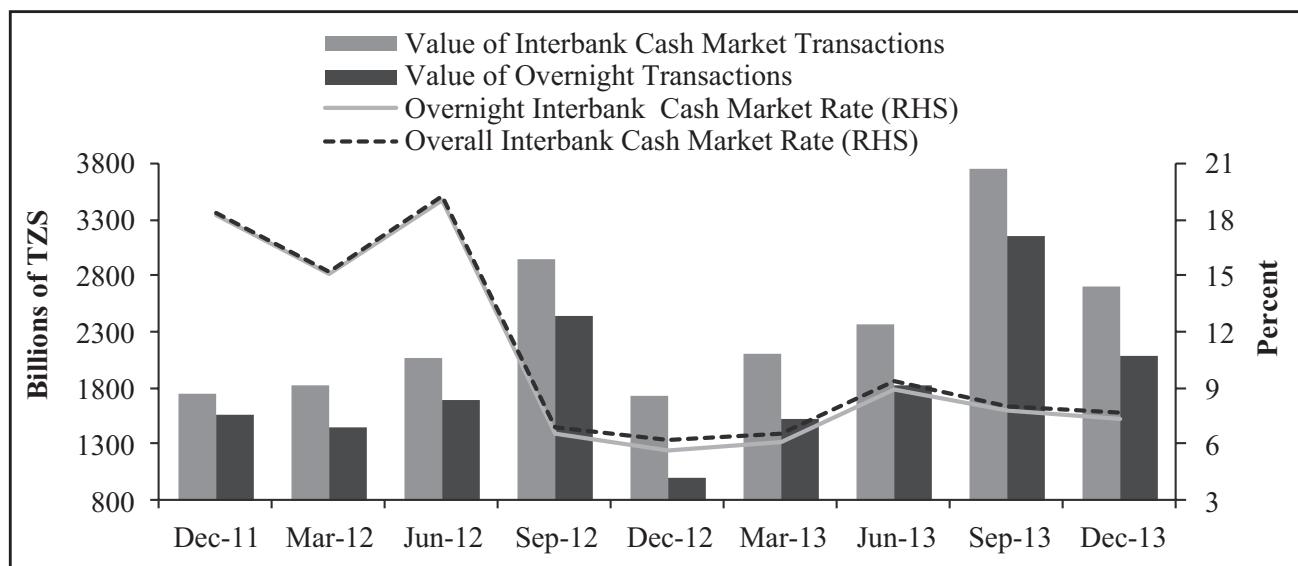

Source: Bank of Tanzania

In an effort to increase the number of instruments used in the financial market while maintaining smooth redemption profile, the Bank of Tanzania on behalf of the Government launched a 15-year **Treasury bond** during the quarter under review. The Bank offered Treasury bonds of different maturities amounting to TZS 214.4 billion compared to TZS 215.4 billion offered in the quarter ending September 2013. Total demand amounted to TZS 403.8 billion and the Bank accepted bids worth TZS 147.6 billion.

Total transactions in the **interbank cash market** amounted to TZS 2,709.96 billion compared to TZS 3,164.07 billion transacted in the quarter ending September 2013. Overnight placements accounted for 76.8 percent of total transactions against 84.2 percent registered in the preceding quarter, while overnight interbank rate decreased to an average of 7.33 percent from 7.76 percent (**Chart 2.5**). This development signals that liquidity level in banks has increased.

Chart 2.5: Inter-bank Cash Market Developments

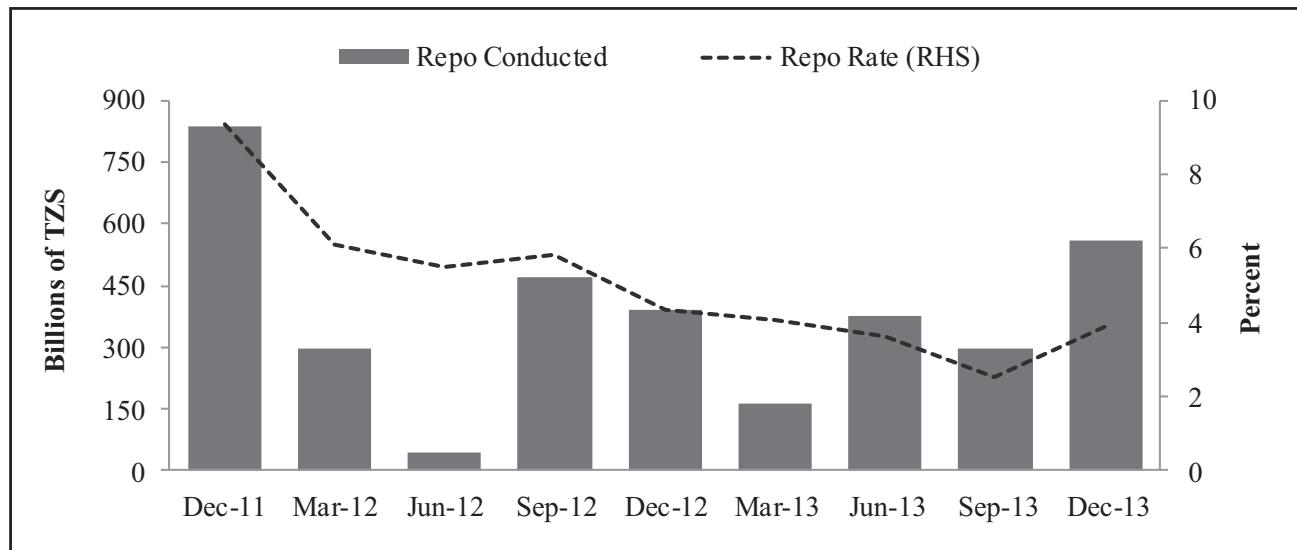

Note: RHS = Right Hand Scale

Source: Bank of Tanzania

During the quarter ending December 2013, the Bank conducted **repurchase agreements (repos)** with commercial banks amounting to TZS 557.6 billion compared to TZS 295.0 billion transacted

in the preceding quarter. Meanwhile, repo rate increased to an average of 3.90 percent from 2.53 percent registered in the quarter ending September 2013 (**Chart 2.6**).

Chart 2.6: Repo Market Developments

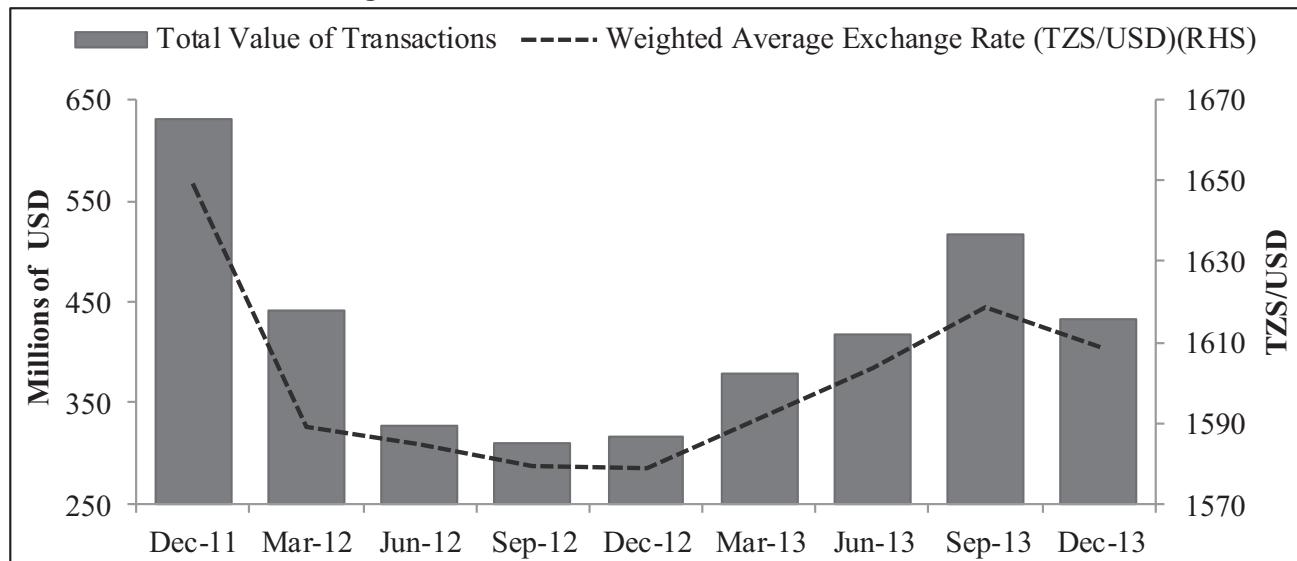

Note: RHS = Right Hand Scale

Source: Bank of Tanzania

Total transactions in the **Interbank Foreign Exchange Market (IFEM)** during the quarter ending December 2013 amounted to USD 432.2 million, out of which USD 145 million were sold by the Bank. The Shilling appreciated to an average of TZS 1,609.04 per USD

from TZS 1,618.40 per USD recorded in the quarter ending September 2013. However, on annual basis the Shilling depreciated by 1.9 percent from an average of TZS 1,578.40 per USD recorded in the quarter ending December 2012 (**Chart 2.7**).

3.0 PUBLIC FINANCE

Government Budgetary Operations

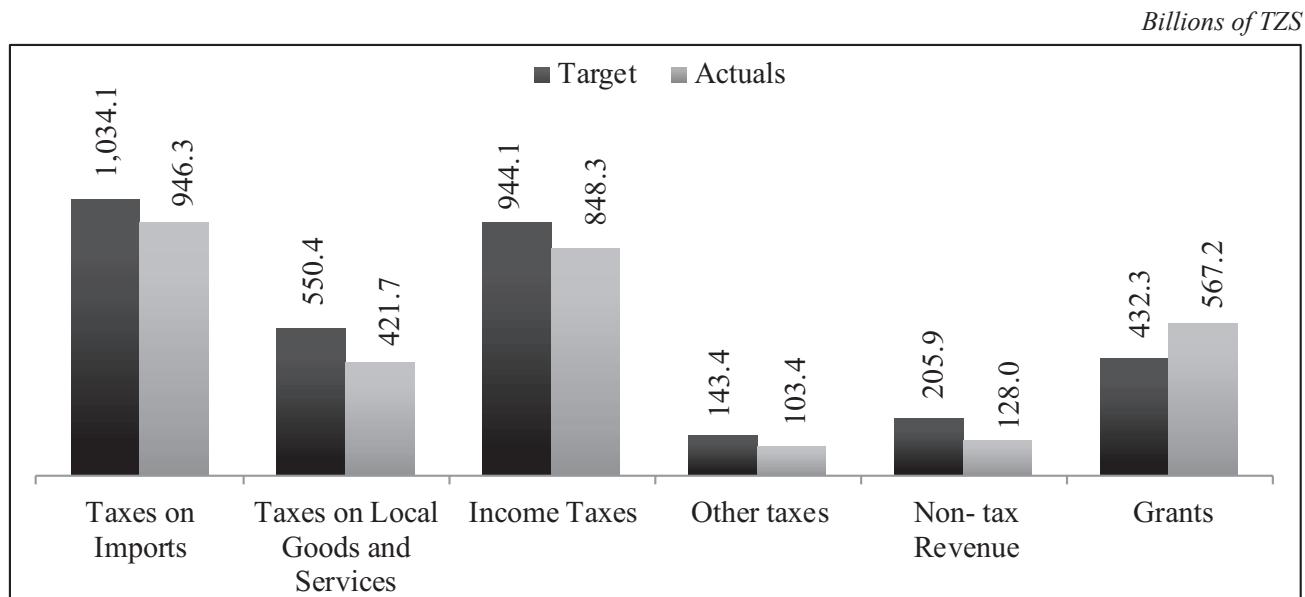

During the quarter ending December 2013, Government budgetary operations recorded an overall deficit of TZS 386.9 billion, which was financed by foreign and domestic borrowings.

Domestic revenue (excluding Local Government Authorities own sources) amounted to TZS 2,447.7 billion, which is 15 percent below the target. Tax revenue was TZS 2,319.6 billion or 86.8 percent of the target for the quarter and accounted

for 92.4 percent of total revenue. The under-performance in tax collections was partly explained by resistance in the use of Electronic Fiscal Devices (EFDs) and delays in the implementation of some revenue measures.

Grants disbursed during the quarter ending December 2013 amounted to TZS 567.2 billion against the projection of TZS 913.5 billion (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending December 2013

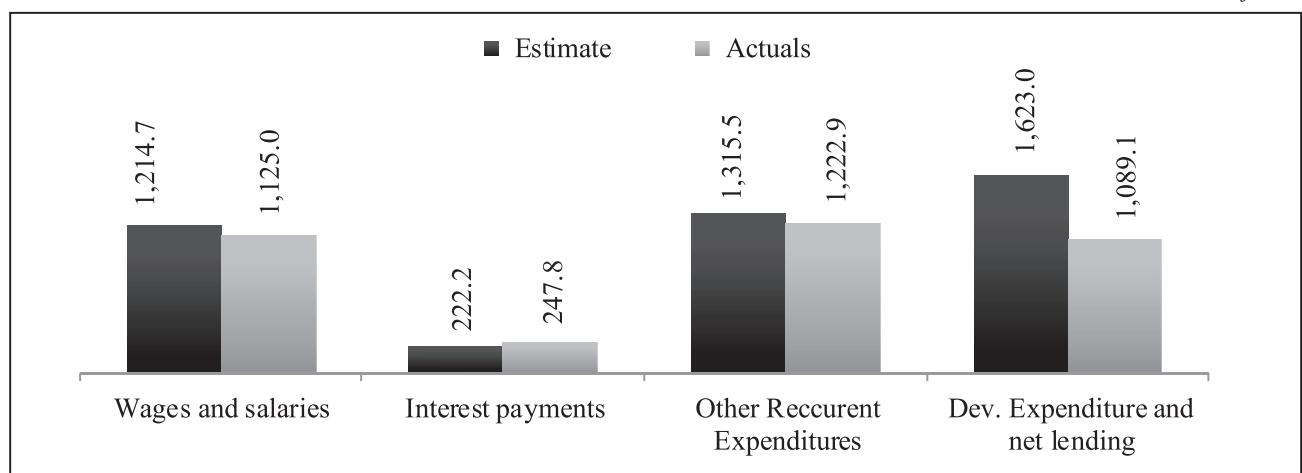

Source: Ministry of Finance

Total expenditure during the quarter under review amounted to TZS 3,684.7 billion or 84.2 percent of budget estimate for the period. Out of total expenditure, TZS 2,595.7 billion was recurrent

expenditure and TZS 1,089.1 billion development expenditure, equivalent to 94.3 percent and 67.1 percent of estimates, respectively (**Chart 3.2**).

National Debt

External debt stock as at the end of December 2013 was USD 13,195.7 million, an increase of USD 451.4 million and USD 2,530.8 million over the amount recorded at the end of preceding quarter and the corresponding quarter in 2012, respectively. The increase was on account of new disbursements and accumulation of interest arrears. Out of the external debt stock 88.7 percent was Disbursed Outstanding Debt (DOD) and 11.3 percent was interest arrears.

Central Government debt accounted for the largest share in external debt stock and has increased to USD 10,414.2 million, from USD 10,160.9 million and USD 8,241.3 million recorded at the end of preceding quarter and corresponding quarter in 2012, respectively. The increase was mainly due to new disbursements received from International Development Association (IDA), Credit Suisse and Exim Bank. The amount and shares in respect of other borrower categories are as presented in **Table 3.1**.

Table 3.1: External Debt Stock by Borrower Category*Millions of USD*

Disbursements received and recorded during the quarter under review amounted to USD 270.9 million. External debt service amounted to USD 56.5 million, out of which USD 29.7 million was principal and USD 26.7 million interest payments. The amount of debt service was 2.2 percent of export of goods and services against a sustainability threshold of 25 per cent.

The **stock of domestic debt** as at the end of December 2013 was TZS 6,048.6 billion, a 1.6 percent decrease over the amount recorded at the end of the preceding quarter. This development was on account of large maturing obligations compared to new issuance. However, the domestic debt increased by 17.4 percent when compared to amount recorded at the end of December 2012 on account of

relatively large issuance of Government bonds compared to maturing obligations.

Out of total domestic debt, Government bonds accounted for largest share (**Table 3.3**).

Table 3.3: Government Domestic Debt by Instruments

Commercial banks were the largest creditor to the Government, holding 46.2 percent of total domestic debt, followed

by the Bank of Tanzania and Pension Funds (**Chart 3.3**).

Chart 3.3: Percentage Share of Holding of Government Domestic Debt

Note: Other includes state or public enterprises like UTT and Tanzania Mortgage; private sector and BOT Special Funds
Source: Ministry of Finance and Bank of Tanzania

New domestic debt issued during the quarter ending December 2013 amounted to TZS 428.8 billion, out of which, TZS 234.7 billion was in Treasury bills and TZS 194.4 billion in Treasury bonds. Debt worth TZS 727.6 billion was due

for payment, out of which principal amounting to TZS 273.6 billion was rolled over, while interest and principal amounting to TZS 179.5 billion and TZS 264.5 billion respectively were paid out of government resources.

4.0 EXTERNAL SECTOR DEVELOPMENTS

Current Account

During the quarter ending December 2013, the current account recorded a deficit of USD 869.2 million, compared to a deficit of USD 958.0 million recorded

during the corresponding quarter in 2012. This outturn was largely driven by a decline in official current transfers (**Table 4.1**).

Table 4.1: Current Account Balance

Exports

The value of exports of goods increased by 8.9 percent to USD 1,606.8 million in the quarter ending December 2013, from the value recorded in the corresponding quarter in 2012 mainly on account of

increase in the value of traditional exports (**Table 4.2**). Meanwhile, mineral exports declined following a fall in the unit price of gold, and low volume of gold and diamond exported.

Table 4.2: Exports by Type of Commodity*Millions of USD*

Imports

During the quarter ending December 2013, the value of goods imported was USD 2,786.8 million, 7.0 percent higher than the value recorded in the corresponding quarter in 2012. The increase was largely on account of a rise in the value of oil imports, which

accounted for 35.6 percent of the total value of goods imports (**Table 4.3**). The rise in value of oil imports was mainly on account of increase in the volume imported following higher demand for thermo power generation.

Table 4.3: Goods Imports*Millions of USD*

Services and Income Account

Services account recorded a surplus of USD 239.1 million, compared with a surplus of USD 104.4 million recorded during the quarter ending December 2012. This performance was associated with a rise in travel and transportation receipts following an increase in the

number of tourist arrivals and volume of transit goods. Income account recorded a deficit of USD 162.1 million in the quarter ending December 2013, which is 3.1 percent decline from a deficit recorded in the corresponding quarter in 2012 (**Table 4.4**).

World Commodity Prices

During the quarter ending December 2013, average world market prices of selected commodities declined save for those of crude oil (Dubai), coffee (Arabica), tea (average price) and sisal (**Table 4.5**). Fall in price of **coffee (Robusta)** was largely explained by expectation of an increase in production of coffee in Vietnam and Indonesia. Price of cloves declined on account of low global demand coupled with high production in Indonesia. Likewise, price of **tea (Mombasa Auction)** declined largely due to low demand following political unrest in Egypt, the major market for Mombasa auction tea. Price of cotton

went down mainly due to low global demand following increasing usage of synthetic fibers by textile manufacturers. Meanwhile, increase in prices of **coffee (Arabica)** and **tea (Average)** was mainly on account of demand factor.

Prices of **crude oil (Average)** and **white petroleum products** declined largely due to increase in supplies from Brazil coupled with low oil demand from OECD countries, while **gold** price fall is associated with India's action to restrict importation of gold in efforts to control its current account deficit.

Table 4.5: World Commodity Prices

5.0 THE ZANZIBAR ECONOMY

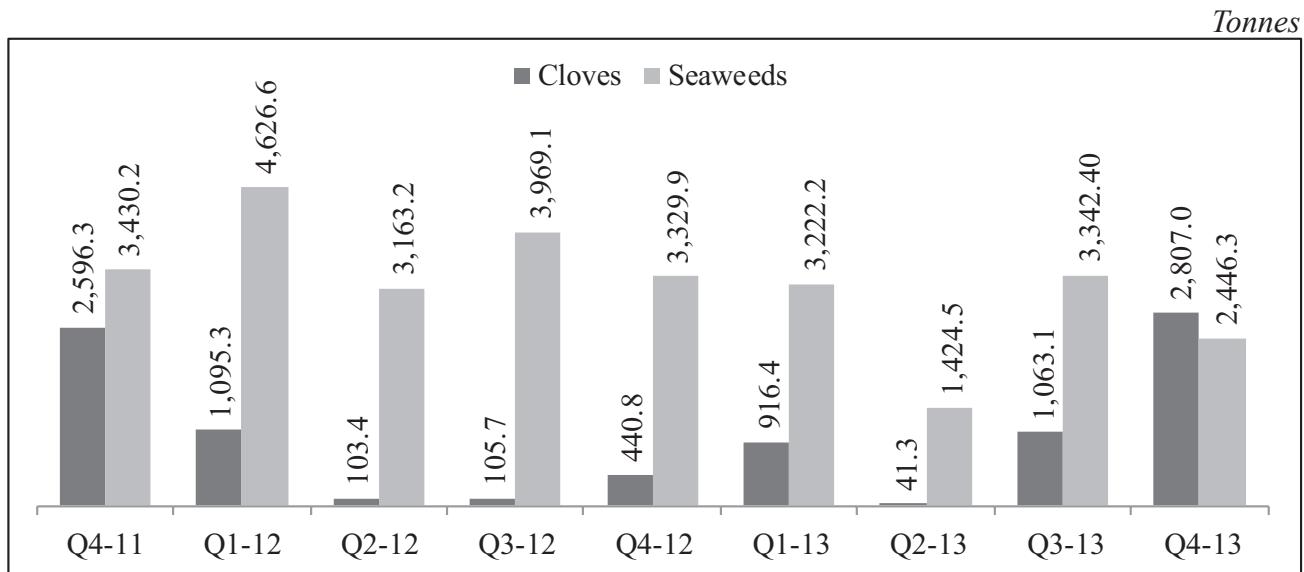

Sectoral Performance

Procurement of Major Export Crops

During the quarter ending December 2013, procurement of cloves increased significantly to 2,807.0 tonnes compared to 440.8 tonnes procured in the corresponding quarter in 2012. This performance is attributed to cyclical nature of the crop and control efforts against cloves smuggling. Meanwhile,

seaweed procurement declined to 2,446.3 tonnes from 3,329.9 tonnes recorded during the quarter ending December 2012 (**Chart 5.1**). This outturn was on account of fall in production following rise in sea temperatures and turbulent conditions on the seabed due to more extreme weather.

Chart 5.1: Zanzibar Procurement of Major Export Crops

Notes: Q = Quarter

Source: Office of Chief Government Statistician

Manufacturing Activity

During the quarter under review, production of juice/water, noodles and soft drinks increased when compared with the amount produced in the quarter ending September 2013 mainly on account of increased demand. Production of wheat flour and bakery products

declined due to low demand, while that of rubber decreased on account of aging trees coupled with poor management of rubber plantations. **Table 5.1** depicts production performance of selected manufactured commodities.

Table 5.1: Zanzibar Production of Selected Manufactured Commodities

Commodity	Unit	Quarter Ending			% Change	
		Dec-12	Sep-13	Dec-13	Sep to Dec-13	Dec-12 to Dec-13

Inflation Developments

Average headline inflation during the quarter ending December 2013 accelerated to 5.2 percent, from 3.9 percent recorded in the corresponding quarter in 2012. This outturn was largely on account of increases in the prices of food and some items under communications subgroup. Average

food inflation rose to 2.0 percent from negative 1.2 percent following rise in the price of fish, while non-food inflation eased to 9.0 percent from 10.3 percent mainly on account of decline in prices of some items under restaurants and hotels subgroup (**Table 5.2**).

Government Budgetary Operations

In the quarter ending December 2013, Government budgetary operations registered a deficit of TZS 10.4 billion after grants and adjustment to cash. Total resources amounted to TZS 105.6 billion, out of which TZS 83.8 billion was domestic revenue and the balance was grants. Tax revenue amounted to

TZS 79.3 billion, or 98.6 percent of the target for the period, while non-tax revenue was below the target by 38.1 percent. Total grants disbursed during the quarter under review amounted to TZS 21.8 billion, above the estimated amount by 4.7 percent. **Chart 5.2** summarizes revenue collection by source.

Chart 5.2: Zanzibar Government Revenue Collection by Source

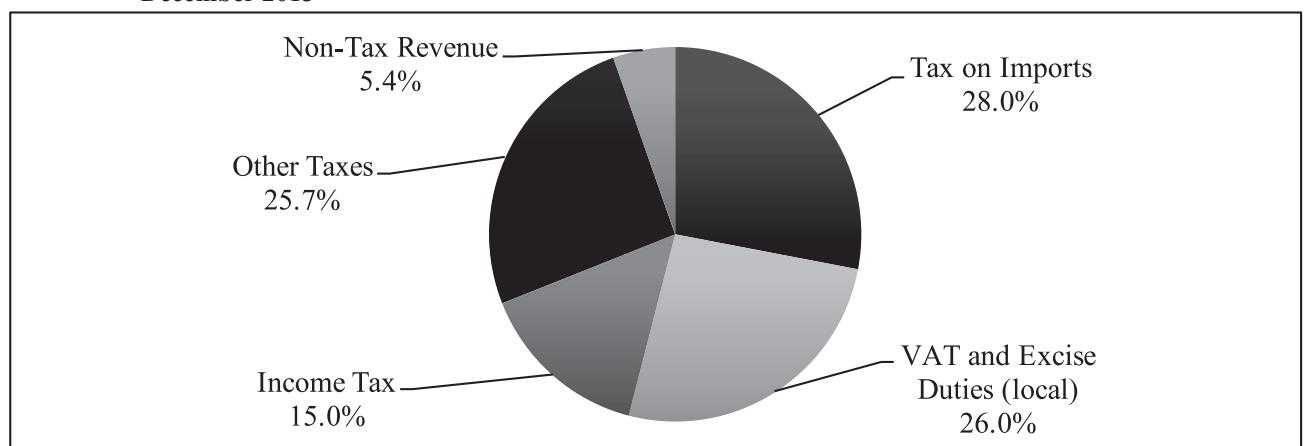

Source: President's Office Finance, Economy and Development Planning - Zanzibar

During the quarter under review, tax on imports accounted for the largest share

of government revenue compared with other sources (**Chart 5.3**).

Chart 5.3: Zanzibar Government Revenue Collection by Source - Percentage Shares for the Quarter ending December 2013

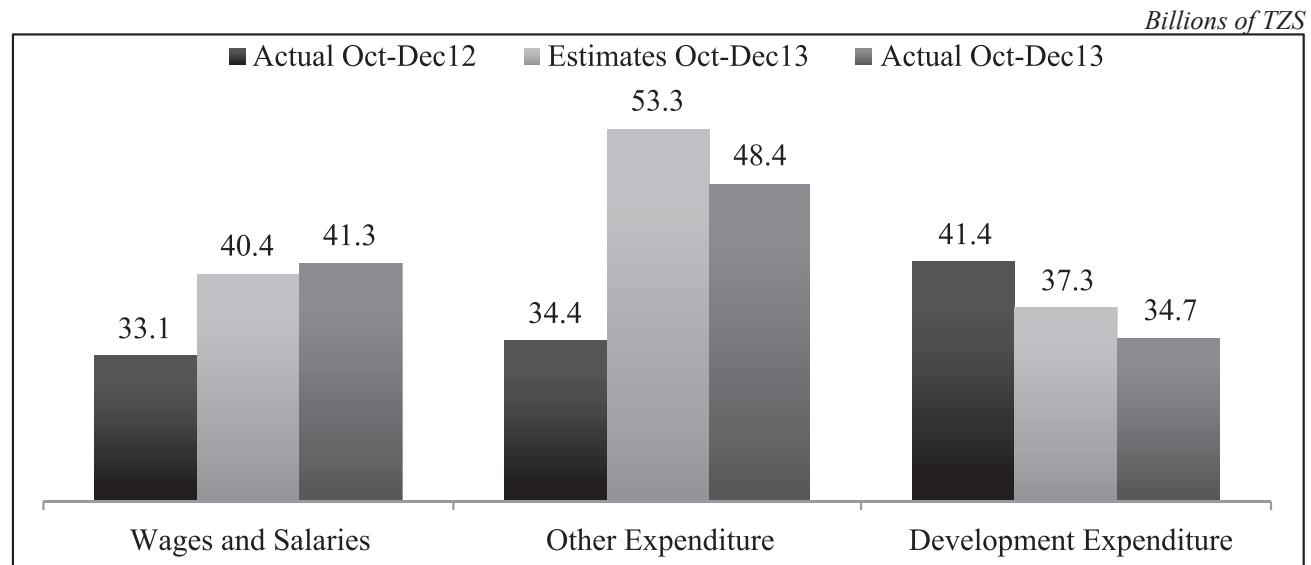

Source: President's Office Finance, Economy and Development Planning - Zanzibar.

Government expenditure amounted to TZS 124.4 billion, out of which TZS 89.8 billion was recurrent expenditure and the balance was development expenditure (**Chart 5.4**). Development expenditure

was below the estimates for the quarter by 7.1 percent, mainly on account of shortfall in contribution by Government and disbursements from development partners' for development projects.

Chart 5.4: Zanzibar Government Expenditure by Component

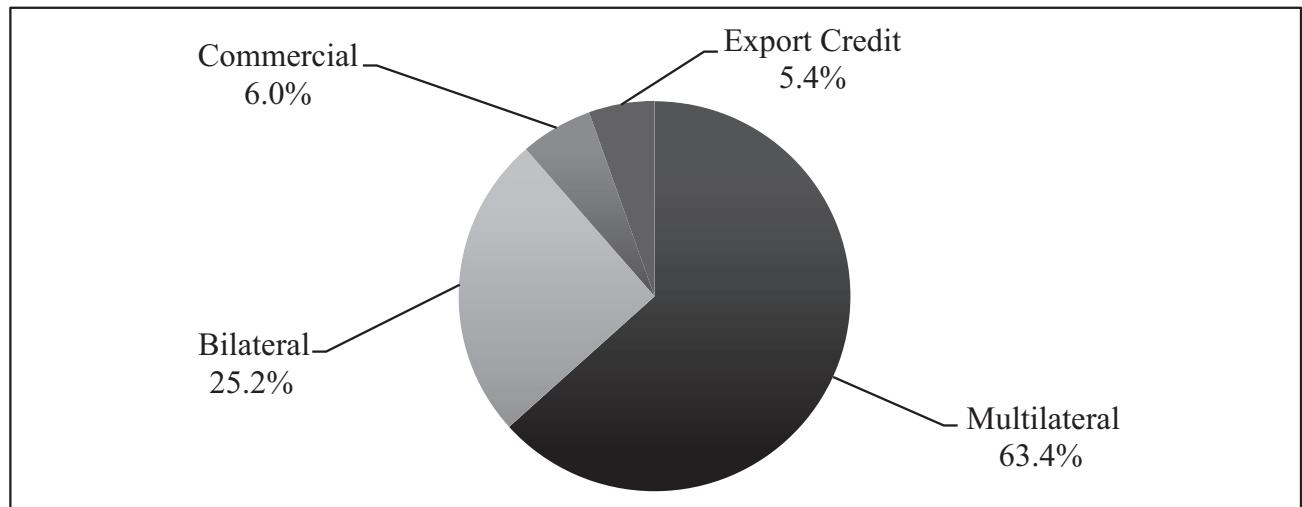

Source: President's Office Finance, Economy and Development Planning -Zanzibar

Debt Developments

As at the end of December 2013, Zanzibar's **external debt stock** amounted to USD 129.7 and accounted for 76.7 percent of the total debt stock. Of the external debt stock 87.9 percent was

guaranteed by the Union Government and the balance was non-guaranteed debt. Debt due to multilateral creditors was dominant, followed by bilateral creditors (**Chart 5.5**).

Chart 5.5: Zanzibar External Debt by Creditors as at the end of December 2013

Transport and telecommunications sectors accounted for the largest share of external debt by use of funds followed

by social welfare and education sectors. Agricultural sector was the least recipient of external debt (**Table 5.4**).

Table 5.4: Zanzibar External Debt by Use of Funds as at the end of December 2013

The **stock of domestic debt** decreased to TZS 62.0 billion at the end of December 2013 from TZS 73.0 billion recorded at the end of the preceding quarter. This development was mainly on account of re-payment of TZS 10.0 billion

short-term overdraft facility issued by Bank of Tanzania to the Revolutionary Government of Zanzibar. **Chart 5.6** shows composition of domestic debt by creditor category.

Chart 5.6: Zanzibar Domestic Debt by Creditor as at the end of December 2013

External Sector Developments

Current Account

During the quarter ending December 2013, Zanzibar current account recorded a deficit of USD 1.4 million compared with a surplus of USD 3.1 million recorded in

the preceding quarter. This outturn was mainly on account of an increase in the value of goods and services imported (**Table 5.7**).

Exports

Export of goods and services rose to USD 65.7 million from USD 45.0 million recorded during the quarter ending September 2013, largely due to

increase in the volume of cloves export following enhanced measures taken by the Government to control smuggling (**Tables 5.7 and 5.8**).

Imports

During the quarter ending December 2013, **imports of goods and services** increased to USD 95.4 million from USD 53.2 million recorded in the preceding

quarter. Increase in the value of goods imported is largely explained by rise in value of capital and consumer goods imported (**Table 5.9**).

Table 5.9: Zanzibar Goods Import (c.i.f) by Major Categories

Import Category	Quarter Ending				% Change	
	Dec-12	Sep-13 ^P	Dec-13 ^P	% of Total Dec-13	Sep to Dec-13	Dec-12 to Dec-13

Services and Income Account

Services account registered a surplus of USD 21.9 million compared with a surplus of USD 24.6 million registered in the quarter ending September 2013,

mainly on account of a decrease in receipts from tourism activities (**Table 5.10**).

Table 5.10: Zanzibar Service and Income Account

6.0 ECONOMIC DEVELOPMENTS IN EAC AND SADC

During the quarter ending December 2013, headline inflation in East African Community region declined to an average of 6.8 percent from 7.1 percent recorded in the previous quarter (**Table 6.1**). With exception of Tanzania and Burundi, other countries in the region recorded increase in the rate of inflation largely attributed to rise in the prices of food and non-alcoholic beverages, transport and energy. The decline in inflation in Tanzania and Burundi was largely driven by easing of prices of some food items, housing, water, electricity, gas, fuel and transport.

Headline inflation in the SADC region declined to an average of 6.1 percent during the quarter under review from 6.7 percent recorded in the quarter ending September 2013 (**Table 6.1**). With the exception of Lesotho, other countries in the region recorded declines in inflation on account of easing of food and non-alcoholic beverages, electricity, water and gas prices as well as costs of transport and housing. The recorded increase in inflation in Lesotho was largely due to rise in prices of food and non-alcoholic beverages, electricity, gas and other fuels.

Notes: 1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation Outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Discount Rate also known as Bank Rate

The rate of interest the Bank of Tanzania charges on Loans it extends to Commercial Banks and government overdraft.

Exchange Rate

The price at which one currency can be purchased with another currency, e.g. TZS per US dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of Repo (7 days) or overnight inter-bank rate whichever is higher in the market , plus 20%.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

M1, Narrow Money,

Consists of currency in circulation outside banks and demand deposits.

M2, Broad Money

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

M3, Extended Broad Money

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheque, draft, giro order, direct debit/ credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of deposit other than transferable deposits.

Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/ to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
