Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration & Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Stability and Financial Deepening (FSD)
Mr. Bedason A. Shalanda	Representative from the Ministry of Finance (MoF)
Mr. Khamis M. Omar	Permanent Secretary to the Treasury (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Kilaghane	Director
Mr. Athman H. Mtengeti	Secretary to the Bank

SUMMARY OF ECONOMIC DEVELOPMENTS

Tanzania Mainland

During the quarter ending September 2012, average **annual headline inflation** eased to 14.7 percent, from 18.1 percent recorded in the preceding quarter, due to a decline in both food and non-food inflation.

Annual growth of **extended broad money supply** (M3) slowed down to 10.1 percent from 23.7 percent recorded in the corresponding period in 2011. Growth of **broad money supply** (M2) was 13.0 percent compared with growth rate of 19.6 percent of the corresponding period a year earlier. With exception of repo rate, all money market interest rates declined during the quarter under review compared to rates recorded in the preceding quarter. Retail banks' lending and deposit rates increased during the quarter under review compared to those recorded in the quarter ending June 2012. Annual growth of **credit to the private sector** slowed down to 16.1 percent in September 2012 compared with 29.4 percent recorded in September 2011.

The Government overall budgetary operations recorded a deficit of TZS 75.3 billion. **Total national debt stock increased** by 3.2 percent to USD 13,423.1 million.

During the quarter under review, the **current account** deficit narrowed to USD 939.0 million, from a deficit of USD 1,124.5 million¹ recorded in the preceding quarter on account of an increase in official transfers. The Tanzanian Shilling appreciated slightly against the US dollar from TZS 1,584.7 recorded in the quarter ending June 2012 to TZS 1,579.4 per US dollar.

Zanzibar

Zanzibar Real Gross Domestic Product (GDP) grew by 10.0 percent during the second quarter of 2012 compared with 1.4 percent recorded in the corresponding period in 2011. During the quarter ending September 2012, **average headline inflation** eased to 7.7 percent from 10.2 percent recorded in the preceding quarter, largely due to a decline in prices of major consumer goods. **Government budgetary operations** recorded a deficit of TZS 19.4 billion on cheques issued basis including grants, but narrowed to TZS 18.6 billion after adjustment to cash. Zanzibar **current account** deficit narrowed to USD 3.3 million from a deficit of USD 11.6 million recorded in the preceding quarter, mainly on account of an increase in official current transfers and service receipts.

¹Provisional Statistics for the quarter of June 2012, reported a current account deficit of USD 1,193.0 million.

During the quarter ending September 2012, average inflation in the **East African Community** region declined to 10.6 percent, compared with 15.5 percent recorded during the preceding quarter. The decline in inflation rate in the region

was mainly due to a fall in food and energy prices. The **SADC** region recorded an average inflation of 8.2 percent during the quarter under review, same rate as recorded in the previous quarter.

1.0 OUTPUT AND PRICES

Sectoral Performance

Procurement of Traditional Export Crops

Procurement of the major traditional export crops increased to 240,757.0 tonnes in the quarter ending September 2012 compared to 227,717.3 tonnes recorded in corresponding period in 2011. All traditional exports recorded increases in procurement except for tobacco and tea (**Table 1.1**). Rise in coffee and cotton production is mainly explained by steady supply of pesticides, favourable weather and good farm gate

prices offered to farmers in the previous season. In addition, full implementation of the cotton contract farming in the western cotton growing areas contributed to the increase. Decline in tea production was associated with drought experienced in most of tea growing areas while production of tobacco is explained by low producer prices during the onset of farming season.

Table 1.1: Procurement of Traditional Export Crops

Item	July - September		% Change
	2011	2012	
Cashew nuts		off season	0.0
Coffee	9,564.3	32,082.8	235.4
Cotton lint	70,355.4	93,751.3	33.3
Sisal*	19,090.7	19,702.8	3.2
Tobacco	105,269.6	72,875.1	-30.8

Production of Gold and Diamond

During the quarter ending September 2012, production of gold declined compared to levels recorded in the

corresponding period in 2011. However, production of diamond increased following resumption of activities by Williamson Diamond Mines (**Table 1.2**).

Table 1.2: Production of Gold and Diamond

Units	2011 Jul - Sep	2012		% Change	
		Apr - Jun	Jul - Sep	Apr-Jun 12 to Jul- Sep 12	Jul-Sep 11 to Jul- Sep 12

Food Supply Situation

During the period under review, food supply in the country was generally satisfactory. The National Food Reserve Agency (NFRA) purchased a total of 32,801.68 tonnes of maize and 2,308.3 tonnes of sorghum. The agency sold 8,005.9 tonnes of maize, out of which 426.8 tonnes were sold to the disaster relief and coordination unit in the Prime Minister's office, 3,066.1 tonnes were sold to the Prisons Department and

4,513.0 tonnes to private traders.

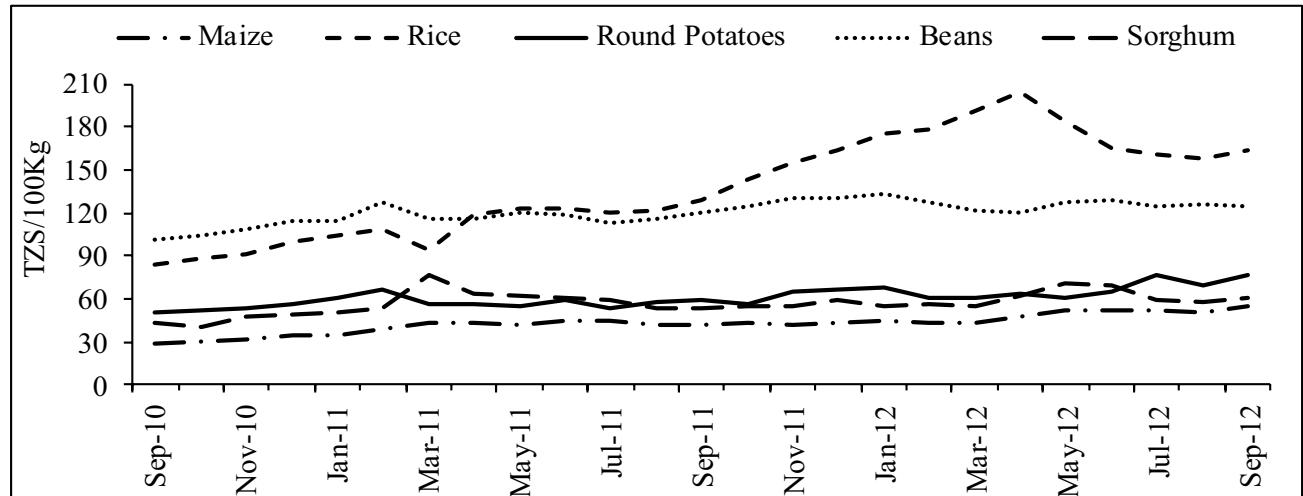

Wholesale prices for the major food crops increased when compared with the corresponding quarter in 2011, mainly due to increased demand and high transportation costs. However, when compared to the preceding quarter, prices decreased except those for maize and potatoes (**Table 1.3 and Chart 1.1**).

Table 1.3: National Average Wholesale Prices for Selected Food Crops

Crop	Quarter Ending			% Change		<i>TZS per 100 kilogram</i>
	Sep-11	Jun-12	Sep-12	Jun to Sep-12	Sep-11 to Sep-12

The stock of grains held by the NFRA as at the end of September 2012 was 93,331.1 tonnes compared with 200,053.0 tonnes recorded in the corresponding period in

2011 (**Table 1.4**). The available stock comprises 91,020.8 tonnes of maize and 2,310.3 tonnes sorghum.

Inflation Developments

The average annual headline inflation during the quarter ending September 2012 eased to 14.7 percent compared to an average of 18.1 percent recorded during the quarter ending June 2012. This development was mainly due to a decline in food and energy prices

following improved food supplies and a slow-down in the pace of fuel prices increase. Average annual food and non-alcoholic beverages inflation eased to 18.4 percent from 24.7 percent recorded in the preceding quarter (**Table 1.5 and Chart 1.2**).

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money and Credit

During the quarter ending September 2012, annual growth of extended broad money supply (M3) was 10.1 percent compared with 23.7 percent recorded in the corresponding period in 2011 and 11.8 percent in the quarter ending June 2012 (**Chart 2.1**). The continued deceleration in M3 was mainly explained by moderate government expenditure

and sizable revenue collection coupled with a tight monetary policy stance. This is reflected in the contraction in the net domestic asset (NDA) of the banking system, which recorded an annual growth of 13.7 percent compared to 40.1 percent recorded in the corresponding period in 2011 (**Table 2.1**).

Credit to the private sector recorded an annual growth of 16.1 percent, down from 29.4 percent recorded in the quarter ending September 2011. In the preceding quarter credit to the private sector

grew by 18.7 percent. All economic activities recorded slow growth in credit except for Agriculture and Transport & Communication (**Chart 2.2**).

Chart 2.2: Annual Percentage Growth of Banks' Credit to Selected Activities

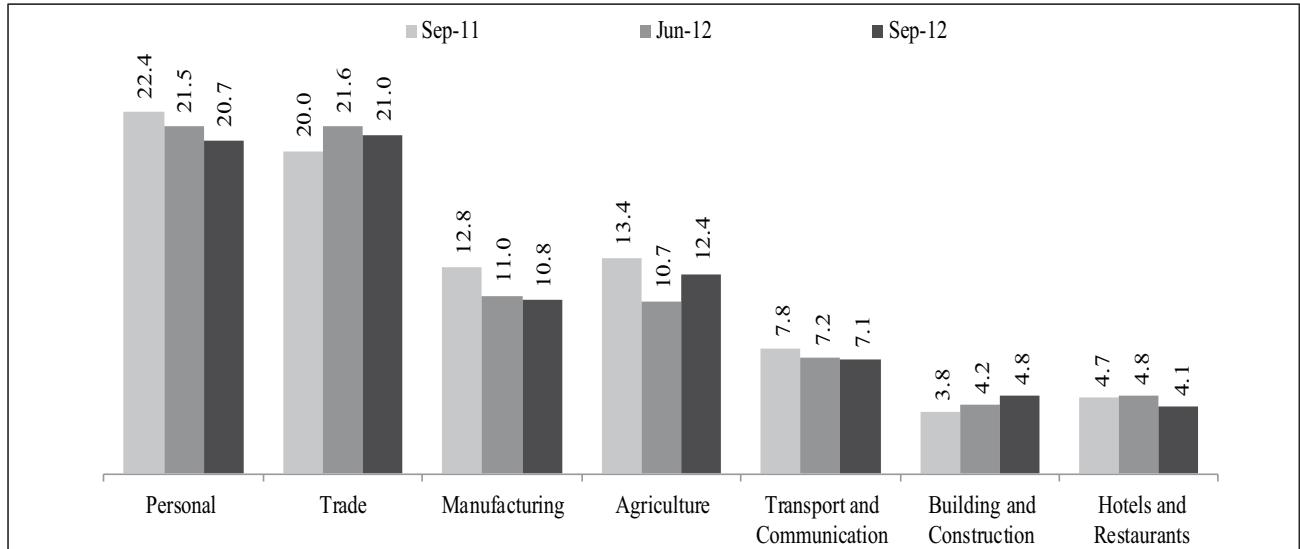

Source: Bank of Tanzania

In terms of the share to total outstanding credit, trade and personal loans continued to receive the largest share accounting for

21.0 percent and 20.7 percent respectively of the total loans (**Chart 2.3**).

Source: Bank of Tanzania

During the quarter under review, transferable deposits and non-transferable deposits accounted for the largest shares in M3, however in terms of contribution

to annual change in M3, transferable deposits and currency in circulation had the largest share (**Table 2.2**).

Table 2.2: Percentage Share of Components of M3

Interest Rates Developments

During the quarter ending September 2012, interest rates in the money markets exhibited a downward trend. With the exception of repo rate, all money market interest rates decreased when compared

to those recorded in the preceding quarter. Overall lending rate increased to an average of 15.68 from 15.20 percent recorded in the quarter ending June 2012 and 15.24 percent in the corresponding

quarter in 2011. Lending rates for prime customers (Negotiated lending rates) increased slightly to an average of 13.89 percent from 13.80 percent in the quarter ending June 2012. Deposits rates also registered an upward movement with the overall deposit rate increasing to 8.36

percent from 8.25 percent in the quarter ending June 2012 and 6.26 percent in quarter ending September 2011. The spread between the 12- months deposit rate and one year lending rate was 3.81 percent compared with 7.72 percent recorded in the quarter ending September 2011 (**Table 2.3**).

Financial Markets Operations

During the quarter ending September 2012, the Bank offered Treasury bills worth TZS 750.0 billion compared with Treasury bills worth TZS 420.0 billion offered in the preceding quarter. The increase in the amount offered was associated with an increase in the

tender size from TZS 70.0 billion per auction to TZS 110.0 billion in August and September 2012, respectively. Total demand amounted to TZS 1,296.0 billion, implying an oversubscription of TZS 546.0 billion. The Bank accepted Treasury bills worth TZS 770.8 billion (**Chart 2.4**).

Chart 2.4: Treasury Bills Market Performance

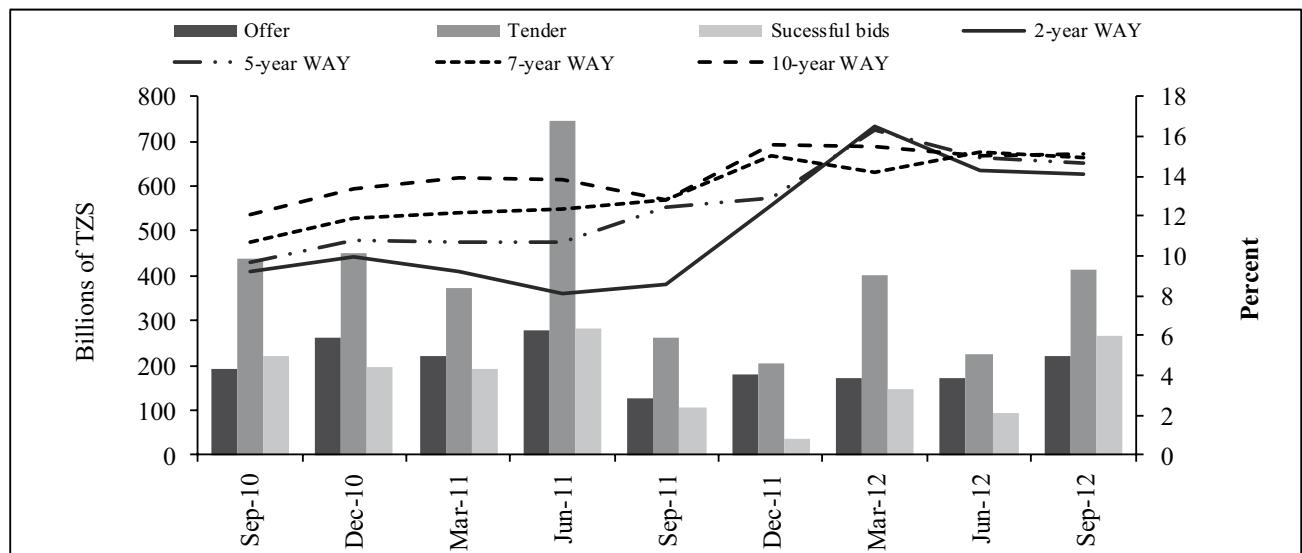

Note: WAY=Weighted Average Yield

Source: Bank of Tanzania

During the quarter under review, the Bank offered TZS 219.0 billion worth of **Treasury bonds** and demand was TZS

415.4 billion (**Chart 2.5**). The Bank intervened and accepted bids worth TZS. 264.8 billion.

Chart 2.5: Treasury Bonds Market Developments

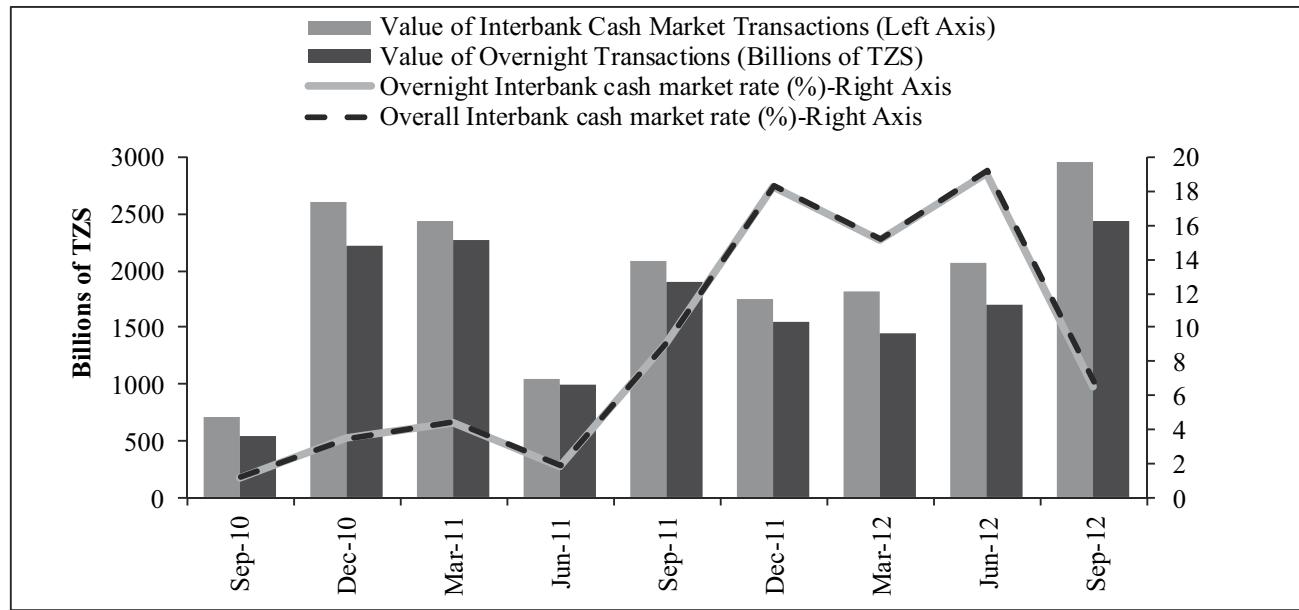

Source: Bank of Tanzania

During the quarter ending September 2012, total volume of transactions in the interbank cash market amounted to TZS 2,957.6 billion compared with TZS 2,065.3 billion registered in the quarter

ending June 2012 (**Chart 2.6**). Overnight placements accounted for 82.4 percent of total transactions broadly the same as that recorded in previous quarter.

Chart 2.6: Inter-bank Cash Market Developments

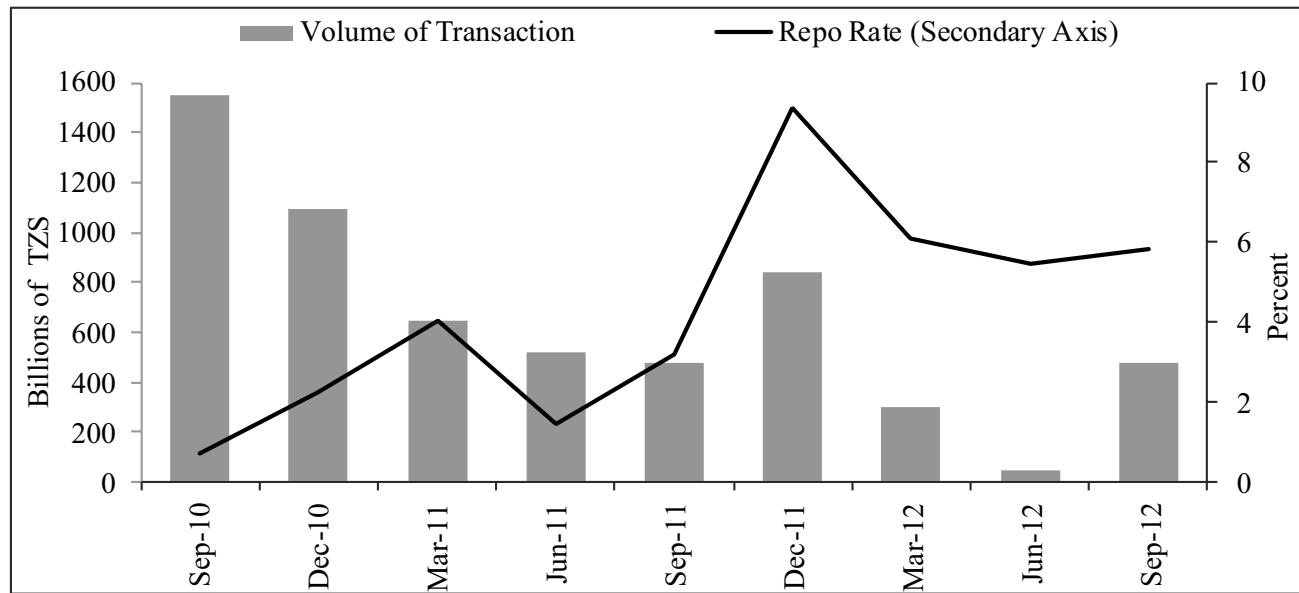

Source: Bank of Tanzania

During the quarter under review, the Bank conducted **Repurchase Agreements (Repos)** worth TZS 474.5 billion compared with TZS 45.0 billion

in the preceding quarter (**Chart 2.7**). This outturn was attributed to improved liquidity condition of banks, as evidenced by the decline in money market rates.

Chart 2.7: Repo Market Developments

Source: Bank of Tanzania

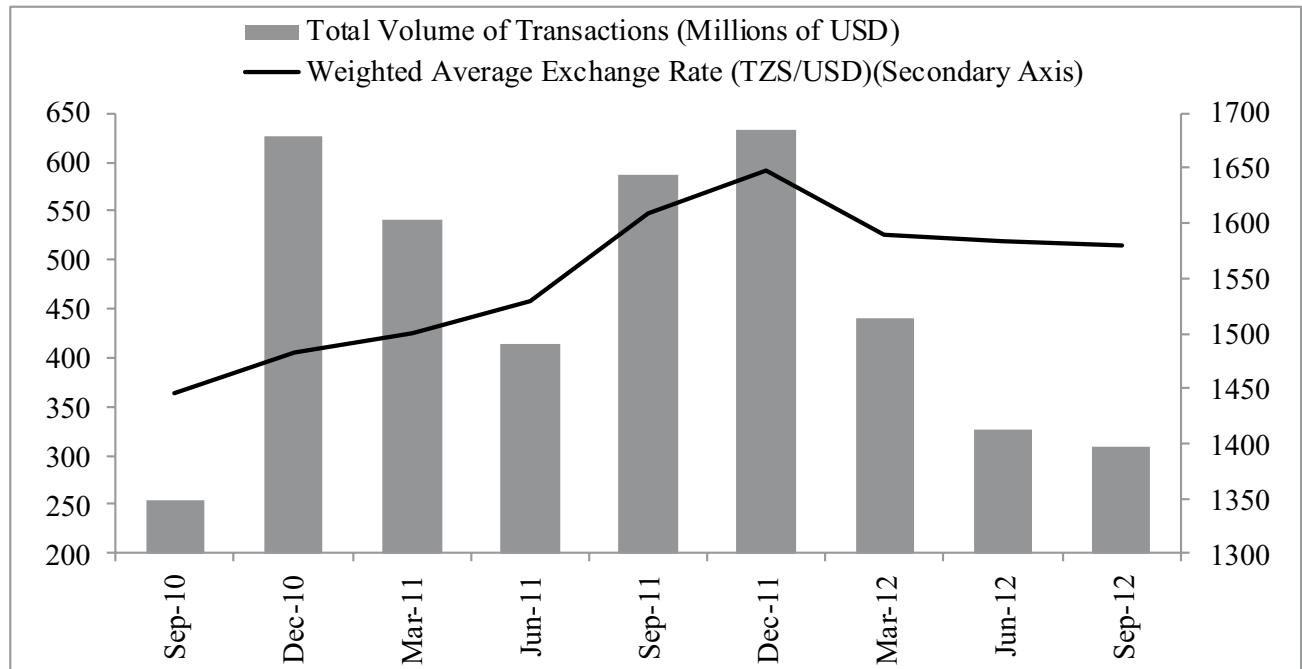

In the quarter ending September 2012, total volume of transactions in the **Interbank Foreign Exchange Market**

(**IFEM**) amounted to USD 309.8 million compared with USD 327.2 million sold in the quarter ending June 2012. Out of

total transactions, the Bank sold USD 130.7 million compared with USD 111.55 million sold in the quarter ending June 2012. The Shilling appreciated slightly

from an average exchange rate of TZS 1,584.7 per USD in the preceding quarter to TZS 1,579.4 per USD (**Chart 2.8**).

3.0 PUBLIC FINANCE

Government Budgetary Operations

During the quarter ending September 2012, domestic revenue and grants amounted to TZS 2,455.6 billion, while total expenditure amounted to TZS 2,152.9 billion, resulting into a deficit of TZS 75.3 billion after the adjustment to cash.

Revenue (excluding Local Government Authorities own sources), amounted to TZS 1,971.7 billion, and was below the target by 6.6 percent. Tax revenue amounted to TZS 1,842.6 billion, 95.2 percent of the target for the quarter and accounted for 93.0 percent of total revenue (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending September 2012

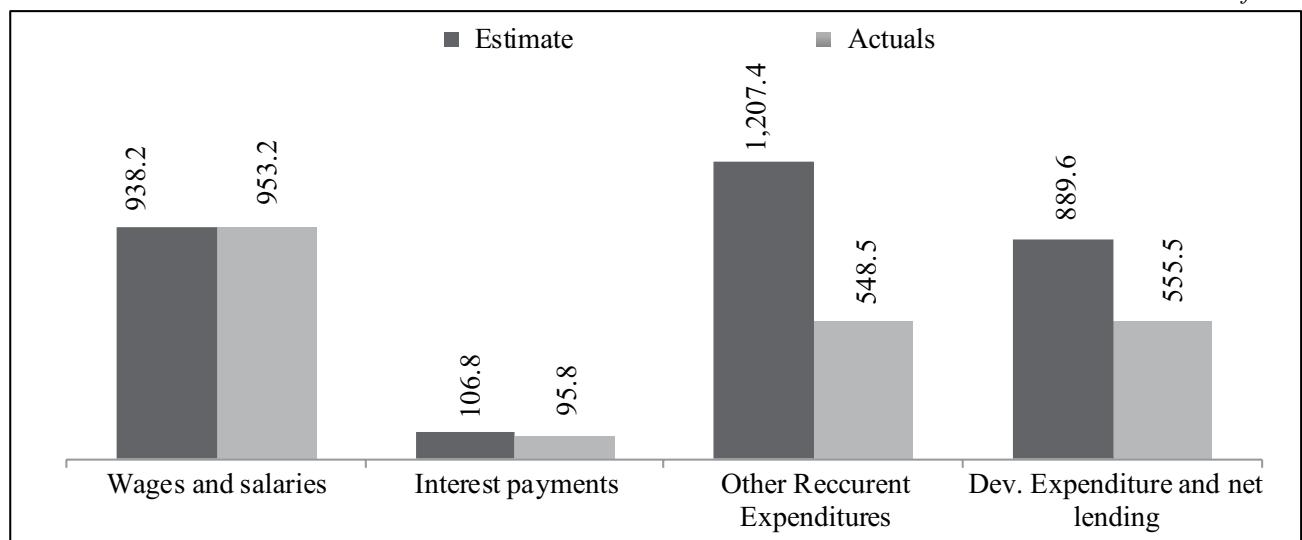

Source: Ministry of Finance

Expenditure during the quarter under review amounted to TZS 2,152.9 billion or 68.5 percent of budget estimate, out of which recurrent expenditure was TZS 1,597.4 billion and development

expenditure was TZS 555.5 billion (**Chart 3.2**). Development expenditure was lower than planned on account of low pace of implementing development projects.

National Debt

Tanzania's external debt stock at the end of September 2012 was USD 10,476.1 million, being an increase of USD 121.5 million over the amount recorded at the end of preceding quarter. The increase was on account of new disbursements and accumulation of interest arrears. Out of the external debt stock 85.5 percent was Disbursed Outstanding Debt (DOD) and 14.5 percent was interest arrears.

The profile of external debt by borrower category indicates that Central Government debt increased to USD 7,983.4 million compared to USD 7,912.8 million recorded at the end of June 2012, mainly due to new disbursements received from International Development Association (IDA) and Hong Kong Shanghai Banking Corporation (HSBC). The amount and shares in respect of other borrower categories were as presented in **Table 3.1**.

Table 3.1: Tanzania's External Debt Stock by Creditor Category

Disbursements received and recorded during the quarter under review amounted to USD 73.7 million, while external debt service amounted to USD 16.2 million, out of which USD 8.7 million was principal, USD 4.8 million interest and USD 2.3 million was other charges.

The stock of domestic debt at the end of the quarter stood at TZS 4,624.7 billion, being an increase of 10.8 percent over the amount recorded at the end of the preceding quarter. The increase was on account of a relatively large issuance of government securities. The share with respect to debt instruments is as shown in **Table 3.3**.

Domestic debt by holder category shows that the share of deposit money banks' holdings was 51.6 percent up from 46.4

percent recorded at the end of preceding quarter while that of the Bank of Tanzania continued to decline (**Chart 3.3**).

Chart 3.3: Percentage Share of Holding of Government Domestic Debt

Source: Ministry of Finance and Bank of Tanzania

New domestic debt issued during the quarter under review amounted to TZS 459.1 billion, out of which, TZS 195.5 billion was Treasury bills, and TZS 263.6 billion Treasury bonds. During the quarter, debt worth TZS 391.8 billion

was due for payment, out of which principal amounting to TZS 307.7 billion was rolled over while interest amounting to TZS 84.1 billion was paid out of government resources.

4.0 EXTERNAL SECTOR DEVELOPMENTS

Current Account

During the quarter ending September 2012, the current account deficit narrowed to USD 939.0 million compared to a deficit of USD 1,124.5 million recorded

in the preceding quarter. The narrowing was a result of an increase in current transfers (**Table 4.1**).

Table 4.1: Current Account Balance

Services and Income Account

Services account (net) recorded a surplus of USD 159.6 million compared to a surplus of USD 99.4 million recorded in the corresponding quarter in 2011 on account of a rise in services receipt that outweighed a decline in services payment.

The income account (net) continued to record a deficit that amounted to USD 81.1 million compared to a deficit of USD 64.2 million recorded in the corresponding quarter in 2011 (**Table 4.4**).

World Commodity Prices

During the quarter ending September 2012, world market prices of major commodities with exception of **tea** and **white petroleum product** (Jet/Kerosine and Premium Gasoline) declined (**Table 4.5**). The price of **coffee** declined due to an anticipated increase in production in Brazil and Vietnam following good weather. Likewise, expectations of

cotton bumper harvest in China and weak global demand by textile manufacturers contributed to the decline in the price of cotton. Furthermore, the price of **cloves** decreased mainly due to expectations of an increase in global output. The price of **tea** increased on account of a decline in supply following unfavorable weather conditions in Kenya and Sri Lanka.

Table 4.5: World Commodity Prices

5.0 THE ZANZIBAR ECONOMY

The Overall Economic Performance

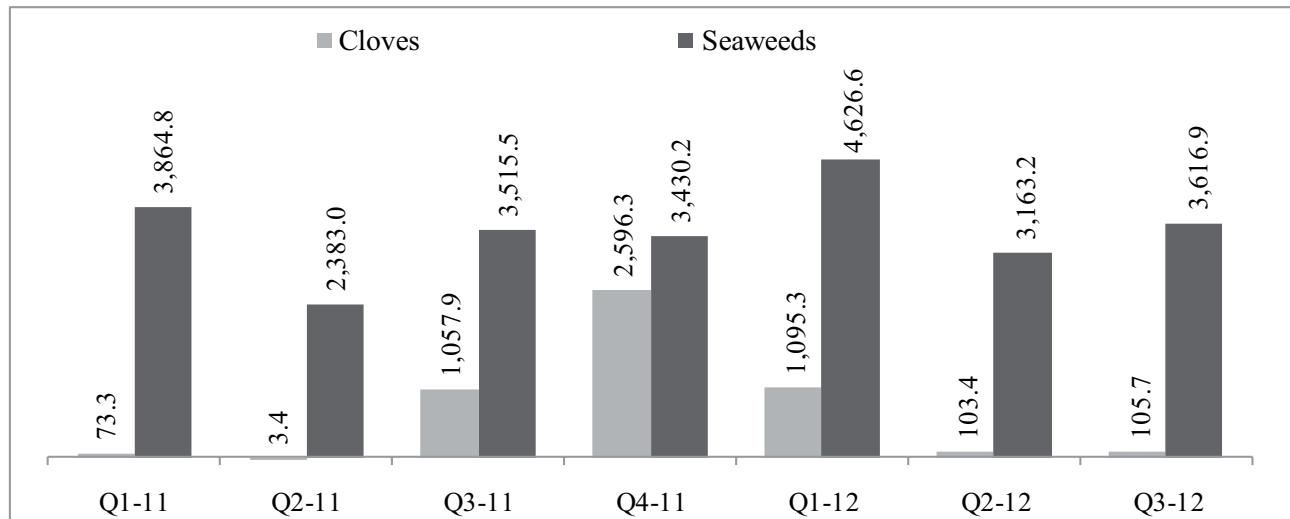

Zanzibar's real Gross Domestic Product (GDP) grew by 10.0 percent in the second quarter of 2012 compared to a growth of 1.4 percent recorded in the corresponding quarter in 2011. This development was mainly on account of good performance of the services sector, whose value added was TZS 90.3 billion compared with TZS 82.0 billion recorded in the corresponding period of 2011.

Procurement of Major Export Crops

During the quarter ending September 2012, procurement of cloves declined

to 105.7 tonnes from 1,057.9 tonnes procured in the corresponding quarter in 2011. This development was on account of late onset of cloves procurement season and a decline in producer prices. Producer price for grade one cloves was TZS 12,500 per kilogram compared with TZS 15,000 per kilogram paid during the quarter ending September 2011. Seaweed procurement increased to 3,616.9 tonnes from 3,515.5 tonnes procured in corresponding period in 2011 on account of improvements in prices (**Chart 5.1**).

Chart 5.1: Zanzibar - Procurement of Major Export Crops

Notes: Q = Quarter

Source: Office of Chief Government Statistician (OCGS)

Manufacturing Activity

During the quarter under review, production of bakery products, soft drinks, mineral water and jewel increased mainly on account of increased

demand, while production of clothes and video cassette decreased mainly due to increased competition from imports (**Table 5.1**).

Table 5.1: Zanzibar - Production of Selected Manufactured Commodities

Commodity	Unit	July - September		
		2011	2012 ^P	% change
Breads	No. "000"	28,391	29,530	4.0

Source: Office of Chief Government Statistician (OCGS)

Inflation Developments

The average headline inflation during the quarter ending September 2012 dropped to 7.7 percent, from 16.1 percent recorded during the corresponding quarter in 2011. This was largely on account of a decline in the prices of major food items notably rice, sugar and wheat flour².

Average food inflation dropped to 4.4 percent from 20.8 percent, while non-food inflation increased to 12.3 percent from 10.5 percent (**Table 5.2**).

²Office of Chief Government Statistician (OCGS) effective September 2012, started to publish inflation rates basing on new Consumer Price Index (CPI) sub-groups weights from 2009/10 Household Budget Survey (HBS).

Government Budgetary Operations

During the quarter ending September 2012, **government budgetary operations** on cheques issued basis registered a deficit of TZS 18.6 billion after adjustment to cash. **Total government** resources amounted to TZS 100.5 billion; out

of which TZS 62.7 billion was from domestic sources and the balance was grants. Tax revenue amounted to TZS 59.0 billion, accounting for 94.1 percent of total domestic revenue (**Chart 5.2**).

Chart 5.2: Zanzibar Government Revenue by Source

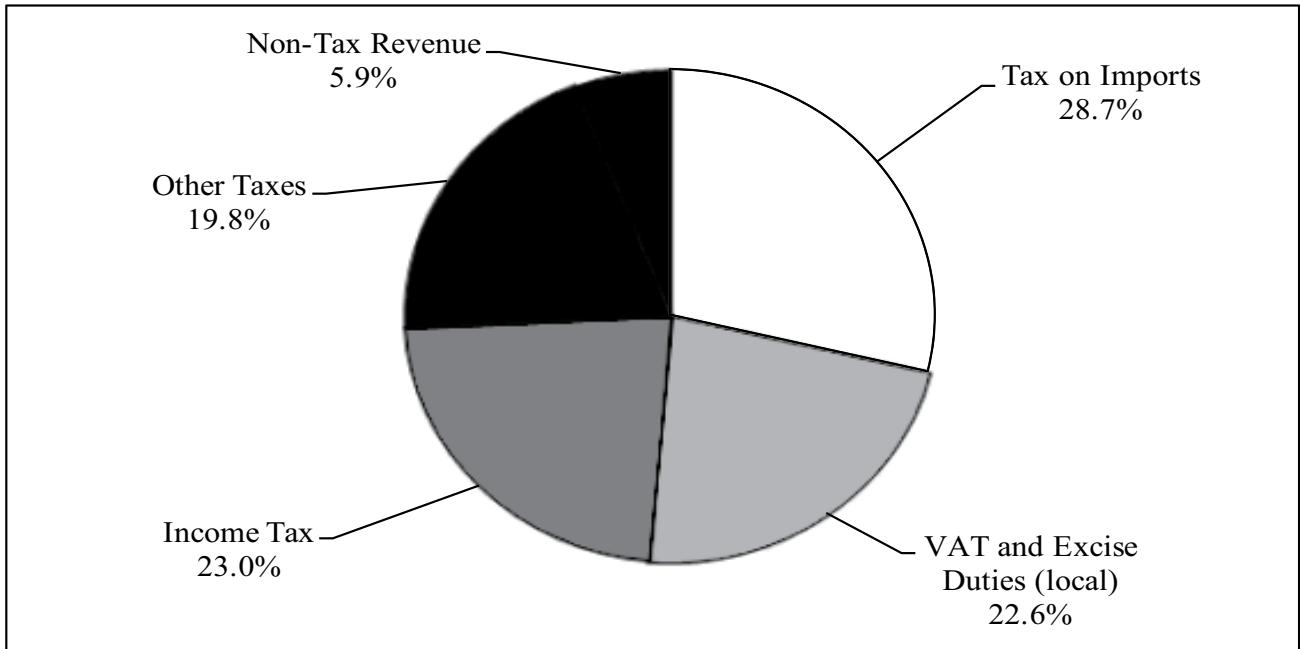

Source: President's Office Finance, Economy and Development Planning - Zanzibar.

Government revenue by source shows that tax on imports accounted for the highest share at 28.7 percent, followed

by income tax, VAT and excise duty, and other taxes (**Chart 5.3**).

Chart 5.3: Government Revenue by Source - Percentage Shares Quarter ending September 2012

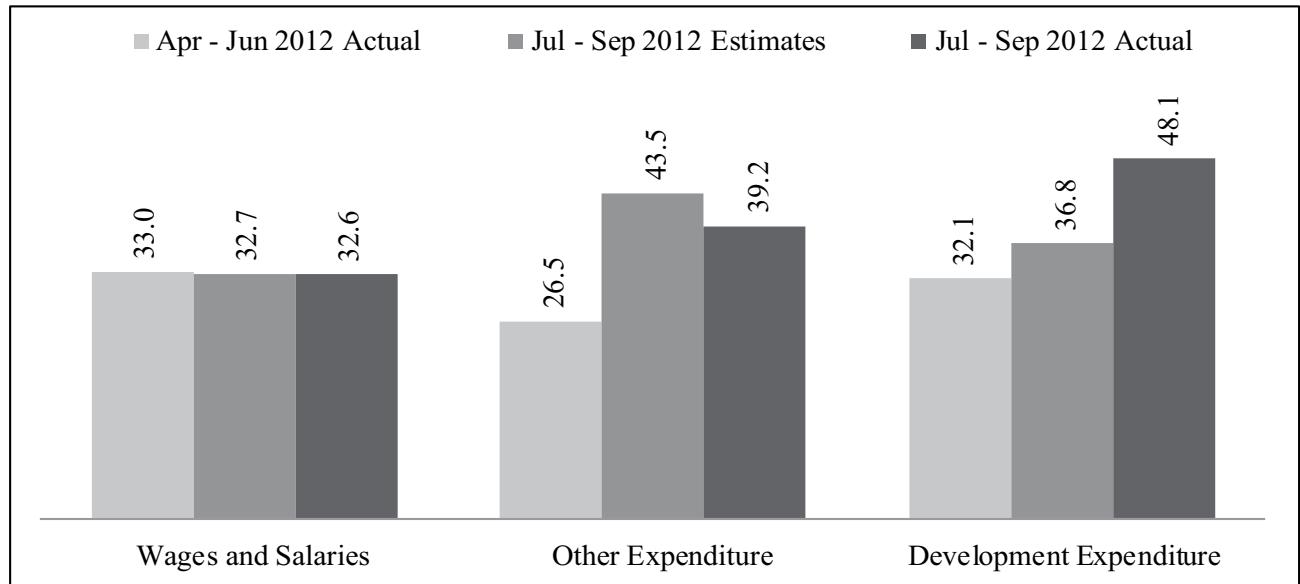

Source:President's Office Finance, Economy and Development Planning - Zanzibar.

Total Government expenditure was TZS 119.9 billion, or 6.1 percent above the estimates. Recurrent expenditure was TZS 71.8 billion, accounting for 59.9 percent of total expenditure, while

development expenditure amounted to TZS 48.1 billion. Expenditure performance by components compared to targets is shown in **Chart 5.4**.

Chart 5.4: Government Expenditure by Component

Source: Ministry of Finance and Economic Affairs-Zanzibar

Debt Developments

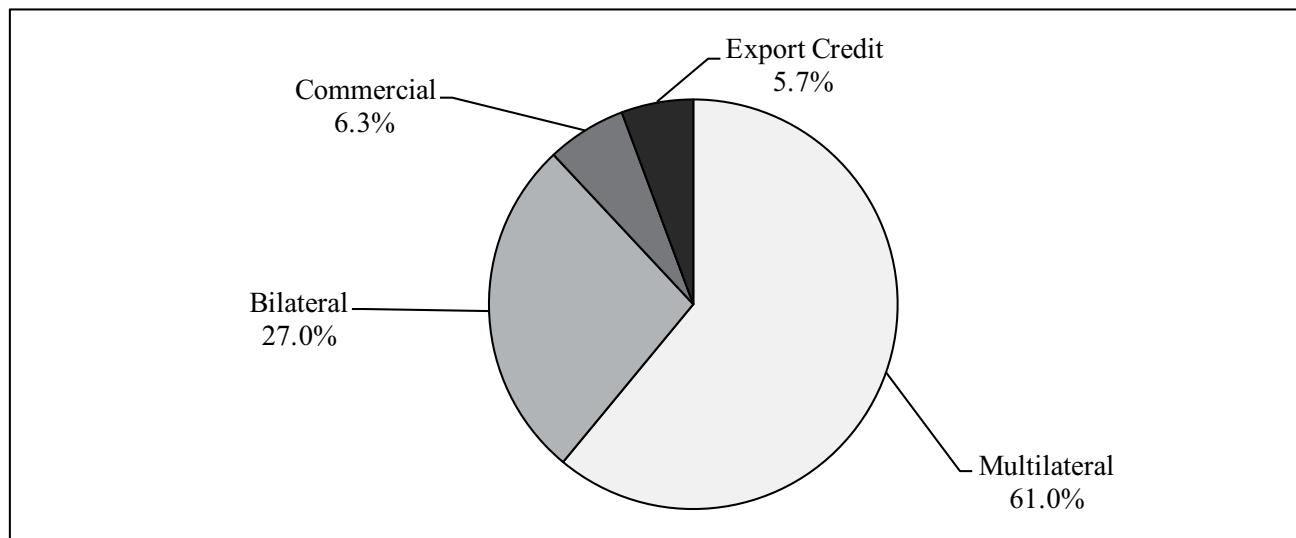

Zanzibar's total debt stock as at the end of September 2012 was USD 157.2 million up from USD 144.0 million recorded at the end of June 2012. External debt amounted to USD 123.8 million, while the balance was domestic debt.

External Debt

Total external debt stock stood at USD 123.8 million, up from USD 111.7 million recorded at the end of June 2012.

The increase was partly associated with the external borrowing to the tune of USD 3.3 million to finance Zanzibar's e-government optical transmission project. Debt guaranteed by the Union Government accounted for 87.3 percent of total external debt. Debt due to multilateral creditors was dominant followed by bilateral creditors, while export credit was the lowest (**Chart 5.5**).

Chart 5.5: External Debt by Creditors as at end of September 2012

Source: President's Office, Finance, Economy and Development Planning – Zanzibar

In terms of maturity, debt maturing beyond 20 years accounted for the largest

share of total external debt (**Table 5.3**).

Table 5.3: Zanzibar External Debt – by Maturity

Domestic Debt

The stock of domestic debt increased to TZS 52.4 billion from TZS 50.7 billion recorded at the end of June 2012, mainly on account of an increase in government

gratuity claims by retired civil servants and suppliers' credit. The profile of domestic debt by creditor category is summarized in **Chart 5.6**.

Chart 5.6: Zanzibar Domestic Debt by Creditor

Note: Others mainly comprises of holders of Government Securities

Source: President's Office, Finance, Economy and Development Planning – Zanzibar

The profile of domestic debt by instrument category shows that Treasury bonds accounted for the largest share, followed

by other instruments and government loans (**Table 5.5**).

Exports

The value of total exports of goods and services rose to USD 64.1 million; from USD 39.4 million recorded during the quarter ending June 2012 on account of an increase in earnings from clove exports and receipts from tourism related activities (**Table 5.7**). Goods worth USD 11.4 million were exported during the quarter ending September 2012, up from USD 9.1 million of the preceding quarter

mainly on account of an increase in clove export proceeds.

Non-traditional exports, mainly seaweed, manufactured goods³ and other exports (Zanzibar souvenirs) increased by 63.0 percent during the quarter under review when compared with the levels recorded in the preceding quarter (**Table 5.8**).

³Mainly essential stem oil and rubber

Imports

During the quarter under review, total value of imported goods and services increased by 43.0 percent to USD 90.1 million, from USD 63.0 million recorded in the preceding quarter (**Table 5.7**).

Value of goods import (f.o.b) increased by 24.2 percent to USD 58.0 million, and accounted for 64.4 percent of total imports (**Table 5.9**). The goods import bill increased mainly on account of a rise in the value of capital goods.

Services and Income Account

During the review period, the services account registered a surplus of USD 20.6 million, compared with a surplus of USD 14.1 million recorded during the

quarter ending June 2012, mainly driven by an increase in receipts associated with tourism related activities (**Table 5.10**).

Table 5.10: Zanzibar Service and Income Account

6.0 ECONOMIC DEVELOPMENTS IN EAC AND SADC

During the quarter ending September 2012, average inflation in the East African Community region declined to 10.6 percent, compared with 15.5 percent recorded during the preceding quarter,

with Rwanda and Kenya recording single digit inflation rates (**Table 6.1**). The decline in inflation rate in the region was mainly due to a fall in food and energy prices.

Table 6.1: EAC and SADC Real GDP and Inflation

Q refers to Quarter

Source: Respective National Statistical Offices

The SADC region recorded an average inflation of 8.2 percent during the quarter under review, same rate as recorded in the previous quarter. With the exception of Namibia and Malawi, all other SADC

member countries recorded declines in inflation mainly on account of decreased food prices, while the increase in inflation in Malawi was due to a rise in food prices.

Note:

1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

Change in Net International Reserves	-585.2	-148.4	-369.4	343.2	-156.8
Exchange rate - TZS/USD (end of period)	1,132.1	1,280.3	1,313.3	1,453.5	1,566.7
Exchange rate - TZS/USD (annual average)	1,239.5	1,196.8	1,319.9	1,432.3	1,579.5

- Note:**
1. Revision is based on new data obtained from the completion of Private Capital Flows and tourism survey and adoption of new data sources for some other items in the services account
 2. Change in gross official reserves will not necessarily be equal to reserve assets since a new methodology of computing reserve assets which nets out the impact of valuation was introduced beginning January 2006

P = Provisional , r = Revised, o/w = Of which

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation Outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Discount Rate also known as Bank Rate

The rate of interest the Bank of Tanzania charges on Loans it extends to Commercial Banks and government overdraft.

Exchange Rate

This is the price at which one currency can be purchased with another currency, e.g. TZS per US Dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging of eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of 35-day T-bill, Repo (7 days) or overnight inter-bank rate whichever is higher in the market plus 20%.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

M1, Narrow Money,

Consists of currency in circulation outside banks and demand deposits.

M2, Broad Money

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

M3, Extended Broad Money

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheque, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of deposit other than transferable deposits.

Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
