BOARD OF DIRECTORS

Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration and Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Sector Stability and Deepening (FSD)
Mr. Bedason A. Shalanda	Representative from Ministry of Finance (MoF)
Mr. Khamis M. Omar	Principal Secretary to the Treasury (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Kilaghane	Director
Mr. Yusto E. Tongola	Secretary to the Board

SUMMARY OF ECONOMIC DEVELOPMENTS

Tanzania Mainland

Real Gross Domestic Product (GDP) is estimated to have grown by 6.9 percent during 2012 compared with 6.4 percent recorded in 2011, largely driven by output growth in communication, financial intermediation, manufacturing, mining and quarrying, and construction. During the quarter ending March 2013, average **annual headline inflation** eased to 10.4 percent, from 12.4 percent recorded in the preceding quarter, due to a slowdown in the rise of food prices.

Annual growth rate of **extended broad money supply** (M3) slowed down to 15.3 percent from 15.7 percent recorded in the corresponding period in 2012. This outturn was explained by a slowdown in the growth of Net Domestic Assets (NDA) of the banking system as government position with banks improved. Banks' lending and deposit rates increased during the quarter compared to those recorded in the quarter ending March 2012. The spread between 12-month deposit rate and 1-year lending rate narrowed to 2.91 percentage points from 3.35 percentage points recorded in the quarter ending December 2012. Annual growth of **credit to the non-government sector** grew by 21.1 percent in March 2013 from 18.2 percent recorded in December 2012 and 21.9 percent recorded in March 2012.

In the third quarter of 2012/13, **Government budgetary operations** (on cheque issued basis) were characterized by good domestic revenue collection with moderate expenditure. Domestic revenue collections were sufficient to cover 94.1 percent of the recurrent expenditure for the period. **Total external debt stock** increased by 10.0 percent to USD 11,732.4 million from the level recorded at the end of quarter ending December 2012, while **domestic debt stock** increased by 6.0 percent to TZS 5,1462.7 billion.

The **current account** deficit widened to USD 1,420.3 million from a deficit of USD 896.6 million¹ recorded in the preceding quarter on account of a decline in exports. The US Dollar was exchanged at an average of TZS 1,592.06 in the quarter ending March 2013 compared to TZS 1,578.84 recorded in the quarter ending December 2012.

Zanzibar Economic Developments

Zanzibar Real Gross Domestic Product (GDP) is estimated to have grown by 7.0 percent in 2012 compared with growth of 6.7 percent recorded in 2011. Activities that contributed significantly to the economic growth included transportation and communication,

¹Provisional Statistics for December 2012 reported a current account deficit of USD 779.4 million.

construction, financial intermediation, and trade and repair. **Average headline inflation** eased to 2.3 percent from 3.9 percent recorded in the quarter ending December 2012, largely due to a decline in prices of food items. **Government budgetary operations** recorded good performance with non-tax revenue and grants exceeding the targets for the quarter. The **current account** deficit narrowed to USD 4.7 million from a deficit of USD 10.7 million recorded in the preceding quarter, mainly on account of an increase in goods exports.. .

Regional Economic Developments

Real GDP growth in the **East African Community (EAC)** region was 5.2 percent in 2012, compared with 6.0 percent recorded in 2011. With exception of Kenya and Tanzania, other EAC

partner states' output growth declined. In the **Southern Africa Development Cooperation (SADC)** region, real GDP growth declined to 4.3 percent in 2012 from 5.1 percent recorded in 2011. Slowdown in output growth in agriculture, mining, electricity and manufacturing activities were among the factors that contributed to the decline in real GDP in most countries in the region.

During the quarter ending March 2013, average inflation in the **EAC** region declined to an average of 6.2 percent, compared with 7.7 percent recorded during the preceding quarter. The slowdown in inflation rate was mainly due to a decline in food prices. In the **SADC** region, average inflation declined marginally to 8.5 percent from 8.6 percent recorded during the quarter ending December 2012.

1.0 OUTPUT AND PRICES

The Overall Economic Performance

Despite a slump in hydropower generation in the beginning of the year, real GDP is estimated to have grown by 6.9 percent in 2012 compared with 6.4 percent recorded in 2011. Economic activities that contributed to this performance include communication, financial intermediation, manufacturing, mining and quarrying, and construction.

Sectoral Performance

Procurement of Traditional Export Crops

During the quarter ending March 2013,

procurement of major traditional export crops declined to 210,279.0 tonnes compared to 217,648.7 tonnes recorded in corresponding period in 2012, mainly driven by a decline in procurement of cashew nuts (**Table 1.1**). The decline in cashew nuts procurement was on account of a fall in production following late distribution and application of pesticides. Meanwhile, coffee and tea performed relatively better on account of good weather coupled with high coffee crop cycle.

Table 1.1: Procurement of Traditional Export Crops

Item	January - March		% Change
	2012	2013	
Cotton lint	off season		0.0
Tobacco	4,868.3	2,520.1	-48.2

Production of Gold and Diamond

Provisional data showed that production of gold during the quarter ending March 2013 declined when compared to the levels recorded in the preceding and corresponding quarter in 2012.

Production of diamond declined from the levels recorded in the preceding quarter while no production was reported in the corresponding period in 2012 as Williamson Diamond mine was undergoing rehabilitation (**Table 1.2**).

Table 1.2: Production of Gold and Diamond

Item	Unit	2012		2013		% Change

Food Supply Situation

During the period under review, food supply situation in the country was generally satisfactory though some few districts experienced food shortages. The National Food Reserve Agency (NFRA) purchased 1,918.2 tonnes of maize and sold 45,715.8 tonnes, out of which 23,883.5 tonnes were sold to private traders, 2,190.7 tonnes to the prison department, and 19,641.6 tonnes

to Disaster Relief Coordination unit in the Prime Minister's office.

The stock of maize and sorghum held by the NFRA decreased to 46,153 tonnes in the quarter ending March 2013 from 123,312 tonnes recorded in the corresponding period in 2012 (**Table 1.3**).

Table 1.3: National Food Reserve Agency Stock

Source: National Food Reserve Agency

During the quarter ending March 2013, wholesale prices for the selected food crops increased when compared with those recorded in corresponding quarter in 2012, except for rice. The slowdown in

rice prices was associated with increased rice imports due to waived import tax and anticipated seasonal harvests (**Table 1.4**).

Table 1.4: National Average Wholesale Prices for Selected Food Crops

Crop	Quarter Ending			% Change		TZS per 100 Kilogram
	Mar-12	Dec-12	Mar-13	Dec-12 to Mar-13	Mar-12 to Mar-13

Inflation Developments

Average headline inflation was 10.4 percent during the quarter ending March 2013 compared with 12.4 percent recorded in the quarter ending December 2012. Average annual food and non-alcoholic beverages inflation was 11.7 percent, while non-food inflation was 8.8 percent (**Chart 1.1 and Table 1.5**). The decline in inflation was mainly due to slowdown in the average prices of major food items.

Average inflation excluding food and energy (proxy for core inflation) was 6.8 percent in the quarter ending March 2013 compared with 8.7 percent of December 2012 and 8.8 percent of March 2012. The easing of core inflation was attributed to decreases in the costs of items under communication, health and education.

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money and Credit

During the quarter ending March 2013, extended broad money supply (M3) recorded an annual growth rate of 15.3 percent, compared to 15.7 percent recorded in the corresponding quarter of 2012. This outturn was explained by a slowdown in the growth of Net Domestic Assets (NDA) of the banking system as government position with banks improved (**Charts 2.1**). Net Foreign Assets (NFA) of the banking system increased as reflected in the holdings at the Bank of Tanzania following an increase in foreign

exchange inflows, including receipts from non-concessional borrowing, coupled with moderate payments of government external obligations (**Table 2.1**).

Credit to the private sector recorded an annual increase of TZS 1,626.1 billion in March 2013 representing an annual growth of 21.1 percent. The growth rate for the quarter ending December 2012 was 18.2 percent while that of March 2012 was 21.9 percent.

Interest Rates Developments

During the quarter ending March 2013, the overall time deposits rate sustained a rising trend, mainly on account of increased competition among banks, coupled with introduction of new financial products. The overall time deposit rate averaged at 8.84 percent in the quarter ending March 2013, compared to 8.50 percent recorded in the preceding quarter, and 7.82 percent in the quarter ending March 2012. Meanwhile, the overall lending rate declined slightly

to 15.75 percent in March 2013, from 15.98 percent recorded in the quarter ending December 2012 but above 15.28 percent recorded in the corresponding quarter of 2012. The spread between the 12-month time deposit rate and one year lending rate narrowed to 2.91 percentage points from 3.35 percentage points recorded in the preceding quarter and 3.51 percentage points recorded in the quarter ending March 2012 (**Table 2.2**).

The Bank conducted **repurchase agreements** (repos) with commercial banks worth TZS 163.0 billion in the quarter ending March 2013, compared to TZS 383.5 billion conducted in the

preceding quarter (**Chart 2.6**). During the quarter under review, repo worth TZS 163.0 billion matured compared to TZS 393.5 billion recorded in the preceding quarter.

Chart 2.6: Repo Market Developments

Source: Bank of Tanzania

During the quarter ending March 2013, total value of transactions in the **Interbank Foreign Exchange Market** (IFEM) amounted to USD 377.9 million. The Bank participated in the market for liquidity management purposes by selling USD 270.5 million, compared to USD 216.9 million sold in the preceding quarter. The Shilling depreciated to

an average of TZS 1,592.1 per USD compared with TZS 1,578.8 per USD recorded in the quarter ending December 2012. On annual basis, the Shilling depreciated by 0.19 percent from an average of TZS 1,589.1 per USD recorded in the quarter ending March 2012 (**Chart 2.7**).

3.0 PUBLIC FINANCE

Government Budgetary Operations

During the quarter ending March 2013, government budgetary operations registered a deficit of TZS 1,352.3 billion after adjustment to cash and other items net. Total resources amounted to TZS 2,324.7 billion, out of which TZS 1,981.5 billion was from domestic sources and the balance grants. Total expenditure was TZS 2,893.8 billion.

Domestic revenue collection by the Central Government was TZS 1,981.5

billion, 90.5 percent of the target. Tax revenue was 92.5 percent of the target for the quarter and accounted for 95.0 percent of total revenue. Under performance in this category is associated with increased importation of intermediary goods, which attract low rate of import duty, and exemption extended to rice importers to meet requirements in the country. Grants disbursed during the quarter were TZS 343.2 billion, against the projection of TZS 489.9 billion for the period (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending March 2013

Billions of TZS

Source: Ministry of Finance

Total expenditure amounted to TZS 2,893.8 billion, out of which recurrent expenditure was TZS 2,105.6 billion and

the balance was development expenditure (**Chart 3.2**).

National Debt

External debt stock at the end of March 2013 reached USD 11,732.4 million, an increase of USD 1,067.5 million over the amount recorded at the end of preceding quarter. The increase was mainly on account of new disbursements. Out of the external debt stock, 87.2 percent was Disbursed Outstanding Debt (DOD) and 12.8 percent was interest arrears.

The profile of external debt by borrower category indicates that Central Government debt increased to USD 9,001.2 million compared to USD 8,241.3 million at the end of December 2012, mainly due to new disbursements received from the International Development Association (IDA) and the Standard Bank of South Africa. The amount and shares in respect of borrower categories are as presented in **Table 3.1**.

Table 3.1: Tanzania's External Debt Stock by Borrower Category

Disbursements received and recorded during the quarter under review amounted to USD 818.2 million, while external debt service amounted to USD

38.0 million, out of which USD 11.8 million was principal, USD 11.2 million interest payments and USD 14.9 million was other charges.

The stock of **domestic debt** as at the end of the quarter was TZS 5,462.7 billion, 6.0 percent increase over the amount recorded at the end of December 2012. The increase was on account of large

issuance of government bonds relative to maturing obligations. Out of total domestic debt, government bonds were dominant accounting for 73.3 percent (**Table 3.3**).

Table 3.3: Government Domestic Debt by Instruments

Domestic debt by holder category shows that the share of deposit money banks holding declined to 45.7 per cent from

47.4 percent recorded at the end of preceding quarter (**Chart 3.3**).

Chart 3.3: Percentage Share of Holding of Government Domestic Debt

Source: Ministry of Finance and Bank of Tanzania

New domestic debt issued during the quarter under review amounted to TZS 876.4 billion, out of which, TZS 612.3 billion was Treasury bills, and TZS 264.1 billion Treasury bonds. During the quarter, debts worth TZS 710.4 billion

were due for payment, out of which principal amounting to TZS 574.5 billion was rolled over while interest amounting to TZS 136.3 billion was paid out of government resources.

4.0 EXTERNAL SECTOR DEVELOPMENTS

Current Account

During the quarter ending March 2013, current account recorded a deficit of USD 1,420.3 million compared to a deficit of USD 896.6 million recorded in the previous quarter. The decline in exports was the main cause of the widening

current account deficit. Total exports declined by 16.8 percent to USD 1,850.2 million in the quarter ending March 2013 from the amount recorded in the quarter ending December 2012 (**Table 4.1**).

Exports

Export of goods declined to USD 1,198.4 million from USD 1,485.3 million recorded in the preceding quarter. Most of the decline occurred in gold and traditional exports (**Table 4.2**).

The fall in traditional exports is mainly attributed to seasonal factors as the quarter ending December is usually the peak export season for most of the traditional exports.

Table 4.2: Exports by Type of Commodity

Services and Income Account

Services account recorded a net surplus of USD 31.7 million during the review period, 64.8 percent decline from the amount recorded in the quarter ending December 2012. This outcome is consistent with seasonality of travel,

which normally decline in the first quarter of the calendar year. The income account recorded a slightly lower deficit compared to the previous quarter (**Table 4.4**).

World Commodity Prices

During the quarter ending March 2013, average prices of selected agricultural and non-agricultural commodities in the world market declined save for **cotton** and **oil** (**Table 4.5**). The decline in prices of **coffee**, **tea** and **cloves** was largely attributed to bumper harvest recorded in Brazil, Kenya and Comoros respectively. The price of **sisal** weakened following an increase in stock in China. Likewise, the price of **gold** declined mainly on account of speculation that Cyprus would sell

its gold reserves, thus influencing other European Central Bank to follow suit.

The prices of **crude oil** (Average and Dubai f.o.b) and **white petroleum products** increased mainly due to growing optimism about the global economic recovery, while increase in the price of cotton was largely on account of a fall in **cotton** production in USA and India, coupled with high demand from China.

Table 4.5: World Commodity Prices

Commodity	Unit	Quarter Ending (Three Months Average)			% Change Dec-12 to Mar-13

5.0 THE ZANZIBAR ECONOMY

The Overall Economic Performance

Zanzibar's average real Gross Domestic Product (GDP) growth rate for 2012 is estimated to have grown by 7.0 percent compared with 6.7 percent recorded during 2011. Activities that contributed to this performance include transport and communication, construction, financial intermediation, and trade and repairs.

Procurement of Major Export Crops

During the quarter ending March, 2013, procurement of cloves was 916.4 tonnes

compared with 1,095.3 tonnes recorded in the corresponding period in 2012. The decline was on account of cyclical nature of the crop and a decrease in producer prices to TZS 12,500 per kilogram of Grade I from TZS 15,000 per kilogram during the quarter ending March 2012. Seaweed procurement decreased to 3,507.2 tonnes from 4,626.6 tonnes, on account of lower producer price offered (**Chart 5.1**).

Chart 5.1: Zanzibar - Procurement of Major Export Crops

Notes: Q = Quarter

Source: Office of Chief Government Statistician

Manufacturing Activity

During the quarter under review, production of bakery products, wheat flour and noodles increased, while production of soft drinks and mineral water decreased amid increased

competition from imports. Production of rubber also decreased on account of aging of trees. Production of selected manufactured commodities is shown in **Table 5.1**.

Table 5.1: Zanzibar - Production of Selected Manufactured Commodities

Inflation Developments

The average headline inflation during the quarter ending March, 2013 dropped to 2.3 percent, from 16.7 percent recorded during the corresponding quarter in 2012, largely on account of a decline in the prices of basic food items namely, rice, wheat flour, fish and sugar. During

the same period, average food inflation also fell to negative 1.7 percent from 17.9 percent, while non-food inflation rate eased to 8.7 percent from 15.6 percent, mainly on account of decrease in fuel prices (**Table 5.2**).

Government Budgetary Operations

The Government of Zanzibar's budgetary operations registered a deficit of TZS 13.7 billion after grants, which widened to TZS 14.2 billion after adjustment to cash. Total resources amounted to TZS 84.5 billion; out of which TZS 69.8 billion was sourced domestically and

the balance was grants. Tax revenue amounted to TZS 64.4 billion, while non-tax revenue amounted to TZS 5.4 billion. Grants disbursed during the quarter under review amounted to TZS 14.7 billion, above the estimates by 42.5 percent (**Chart 5.2**).

Chart 5.2: Zanzibar Government Revenue by Source

Source: President's Office Finance, Economy and Development Planning - Zanzibar

During the reviewed quarter, VAT and excise duties on local goods and services accounted for the largest share

of Government revenue compared with other sources (**Charts 5.3**).

Chart 5.3: Government Revenue by Source - Percentage Shares for the Quarter ending March 2013

Source:President's Office Finance, Economy and Development Planning - Zanzibar.

Government expenditure during the quarter ending March 2013 amounted to TZS 98.2 billion, out of which TZS 66.2

billion was recurrent expenditure and the remaining was development expenditure (**Chart 5.4**).

Chart 5.4: Government Expenditure by Component

Source:President's Office Finance, Economy and Development Planning - Zanzibar.

Debt Developments

External debt stock amounted to USD 128.1 million as at end of March 2013, compared with USD 160.2 million recorded at the end of December 2012. Debt guaranteed by the Union Government amounted to USD 112.5 million or 87.9 percent of external debt and the remaining balance was non-guaranteed debt. Debt due to multilateral creditors was dominant followed by bilateral creditors (**Chart 5.5**).

External Debt

Total external debt stock stood at USD 123.8 million, up from USD 111.7 million at the end of December 2012 compared with USD 123.8 million recorded at the end of September 2012. The increase was due to new borrowing to finance development projects. Debt guaranteed by the Union Government amounted to USD 114.5 million or 87.9 percent of external debt. Debt owed to multilateral creditors was dominant followed by bilateral, export credit and commercial creditors (**Chart 5.5**).

Chart 5.5: External Debt by Creditors as at the end of March 2013

Source: President's Office, Finance, Economy and Development Planning – Zanzibar

The profile of external by maturity showed that debt maturing beyond 20 years was dominant at 59.4 percent

followed by debt maturing between 5 to 10 years (**Table 5.3**).

External debt by use of funds shows that a large portion was utilized in the transport and telecommunications

sectors, followed by social welfare and education sectors (**Table 5.4**).

Domestic debt stock decreased to TZS 48.5 billion at the end of March 2013 from TZS 50.5 billion registered at the end of the preceding quarter. The decline was due to payment of government

gratuity claims to retired civil servants and suppliers coupled with repayment of loans owed by Zanzibar Social Security Fund. **Chart 5.6** shows composition of domestic debt by creditor category.

Chart 5.6: Domestic Debt by Creditor as at the end of March 2013

Classifications of domestic debt by maturity reveal that, debt with “undetermined maturity” (predominantly

gratuity and suppliers’ claims) was the largest, followed by debt maturing between 2 – 5 years (**Table 5.6**).

External Sector Developments

Current Account

In the quarter ending March 2013, Zanzibar’s current account recorded a deficit of USD 4.7 million compared with a deficit of USD 10.7 million recorded

during the preceding quarter. The lower deficit was on account of an increase in goods export (**Table 5.7**).

Table 5.7: Zanzibar Current Account

Exports

Exports of goods and services increased to USD 73.4 million from USD 65.9 million recorded during the quarter

ending December 2012, largely driven by cloves export (**Tables 5.7 and 5.8**).

Table 5.8: Zanzibar Exports by Type of Commodity

Imports

Import of goods and services decreased by 4.1 percent to USD 86.0 million from the amount recorded in the quarter ending December 2012. Goods imports decreased to USD 50.4 million from

USD 51.6 million, and accounted for 58.6 percent of total imports (**Table 5.9**). The decrease in goods import was explained by a decline in capital goods imports.

Table 5.9: Zanzibar - Goods Import (c.i.f) by Major Categories

Services and Income Account

During the review period, the services account registered a surplus of USD 21.5 million, down from USD 23.4 million registered in the quarter ending December 2012, mainly on account

of a decline in receipts arising from tourism and its related activities. Service payments also decreased to USD 35.5 million from USD 38.1 million reported in the previous quarter (**Table 5.10**).

6.0 ECONOMIC DEVELOPMENTS IN EAC AND SADC

GDP Performance

Real GDP growth in the East African Community (EAC) region averaged at 5.2 percent in 2012, compared with 6.0 percent recorded in 2011 (**Table 6.1**). With exception of Kenya and Tanzania, other EAC partner states' output growth declined. Growth in Tanzania was driven by telecommunications, transport, financial intermediation, industry, and trade, while for Kenya the main activities driving growth included transport and communication, and agriculture and forestry.

Average real GDP growth in the SADC region declined to 4.3 percent in 2012 from 5.1 percent recorded in 2011 (**Table 6.1**). With the exception of Angola, Democratic Republic of Congo, Mozambique, Tanzania, Madagascar and Zambia, other countries recorded declines in output. In Angola, growth accelerated due to expansion in the oil and gas sector and enhanced public expenditure in the transport, construction and energy sectors. Growth in Mozambique was a result of improved performance in coal production, foreign direct investment inflows and credit expansion to the private sector coupled with infrastructure investment. Zambia's real GDP growth

was underpinned by strong growth in the construction, manufacturing, and transport and communications sectors. For those countries which recorded declines in real GDP, underperformance in agriculture, mining, electricity and manufacturing activities were cited as contributing factors.

Inflation Developments

During the quarter ending March 2013, headline inflation in the EAC region declined to an average of 6.2 percent, from 7.7 percent recorded in the preceding quarter (Table 6.1). The deceleration in inflation rate in the region was mainly due to decline in food prices. With exception of Tanzania, all countries in the region registered single digit inflation.

Average headline inflation in the SADC region declined, albeit marginally, to 8.5 percent from 8.6 percent recorded in the previous quarter (Table 6.1). Inflation declines were registered in Angola, Lesotho, Mauritius, Namibia, Seychelles, Swaziland, South Africa, Tanzania and Zambia. Malawi recorded the highest headline inflation in the region, while Mozambique recorded the lowest.

Note:

1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

Note:

1. Revision is based on new data obtained from the completion of Private Capital Flows and tourism survey and adoption of new data sources for some other items in the services account
2. Change in gross official reserves will not necessarily be equal to reserve assets since a new methodology of computing reserve assets which nets out the impact of valuation was introduced beginning January 2006

P = Provisional , r = Revised, o\w = Of which

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation Outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Discount Rate also known as Bank Rate

The rate of interest the Bank of Tanzania charges on Loans it extends to Commercial Banks and government overdraft.

Exchange Rate

The price at which one currency can be purchased with another currency, e.g. TZS per US dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of Repo (7 days) or overnight inter-bank rate whichever is higher in the market ,

plus 20%.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

M1, Narrow Money,

Consists of currency in circulation outside banks and demand deposits.

M2, Broad Money

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

M3, Extended Broad Money

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheque, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of

deposit other than transferable deposits. Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
